Begum Tells Large Audience Of Problems In Pakistan

The meeting Monday evening at which Begum Shaista S. Ikramullah, wife of the High Commissioner for Pakistan to Canada, was introduced to Peterborough probably broke all city records for questioning from the audience. When invited to question this speaker for lowing her short address on her country, the questioners received such satisfying and obviously competent answers that the flow continued from all quarters, and on a wide variety of subjects. The questioning indicated there was a lack of know, and thus rewarded the University Women's Club of Rety being dead.

The chase began when the east-bound car sped past a provincial police cruiser at 70 miles an hour near Oakville, 20 miles west of here. A radio call to Port Credit set up a road block there, officers comandeering a 22-ton refrigerator transport and setting it across the two lanes, well lighted with fuses, DIDN'T SLOW UP

Without slackening speed, the car bore down on the roadblock and hit the rear dual wheels, disintegrating into a mass of crumpled metal. The three men were found inside the twisted wreckage.

Constables chasing the car said they hit speeds of from 95 to 105 miles an hour and the car still pulled away from them. One officer said he thought the car had been "souped up" for high peeds.

The impact of the car drove the truck 15 feet, bending the heavy dual wheel framing.

Starlings Get Last Laugh In Experiment

COBOURG (ENS)-Last week The Examiners' Onithology a Cobourg man was making an there, acting on the assumption that one starling killed now means spring. The modus operand was to mix a sleep-producing drug in some wheat and put it out in the backyard where the pesky birds congregated to eat. When they went to sleep, he would scoop them up and destroy them. Sounded simple. But the birds weren't.

as follows:

"I have made a study language of the birds and I sec-reted myself within earshot when a group of starlings circled the yard and came in for a landing.

"Some of the younger ones made a beeline for the drugged wheat but one wise old bird squawked, 'Just a minute till your old pappy investigates. There is something fishy about that old so-and-so inside giving us any treats, particularly wheat. Let me have a look at that grain.'

The Joke The County Council Didn't See

The path of the humorist is a hard one; whenever he makes a joke somebody is always liable to take it seriously, and then there must be explanations, and sometimes there is a mess to be cleared up. For instance, when the County Solicitor, Mr. Walter Howell, suggested to the County Council at their January meeting that they could make some money if soft drink machines, chocolate machines and cigarette machines were installed in the Court House building, he undoubtedly meant it as a joke. But the County Council did not see the joke, and a large, shiny Coca Cola machine is now standing on the right-hand side of the entrance hall. with all the cheerful inappropriateness of a lady of easy virtue attending a christening.

True, this new concept of the nature of a Court House should liven up the administration of justice. Spectators will be able to munch and swig as they listen to the cases. When things are dull they can amuse themselves, as sometimes happens in movie theatres, by rolling bottles down the aisles. Whether learned counsel will appear at the bar with bottles of pop in their hands will be, of course, a matter for the Bar Association to discuss. And any pinball games the County Council decides to install will have to be strictly honest for, after all, the year-round Midway at the Court House must not provide extra work for the courts.

There is a body of opinion, however, with which The Examiner sympathizes which thinks that machines which sell drinks have no place in a Court House building. The administration of justice, and the offices associated with it, require surroundings of dignity and even of solemnity. The local Court House is a fine building, architecturally interesting and characteristic of the era in which it was constructed: no matter how many vending machines are installed in it, the atmosphere of a dance hall or a hockey arena will never be completely achieved Would it not be better, therefore, to avoid the present clash of atmospheres by removing the machine? Or perhaps by putting it elsewhere—the County Council Chamber, for instance?

Whose Rifle?

A new standard rifle for all armies of NATO countries is still not being produced, despite a workable compromise suggested by the Canadian Chief-of-Staff, Lieut.-General C. G. Simonds. The British still have their .303 Lee-Enfield, the Americans their .300 Garand, and the Canadians change arms between the two of them, although generally carrying the old .303 Lee-Enfield.

Britain designed, approved and sponcalibre rifle. This was demonstrated to the U.S. army in 1951. The chief American objection to it was that the .280 cartridge, designed to fire a lead-filled bullet, could not develop the muzzle velocity necessary for the American all-stee bullet. General Simonds met this objection by proposing use of the American type of cartridge case and the British

Last week Mr. Churchill announced an agreement-but only on minor technical points, not on the major one of calibre and size of bullet. It covers the size of the cartridge case and the overall length of the round. The British agreed to this compromise reluctantly, for their experts think the new round will be heavier and bulkier than necessary and. if an all-steel bullet is used (American plan), the greater recoil will make accuracy in continuous firing more difficult for the rifleman.

This compromise still is not sufficient for the Americans. They want further tests-which would not take place for another six months.

At the base of the argument are these two facts." The British need a new rifle -the Lee-Enfield has been in service since before the first Great War. The Americans do not need a new rifle, they believe. The Garand (Mr. Garand was born in Quebec, by the way) was introduced only in 1936. Since the Korean war started, orders have been placed for another million Garands.

As one observer of the American scene states, mere size is such an important servative investor. element in American thinking public opinion would disapprove American soldiers being given a rifle of smaller calibre than that used by the Red Army. The Russian rifle is a .300. So is the to those who listen in vain for a reason-Garand. The new British rifle is only able facsimile thereof in the countries

PETERBOROUGH EXAMINER ciency, superiority and fire power the new British rifle gives, the Americans will not be convinced that they should adopt it, although Canada and Belgium both favour it.

While this interminable discussion zoes on the British are without a new automatic rifle, and so are the Canadians, unless they adopt the American relative worth of the Garand and the new British .280. Meanwhile, they stick with the British and the Lee-Enfield and NATO countries and armies have no standard rifle, an obvious and urgent need.

of the people who want censorship. For instance, we were struck with a proposal IN NEW YORK the now famous Cinerama made by the Canadian Home and School and Parent-Teacher Federation, which the time to get into. Its three-dimensional was that "A government committee or effects are provided not by spectacles but board examine Canadian publications by a gigantic curved, screen, corresponding before distribution; anyone interested to the arc of vision of the human eye, on before distribution; anyone interested might appear before the board to outline a case for or against banning; appeals from the board's decision to a Supreme Court should be provided with Canyon, skimming along; at every showing the distribution, skimming along; at every showing the first showing th

As there are over ninety government censor permanently on the staff? Would every publishing house in the country be similarly equipped? We wonder if the Canadian Home and School and Parent-Teacher Federation has any idea how much matter—books, papers and pamphlets—is published in Canada in a year?

Why allow the publisher to go to the expense of putting his material into printed form before holding the sword over his head? Why not check it in manuscript? That could be done at a central Censorship Department in Ottawa. Or, best plan of all, why not tell writers what to write before they hears.

Whether the ancient city of Kingsten was the scene of the first organized hockey ever played in Canada, this writer is not prepared to say.

But there is little doubt but that one of the first organized hockey leagues of all time was that which, in 1888, engaged four teams, in the ancient Limestone City, including Queen's University and Royal Military College, a league that played its games on an outdoor rink surrounded by a low fence, with the spectators seated atop the great banks of snow piled around the playing surface. It was after this that Queen's University erected one of the earlier indoor rinks in Canada.

that Queen's University erected one of the earlier indoor rinks in Canada.

The City of Kingston then organized a team called the Frontenacs in honor of Count Frontenac, whose name the city originally bore. Jim Sutherland was selected to act as manager of the team and the records show that the Frontenacs wrote some of hockey's brightest pages down the years. Their greatest glory came when the juniors won the O.H.A. championship in 1911 and established scoring records that have never been even remotely approached.

Yes, indeed, these Frontenacs were a mighty force 41 years ago. With Jim Sutherland at the helm, they filled enemy nets with rubber and racked up as many as 32 goals in one game. Their combination attacks have never been surpassed, if equalled, and the greatest of them all was galiant Alian "Scotty" Davidson, who later deserted professional hockey to entist in the Canadian armed forces of World War 1, and gave up his life in Flanders Field.

Jim Sutherland also marched away to war in 1916, the year that he became president of the Canadian Amateur Hockey Association. He was then in his 46th year, but the will to serve was inherited from his Scottish ancestors and nothing could have deterred that path of duty. And he did serve so well that he was recommend for the Order of the British Empire.

well that he was recommened for the Order of the British Empire.

Hockey did not seem to be the same in Kingston with Jim Sutherland 'stick-handling' against the Germans on the Western Front, but it staged a remarkable recovery after he returned. Kingston then celebrated in a championship setting when the Frontenacs captured the O.H.A. intermediate title in 1919, with none other than the mighty Bill Cook, who became a star in the Western League and later with New York Rangers, the outstanding start of the series.

Mr. Sutherland. having planted the seed, now eagerly awaits that day when the International Hockey Hall of Fame will rise in all majesty in Kingston. When this has been accomplished it-should be written high upon the walls that "unto this man who saw and believed, must go the accolade for tenacity in following a star on which no sun will ever go down."

MONTREAL (CP)—The weekly deferential bow to the regal Detroit Red Wings and their brilliant Gordie Howe is in order. That done, there should be a ripper of a party for Boston Bruins, the National Hockey League team of the week.

The Bruins were the only team with a perfect record last week. In their three games they bopped off the proud, league-leading Red Wings, the lowly New York Rangers, and finally the second-place Montreal Canadiens.

The Bruins' three wins moved them from fifth to third place in the league standing.

Howe continued to make the individual scoring race a runaway. The 24-year-old rightwinger became the youngest player in NHL history to reach the 200-goal mark. He followed through with his 201st both against Chicago Black Hawks, Sunday night.

TREARING RECORD

His total of 41 goals and 34 assists for 75 points puts him with his cast for 75 points puts him with his 24 assists for 75 points be set two seasons ago and duplicated last year. He is also steadily moving up to the goal record, 50 in one season, held by Maurice Richard of Canadiens.

Ted Lindsay of Detroit, harvest-individual race, with 57 points.

Richard, pointless last week, remained in third place with 50 points, only two ahead of Wally Hergesheimer of New York, who collected two goals and one assist.

In the tight battle for goal-tending honors both Terry Saw-chuk of the Red Wings and Gerry McNeil of Canadiens sliced fractions from their goals-against averages.

Sawchuk trimmed his average from 2.04 to 2.02. McNeil, at 2.08

LINDSAY (ENS).— A Supreme Court grand jury, which includes the only two women in Victoria County who accepted their jury call this assizes, Monday returned a true bill in the rape trial of Gerald Statham and Wilfred Dumoulin of Lindsay.

The two were charged following a Christmas night incident in which they allegedly assaulted a 15-year-old Lindsay girl parked with her 17-year-old boy friend on a concession road, west of the town.

The jury deliberated for more than an hour before bringing in the bill. The case is being tried by Mr. Justice Barlow.

Statham, 17, is being defended by Arthur Martin of Toronto, Mr. Powell graduated from the University of Toronto in 1939 with the degree of Bachelor of Applied Science.

On graduation he was appointed assistant engineer of Leaside and worked with a Toronto construction company for a short time before joining the Royal Canadian Engineers, serving for three years.

Following the Second World War, he became asistant manager of the Kingston Public Utilities Commission before coming to the Kingston Public Utilities Commission before coming to the Kingston Public Utilities Commission before coming to Peterborough as chief engineer and assistant manager in 1949.

Howard Clegg, retiring business manager of the PUC, was born in Peterborough and worked with the Moose Jaw waterworks department as an accountant.

The danger was that the U.S. might take some further steps that would not end the war, in Korea, but would not end the war, in Korea, but would precipitate its spread into a third world war.

Mr. Mackenzie said UN supplies had gone indirectly to help the Communists in China. Great quantities of cotton, for instance, had gone into the making of Nationalist uniforms contrary to the UN relief regulations. Later many of the soldiers who got these uniforms had deserted to the Communist forces.

Mrs. Jackson gave a short talk on stewardship. "We are stewards of all of life, including even our every-day speech and will be held responsible for the things we say, also for words left unsaid that should be spoken."

Mrs. Clarence Rowan gave the chapter from the study book, "Along African Trails." "There are a large number of African workers now, who bear the burden of making their own living and are not supported by missions. The church is divided into various sections and one pastor, sissisted by deacons, deaconesses and cathechists will have the oversight of over 200 villages. There are 50 ordained pastors, 300 deaconesses, 200 deacons and 2,000 catechists. "Training African leaders is essential to missionary progress. Our task is to help take the burden off the African church."

At the close of the meeting lunch was served by the hostess and a social hour enjoyed.

Costume Problem For U.K. Actors

LONDON, (CP) — Amateur dramatic societies in the United Kingdom have posed a major problem for theatrical costume firms by selecting the same opera for their Coronation year production.

The favored presentation is "Merrie England," an opera with an Elizabethan flavor, composed by Edward German and Basil Hood in 1902. Ever since its introduction the opera has held top place among amateur companies.

A normal stage production of the show calls for about 80 costumes but some presented in pageant form require more than 500.

Bob Harris, manager of a London firm of theatrical outfitters, said his company alone had been inundated with orders from 50 societies that had chosen "Merrie England." Many had been turned down because there were not enough costumes to go around.

Other firms in the trade have experienced the same problem.

A Question for Shoppers-What is it you pay for in coffee?

You'll agree . . . it's flavor you pay for. The more flavor, the more coffee-drinking pleasure—the more value for your money. How can you get it every time?

Why you get extra flavor in this "PRIME FLAVOR" coffee

You get extra flavor in Maxwell House because it's made predominantly from "Prime Flavor" coffees. They're the choice, flavorful coffees that contribute most of the richness to a good blend. Maxwell House buys more "Prime Flavor" coffees than any other buyer!

These fine coffees are blended by master craftsmen then "Radiant Roasted". No wonder more people buy Maxwell House than any other brand of coffee in the world at any price. Enjoy Maxwell House today.

"I LEARNED THIS SHOPPING FOR COFFEE"

learned how much quality counts. Now I insist on Maxwell House. I've found no other coffee

The one coffee with that "Good to the Last Drop" Flavor

Finds Richard Toughest Job

By JOE REICHLER

MIAMI SPRINGS. Fis. (AP)—
Allie Reynolds, at the very peak of a brilliant pitching career, disclosed today he may quit baseball at the end of this season.

The great New York Yankee righthander, in a surprising interview, frankly stated that baseball resented an unhealthy situation for him and added:

"I doubt if I'll come back, especially if we don't win the pennant."

Allie had his greatest season last year, leading the American League in earned run average (2.07) and strikeouts (1.60) ranking second in shutouts (6), and third in complete games (24), and in winning percentage (2.08—7.14). He placed second to Bobby Shantz in the most valuable player balloting, with 183 points.

CLEARFIELD, Pa. (AP)-A Un- Mining Fever Rages

Reports of discoveries of uran-ium-bearing ore and metals used in production of high-tempered steels touched off the excitement earlier this week. The finds are said to be under Lake Nipissing, about five miles off shore from North Bay.

Three drill crews of Inspiration Mining and Development continue to probe the mineral structure. Meanwhile prospectors are pouring into the city. Properties for several miles along the lakefront are being staked.

C.A.S. Problems

Excessive drinking and mental filiness presented two of the most difficult problems in the community service of the Children's Ald Society as reported by Miss R. Young, superintendent, in her summary for January at the meeting of the society Tuesday.

"In cases of mental illness we try to secure the proper service and also see that the children are protected, and in the other cases we try to help those persons who want help and who want it over a sufficiently long period."

Of the 151 children in the care of the CAS last month, 35 were born of unmarried parents.

Ninety-six families received service during the month. Eight children came into the care of the society, and eight were placed in foster homes for the first time.

Personal Income Hits Record Of \$17 Billion

OTTAWA (CP) — Canadians' personal income amounted to a record \$17,146,000,000 in 1952, the government estimated today in a white paper tabled in the Commons preliminary to Thursday's budget.

Of the total, Finance Minister Abbott's white paper calculated, the earners spent \$14,290,000,000 on goods and services, \$1,318,000,000 on direct taxes — income, successions. on direct taxes — income, succession—and miscellaneous — and saved \$1,538,000,000.

Mr. Abbott's income levy took the biggest tax bite — \$1,177,000,000.

The increase in over-all personal income, the paper said, was almost wholly a gain in "real" income, since the consumer price index averaged only 2.5 per cent higher than in 1951.

The increase was due to steady expansion in salaries and wages.

Oldest Resident Of Cobourg P. Delanty Dies

COBOURG (ENS). — The funeral service was held today from St. Michael's Roman Catholic Church for one of Cobourg's oldest citizens, Patrick Delanty, 93, who died Monday.

He had been in excellent health until last September, when he began to decline in vigor. He had observed his 937d birthday on Saturday of last week.

Saturday of last week.

Mr. Delanty was born in Newcastle where he served his apprenticeship in the monument
business with John McDonald
When the latter moved his business to Cobourg, Mr. Delanty came
here with him.

When Mr. McDonald died in
1884, Mr. Delanty and Joseph Perrot took over the company. Nine
years' later, Mr. Delanty bought
out his partner. After 50 years in
business, he retired in favor of
his sons John and Joseph.

a substantial decline in farm income from its record 1951 fevel. Net farm income was shown as dropping to \$1,877,000,000 from \$2,174,000,000 Lower prices were the cause.

The increase in over-all personal income, the paper said, was almost wholly a gain in "real" income, since the consumer price index averaged only 2.5 per cent higher than in 1951.

The increase was due to steady expansion in salaries and wages and the start of old age security payments.

The Governor-General's Relief Fund

Peterborough and all Canadian people have been waiting for a means to help the victims of the floods in Britain, Holland and Belgium. The Canadian Red Cross has offered and given aid through central and European offices. Canadian governmental, diplomatic and military officials have already given assistance to the affected areas. Until the Governor-General opened a special Fund this week, most Canadians had no direct way to express their sympathy and to aid personally. . The Governor-General's Fund for the relief of the victims now provides every citizen of this district and all other Canadian places a way to lp with their money.

Governor-General Massey has become chairman of the Canadian National European Flood Relief Committee. In typographical errors, suggested that his radio address Sunday announcing the opening of the appeal, Mr. Massey said that the full story of the flood damage remains to be told, but there are mischievous attitude of the unconscious sufficient facts known now to tell us toward the bustling outer world. We are that a tragedy has taken place. We need not going to admit anything. We only hardly remind our readers of the 140,000 know that typographical errors happen, acres of English farm land under sea that we wish they didn't happen, and water, of the eighteen thousand made that anyone who has a genuine cure for homeless there, of the three hundred them has the means of making a forkilled; nor in Holland of the 438,000 acres inundated, of the fifty thousand neless Dutch, of the one thousand, four hundred who were drowned. Mr. fassey said in his appeal:

"It will be today, as it always has been, the will of people of Canada to end aid abroad where aid is needed."

The will of the people of Canada to nelp now has a means. The National Fund will be used to buy what is needed in the crippled areas. The Red Cross Society is arranging to transport and distribute the supplies through its sister organizations. Supplies are being flown overseas by the RCAF and commercial irlines. The Governor-General has apealed for contributions. His appeal vill not go unanswered in Peterborough and district. The method of help is imple. Cash donations may be taken to any chartered bank in the city or district, which will give a receipt and forward the money to the national Flood Relief Committee. And may we remind the sympathetic people of this district that he gives twice who gives quickly?

The days are gone, for the time being at iny rate, when pre-budget days gave Canadians the iim-jams. Now they look forward to budgets with ease, if not with satisfaction. There is always the hope of reduction in taxation. Such is the ope now, in anticipation of tomorrow

There is buoyancy in the hope. It may be Mr. Abbott's last budget before a general election, and pre-election igets usually wear a shining face. Further, the surplus this year will again be large, though not as large, it seems, as in former Abbott budgets. But the surplus will cushion estimated higher Government expenditure next year. At least it should preclude the necessity of higher taxes.

Several months ago Mr. Abbott said that only increased production could make tax reductions possible. Certainly the rate of Government spending does the Government expects to spend about thirty million dollars more in the fiscal year 1953-54 than it did this last fiscal year. Will production increase, as it has done in the past? Increased production has created the large surpluses in former years. It will be increased production on which the Government may gamble to reduce taxation. A reduced rate of taxa-

The key, then, to the budget—apart from a fancy one fashioned for a preelection year—is the rate of national production. Last year—that is, the present fiscal year ending March 31st—

Former Okies' Back To Coach Edmonton

EDMONTON (CP) - Darrell K. EDMONTON (CP) — Darrell K. Royal, 28-year-old former Oklahoma University backfielder, has been signed to a three-year contract as coach of Edmonton Eskimos of the Western Interprovincial Football Union.
Eskimo president Ken Montgomery, making the announcement today, said the club felt Royal fitted the situation better than anyone who had been considered.

Royal succeeds Frank Filchok, ousted last December in a con-tract dispute after leading Edmon-ton to its first Grey Cup final in 10 years, Filchok since has signed to coach Saskatchewan Rough-

QUEBEC (CP) — The Quebec Legislative assembly Tuesday night trimmed out of a bill pro-visions that would have revolution-ized pharmacy practices in Quebec

The measure, promoted by the Quebec Association of Pharmacists, was a comprehensive revision of the Quebec Pharmacy Act.

cists, was a comprehensive revision of the Quebec Pharmacy Act
Among the other things it proposed that only pharmacists could own drug stores, that certain patented medicines could be sold only by pharmacists or physicians recognized by the association. Routine modifications were adopted.

Provisions dealing with patent medicines drew protests from manufacturers and Premier Duplessis, expressing the government's view, said restrictions sought by the pharmacists seemed unfair to the large number of people who make a living selling such products in outlying rural districts.

Earlier Tuesday, Labor Minister Barrette reported on the labor situation in Quebec during discussion of estimates for his department. He said the highest hourly wage now paid in Canada went to Quebec province asbestos workers. The Canadian Catholic Confederation of Labor recognized that Quebec had wrested this honor from British Columbia. Basic hourly wage of asbestos laborers now was \$1.51.

tattered, bug-ridden clothes.

"Hakuna, bwana, (There is nothing)," said the African.
"Search the bags on the don-keys," said the officer.

A British non-com plunged his hand into a sack. It contained flour, crudely ground maizemeal and a few sticks of sugar cane. He delved deeper, found a paper parcel. parcel.
Inside were pamphlets, crudely

The officer translated slowly. They were notices threatening violent death to anybody who dared to oppose the Mau Mau. Posted on a tree beneath the nailed body of a kitten or a puppy, they would act as warning to loyal Kikuyu not to help the government.

COLD AT NIGHT
A guard was placed over the prisoners and we moved on. There was no more excite that day. The sight of a herd of elephant browsing in one of the valleys, a narrow escape from a charging rhino in open country

of bully beef and the cigarettes we had been waiting so long for made up for the long unrewarded

I thought as I lay there looking over the jungle how people paid hundreds of dollars to go "on sa-fari" to see such sights as these, to hunt with gun or camera the big game of Kenya. FAILED TO FIND QUARRY

But as on safari the hunter is not always lucky. We were on a man hunt, and we too had failed

## **Amateur Builders Construct** Hospital Save \$110,000

EXETTER, Ont. (CP)—A group of amateur builders have constructed a \$380,000 inspital here for \$270,000.

South Huron District Hospital opened its doors Feb. 2 in this community 35 miles northwest of London on a sound financial footing.

Part of the money used to erect the hospital was donated by 15.—200 citizens who contributed \$114.—000. This is approximately \$8 for every men, woman and child within a 20-mile radius of the community. County, provincial and federal government grants also were provided.

While funds were being raised the chairman of the hospital committee. Ulric Snell, asked for tenders on the new building. The lowest figure was \$320,000 not in cluding \$60,000 for equipment.

"We couldn't afford that," he said, "so we went to Queen's Park in Toronto and told them we would erect it ourselves."

THEIFTY PLANNERS

Mr. Snell hired a builder to supervise the construction at a straight salary of \$10,000. Exeter officials weren't content with buying cement and lumber wholesale. Content and they were provided and federal government grants also the construction and the Ladies' Auxiliary of nearby Centralia donated \$1,100.

One of the first steps involved in the construction was the purchase of an old 14-room house which formerly belonged to Sir John Carling. This had been conmittee, Ulric Snell, asked for tenders on the new building. The lowest figure was \$320,000 not in cluding \$60,000 for equipment.

"We couldn't afford that," he said, "so we went to Queen's Park in Toronto and told them we and a public address system connected to the corridor.

One means of neutralizing to

staggering blow at the country's former fertility.

But Sir James Scott-Watson, chief scientific adviser to the ministry of agriculture, is more hopeful.

Preliminary surveys show that about 250,000 acres, some of the richest farmlands in the British Isles, have been overrun by the sea.

Agricultural authorities ad m it that crops on farms under salt water, mainly winter wheat and barley, as well as extensive areas waiting to be plowed and seeded, can be written off for the 1953 harvest.

Frank with a can be restored to its former fertility.

But Sir James Scott-Watson, chief scientific adviser to the ministry of agriculture, is more hopeful.

"How long we must wait until the sea-flooded land becomes fit to grow crops, depends on a lot things," he said. "Of great importance is how long the fields are submerged in salt water, the extent of rainfall after the land has been drained and on the nature of the sea may be unfit to produce anything but grass for about five years."

Essex, with some 30,000 acres under water, is among the counties hardest hit, with much of its nor-mally - heavy winter wheat crop lost. Similar reports have come from Suffolk, Norfolk, Lincolnshire and the east riding of Yorkshire.

SMALL FARMERS

In many districts farmers report heavy loss of stored fodder. It is estimated destruction of livestock will run into hundreds of thousands of pounds. The livelihood of hun-dreds of small farmers has been wiped out.

SPEAKING CONTEST

At this point, the program convener, Mrs. D. Miller took charge of the meeting. The first item on the program was a public speaking contest in which six senior pupils of grades 7 and 8 of Wiberforce School participated.

Mr. Max Archer, principal, introduced the scholars as each came forward. Students participated, Botty McColl and Shirley Young. The judges' decision was given in favor of Ted Cross, first, who spoke on "The Royal Canadian Mounted Police" and Jill Cameron, second, who spoke on "The Silkworm", Mrs. S. Brooking favored with a piano solo. The film, "Last Date" showed the results of careless driving of an automobile, in which teenagers figured.

The final item on the program was a playlet, "The Interpreter, interpreting the aims of the Home and School member, by Mrs. Eldon Sibley, and Mrs. Tanner, another caller and active Home and School member, by Mrs. D. Finlay. The part of Commander Jones was also taken by Mrs. Sibley.

An interesting feature of the evening was the suggestion box. Members were each given a slip of paper and invited to write on it suggestions, criticisms, praises or beefs in connection with the meeting. These were dropped in a box and later discussed, Mrs. Miller acting as leader of the discussion. A short parent-teacher discussion period on school problems followed.

The meeting was concluded with the singing of the National Anthem and a social period followed.

More than a half million Mexican peons elude the border patrol each year, only to find themselves outlaws and outcasts.

"They can't bargain for wages," Ferree declared. "Or for medical care or housing or food. They have to take what they can get. They have no rights in America."

The term "wetback" marks a man who has fied Mexico by swimming the river.

"And the water never dries," Ferree said, "at least in his neighbor's mind. But that's pretty far from the whole truth."

In real life, according to Ferree, the Texas farmer finds a source of cheap, steady labor in the "wetback." It's worth his effort to pay boatmen to ferry the illegal Mexicans.

"A man's back hardly ever gets

Although Ferree has made a full-time job of his caring for the desperate Mexican families, he is quick to point out that many border-town farmers care well for their frightened, hungry, foreign-tongued help.

"It's the farmer who exploits them who has turned this situation into a roaring problem.

"Tve seen families unloaded from a farmer's truck on a hot morning. They don't have any food. And the kids cry for water. All they have is the farmer's promise that he's gone to town to get money for their wages. And, of course, he never comes back."

Ferree came to Texas from his one state of Nebraska after he had been a mail carrier, telephone ineman, and railroad radio operator.

PEA CROP ABOVE NORMAL
The 1952 pack of green peas, Canada's leading canned vegetable, was 3,338,000 cases, well above average.

"I bought 23 acres of land—sight unseen—and decided to settle down," he explained. He was 50 years old, unmarried. It was time for something permanent. Then the Mexican problem ex-loded into his life. He watches

a group of surveyors finish their work and leave. And then he saw a group of Mexicans who had been hiding—in the mesquite bushes rush to the spot and pick up the remains of a lunch. PINEX—a familiar remedy for generations of Canadians—goes to work fast to relieve that distressing cough. So pleasant tasting that children like it. Pinex gives quick, effective relief.

"Those were men in America, and they were eating banana peels. Eating garbage." Ferree decided to de something about it.

He works alone, most of the time. Now and then he hires young girls to act as visiting nurses and visit the Mexican families who have been returned across the border without money or food.

Why let your children suffer with a distressing cough?—get a Why let your children suffer with a distressing cough?—get a bottle of fast acting, pleasant tasting, PINEX, today!

DONATIONS COME

Articles in the local newspaper about his work, radio broadcasts, the letters he writes, all bring in donations. But even that has not been enough. And so he has sold his land until there remains only his house on one agree his house on one acre.

Ferree would like to see a change in our international agreement with Mexico. He is certain that the Mexican is caught in an economic dilemma, and he is as certain that we can solve that problem and not endanger our own economy. wn economy.

It looks like the American southwest is going to have Mexican labor, he predicts. Why must it be "wetback" labor? The answer, he said, is not a wider river. It's more bridges.

RADIO'S POPULAR BACKELOR, The Great Gildersleeve, has a problem on his hands. A Great Dane dog has just joined the household. He's huge. He's handsome. But he's nameless. And the family can't agree on what to call him.

Just by helping to fick out a name for the dog you may win a wonderful prize. (See prize listing above).

Here's all you do: Go to your grocer's and buy a package of Kraft's delicious New Parkay Margarine. Tear off the yellow end flap and mail it to Parkay with your suggested name for the Great Dane. Extra entry blanks with complete rules can be obtained at your grocer's.

Just include with your entry the yellow end flap from two (2) packages of.
New Parkay Margarine instead of one. Then if your name for The Great
Gildersleeve's dog is awarded a first prize, you will receive a bonus of \$200
in cash in addition to your shining new '53 Ford Victoria.

One of the screen's most noted beauties, Miss Oberon was making her second TV film when I dropped by to find out the why and wherefore of her absence from the local provise miles.

movie mills.

The answer has something to do with Howard Hughes, plus the dearth of romance on the screen.

"During the past three years I have been sent scripts, but they were the kind of thing you would expect from Howard Hughes. I turned them down, and the studio had to pay me (a reported \$100,000 a year). Of course, the money was nice, but there were disadvantages, too. I was kept from doing other pictures in Hollywood."

### NOTHING SENTIMENTAL

Her absence from the Hollywoods was also due to the current film preoccupation with realism. The atudios are too concerned with the rock-'em and sock-'em kind of picture to do anything sentimental.

"I think that's a mistake," compented Miss Cheston, who is identification.

OVER ONE MILLION CANADIANS ARE INSURED WITH THE LONDON LIPE

How much would my policies pay me when I'm ready to retire?

"I know that if I live to retirement age my policies can be turned into cash for myself . . . but, how much?

"And, what's even more important—what would my life insurance provide in the way of income for my wife and me—after I'm through earning money?

"How could this insurance income be arranged—to fit in to the best advantage with the Old Age Pensions we'll be receiving eventually?"

White-clad "Aggressor" battles trainee "Defender"

FORETASTE OF KOREAN WAR - Several hundred Korean-bound Marine trainees recently found that "Opera-tion Scalding" was a frigid affair. Pitted against "Aggres-sors," most of them Korean veterans, the trainees lived, slept and fought out-of-doors for five nights and six days at Pickel Meadow, Calif., on the slope of the High Sierra. Deep snow, sub-zero cold and blizzards made the site ideal for cold-weather training, under conditions which were worse than those they would encounter in frigid Korea. So realistic and rugged were the manoeuvres that men often forgot it was rock was angual in a self-field in the state of the st mock war, engaged in real fighting.

Point, so miles from Port Martin.

"We have proved that the Antarctic is no longer a place of primitive dog sled transport as it was as late as 1929," said Mario Marret, leader of the expedition. "The success we had with our weasels (tracked vehicles with enclosed cabins) proves that mechanical transport is successful. Future expeditions will be able to benefit by our experience and make plans which will give them more time for research."

for research."

In the middle of the winter last year Marret decided to try to reach the burned-out camp at Port Martin in a weasel. With another Frenchman as navigator and Robert Dover, an Australian observer, they set off in the darkness. It took them 35 days and for 25 days of that time they were immobilized by blizzards. During the blizzards they stayed inside the cabin of the weasel and kept the engine running so they would not freeze to death.

Once at Port Martin they sal-vaged two other weasels and took five tons of stores to Geology Point.

SYDNEY, Australia (CP) — A
French expedition to the Antarctic is now in Australia on its way heme with its two main objects eccomplished.

These were a comprehensive study of the rare emperor penguin, found only in the Antarctic, and a survey of the complete coastline of Adelie Land, the French sector of the Antarctic.

With them the expedition brought 10 emperor penguins. Three diederly on the vovage but the scientists hope that the others will survive the long voyage to France.

DISASTROUS START

The expedition started with bad luck. Their main base at Port Martin was destroyed by fire a year ago and only seven men remained in the Antarctic when their ship, the Norwegian sealing vessel Tottan, left. They established a new base at Geology Point, 60 miles from Port Martin.

"We have proved that the Antarctic."

# **Build London Playground** Nine Feet Underground

LONDON (CP)—Holborn, London's smallest borough covering a phalt. It provides space for footmere 400 acres in the heart of the 
metropolis, is providing a rare 
Coronation Year gift for about 100 
cf its youngsters—their own "new 
look" playground.

First of its kind in London, the 
playground of modernistic design 
is built nine feet below street level 
as a measure of added safety. It 
is attached to the borough's latest 
housing development which will 
accommodate 65 lucky families, 
topping a waiting list of more than 
1,000.

Northern Game

Some of the families have been on the list more than six years and many of the children had known no other playground but the streets or dingy back yards until they moved into their new quarters.

**Education Week** To Urge Need Of More Schools

TORONTO (CP)—Canadian Education Week this year will emphasize the need to prepare for double the present secondary school en-

Education Week officials said the campaign, March 1-7, will emphasize the Dominion bureau of statistics' forecast of a secondary school population by 1984 of 611,475 compared with today's 305,200. The estimate is the tatal for all provinces except Quebec.

The biggest problems, official said, are acquiring enough qualified teachers and accommodatin the pupils. They said the teache shortage, now serious, will be critical if plans are no tlaid now to meet the increase.

HIGHER BIRTHRATE

The increased school population, now noticeable in the lower grades, will result from the higher postwer birth rate and the increasing proportion of students continuing their education in the higher grades because of higher family incomes, more attractive curricula and more rural high schools

First I hard-cooked 2 eggs and then put on to boil 4 oz. ½-inch wide ribbon noodles. Then I chopped finely 1 tablespoon on.on and sauteed it gently for 2 minutes in 3 tablespoons butter in the upper part of the double boiler but over low direct heat. Then I stirred in 3 tablespoons flour, transferred the pan to over boiling water and when all was smooth I stirred in 1½ cups milk until thick. I added 2 tablespoons finely chopped parsley, ½ teaspoon salt and few grains pepper from the pepper grinder. When the eggs were hard and chilled and peeled I cut each into eighths crosswise. I added them and the drained not-quite-tender noodles to the sauce. I drained the excess oil from the can of tuna and carefully flaked it—leaving the pieces

For the benefit of Mrs. J. A. P. I am going to give you another way of moulding cheese with gelatine. This may be used alone or with fruit or as a centre layer between colored jelly dessert layers. Sosk 2 tablespoons plain gelatin in ½ cup cold water. Dissolve it in ½ cup cold water. Dissolve it by stirring over hot water. Cream together 12 oz. (4 3-oz. packages) white cream cheese and ½ cup milk—adding the milk slowly to blend them as you cream. Add 1 cup grated mild cheddar cheese and 1 teaspoon salt and 1 teaspoon. and 1 teaspoon salt and ½ teaspoon paprika. Add the gelatin. Whip until stiff 2 cups cream and fold in. Pour into oiled 9-inch ring mould and chill. This is side edge with apricot halves, beautiful turned out on lettuce and garnished in centre with stoneach.

DOROTHY DIX:

# Distressed Girl Advised End Loveless Engagement

DEAR MISS DIX—I have been going steady with a boy for over a year. I knew I didn't love him, but I thought I would grow to care for him as time went on, so I was persuaded to become engaged to him. Now, of course, I realize I did the wrong thing. My family likes him very much, and his family accepts me almost as a daughter already.

Then, the inevitable happened! I met and fell in love with another man. Ricky, as I shall call him, feels the same about me. He doesn't want to be the cause of a broken engagement. I am 19, and Ricky is in his early 30's.

Shall I follow my heart and diversion for him. Ricky is not a diversion for him. Ricky is not a particularly admirable character, though he seems to be an enter-though the seems to be an enter-though he seems to be an

# Garson Asks **House Extend** Powers Act

"Apprehended War" **Emergency Makes Extension Necessary** 

OTTAWA (CP)-An emergency unique in Canada's hisory, an emergency of "apprehended war," makes it necessary for the government to

retain special powers to act on a moment's notice.

Justice M in ister Garson advanced this argument in the Commons Wednesday in asking for a one-year extension of the two-year-old Emergency Powers Act, due to lapse May 31 unless renewed by Parliament. It was passed in 1951 and was extended in 1952.

The act gives the government wide powers involving almost all phases of the economic life of the country including communications, transportation, shipping and manufacture. It can act without reference to Parliament.

Progressive Conservative members have argued that the War-Measure's Act, used during the war, is still on the books and could be revived. They said there is no need for a further extension of the Emergency Powers Act.

Mr. Garson said Canada faces "a condition of emergency unique in our history." It is "an emergency of apprehended war but milke war emergencies of the past this present emergency. . nay be of indeterminate length."

of indeterminate length."

The government felt that in an emergency of indeterminate length it was not advisable to invoke the broad, arbitrary powers of the War Measures Act which invaded not only the field of civil rights but also of personal rights.

The line which Dulles took Wednesday, however, was that "the enslavement of these captive peoples is due to abuse and violation of the understandings." Any repudiation, therefore, apparently would be blamed on Russian violations and not upon the claim that the understandings were them selves bad in the first place. Hence the administration would be able to appeal for Democratic as well as Republican support.

Mr. Maloney charged that the trial judge had made a mistake in law by allegedly not elaborating sufficiently to the jury the theory of the defence that Kelsey lied in his confession through a morbid desire for notoriety.

At least one juryman, he added, had found the Crown's evidence sketchy and it might have been a case of where this juryman might have acquitted. Lt.-Gen. Glenn O. Barcus, 5th air force commander, said the Reds would "feel' keenly the loss of the tank and vehicle repair facilities in addition to the many tanks and vehicles destroyed."

Fifteen B-29s roared over North Korea Wednesday night and bombed Red supply and troop areas. The one-two-three punch against the training centre was exceeded in the number of jet fighter-bombers involved only by the 1,193 sorties flown against Pyongyang itself last August. Nearly 600 planes hit the target Wednesday and today.

In the final summations, crown attorney Lorne Jordan said that the couple who were the victims were legally parked on the road west of the town, and were "paralyzed with fear," when the three assailants made their appearance beside the car. He also noted that evidence seemed to prove that after passing the victims in Dumoulin's car, the accused and the third man. had parked further up the road, and come back with "one evil purpose" in mind.

Defence consul Martin told the jury that the only identification of his client, Statham, had been during two brief intervals in the cas, when a metch was lit and e door opened and the boy-friend of the girl had glimpsed him.

On this basis, he questioned the boy's credibility and challenged the jury to prove in their minds that Statham had been at the scene.

sales in Ontario in the year reported on: Sales increased by eighteen million doldollars, yet the total gallonage of liquor sold was only two-fifths of one per cent. tigher than in the preceding year. It is but that the Liquor Commission is bigger profit. Never since Nineveh had a monopoly of the salt mines has a government monopoly been as crassly exploited for profit—at the cost of the democratic government. people. The Commission was supposed to have been established to control the sale of liquor. It is now apparent that the Commission is operated for the profits that can be got from the business. Very little more liquor was sold last year than in the preceding year, but the Commission charged \$48,000,000 more for it (and for licenses) and made an additional net profit of a million dollars, a total net profit of \$42,069,681.

What does the Commission do with the net profit? It turns it over to the Provincial Government. What does the Government do with the profit? It keeps it. Of the \$42,069,681 extorted in profits, only about \$70,000 was handed to municipalities as their share of fees from licensed premises.

Let us return for a moment to the figures of gross sales. A total of \$228 million dollars is a very large amount for people to spend in Ontario liquor stores. But this does not mean, as Toronto headlines proclaimed yesterday, that the average Ontario family is spending \$190 a year on liquor. The ellow who concocted that figure divided the total population of the Province by four, and presumed that the result was the number of average families. He divided the \$288 millions among them. taking no account of the million American tourists who buy liquor here, and of the thousands in Ottawa and Toronto from all parts of Canada and the world who attend convention parties. Even leaving out the transient buyers from Ontario liquor stores, Ontario families, of which there were 1,162,772, could have ent on the average \$130, not \$190, on liquor. But this sort of juggling with figures is invalid.

# What About Ronald Power?

Now: what happens to Ronald Power? He was jailed for a crime he did not nit; he has never committed a crime of any kind; he has lost his job and, it appears, many of his personal papers him?

The Attorney General, Mr. Dana Porter, says that the law makes no provision for compensation in such cases, and that the case is one for the federal the Ottawa Journal. him wrongly? Is there any legal precedent for such a suit? And what are his chances if he brings suit?

If the law makes no provision for such cases, we think that law should be altered. The notion that the King do no wrong has lost its validity as an absolute legal maxim. It is possible to sue the Crown for many injuries. If Power can sue now, who will take care of the legal costs, which will probably be rather heavy for a man in ordinary circumstances, who has earned no money re-

cently. The law might well provide for compensation in such cases, and we do not ee why it should involve a suit. Cases of this kind are few, and it is to emphasize the gross profit-taking nature the credit of our legal and police system of the Commission, rather than the that this is so. But they happen from amount of whisky and beer buying. A time to time, and there should be some total sum of \$228,008,215 which people generous and decent way of acknowledgspent in Ontario liquor stores is very ing the mistake. Power should not be large; it would be much less if the expected to raise his hat to the Govern-Liquer Commission took a smaller profit ment of Ontario, and start looking for the children were baptized and they have another job.

We were glad that Mr. Clarence Howe came out strongly against lobbies when lars, net profits increased by a million he spoke to the House of Commons about the sugar beet industry. Mr. Howe was chiefly concerned to silence a particuhigher than in the preceding year. It is larly aggressive lobby, and he did so with perfectly obvious, therefore, that the the vigour for which he is famous, but people of Ontario are not drinking more, we hope that other lobbies felt the lash of his disapproval, and the strong public charging more for its wares to make a feeling which was apparent all over the country when the news of what Mr. Howe said became public. Lobbies can be not merely a nuisance but a threat to

> The lobby habit is one which has come to Canada from the U.S.A., though it has never acquired the power here that it has in the south It is a simple operation working by complex means. Briefly, a lobby is a trumped-up body of opinion designed to put pressure on the government to do something for a particular interest; the lobby tries, as far as possible, to conceal its machinery and to give the impression that all the uproar which it causes springs from independent and outraged public opinion.

> Democratic government has no need of lobbies. The Members of Parliament are elected to take care of all public interests, and they are usually quite capable of doing so. If a special matter arises which seems to need more attention than Parliament is giving it, petitions and deputations can be organized to call the grievance to their attention. But the presence in Ottawa of hired men, organizing pressure on Parliament on behalf of special interests is intolerable, and we are glad that Mr. Howe spoke as he did.

We talk a great deal in Canada about private enterprise, and private enterprise is supposed to operate, in a general way, through fair competition. Lobbies, like the sugar lobby, are opposed to fair competition; they want the government to protect their special interest. Business and the private enterprisers cannot have it both ways: they cannot have the privileges of private enterprise and the protection of state monopolies. Mr. Howe, whose business acumen has never been in doubt, has said so.

THE FRENCH POLICE have been ordered to retrieve Robert and Gerald, and four women, including their acting mother have been imprisoned — on charges of implication in what the law calls "kidnapping" but what

the ladies themselves must surely think of as saving the children's souls.

To many Catholics the indisputable self-sacrifice of the prisoners carries an sura of martyrdom. Many have been moved by the dignified reticence of Mother Antonine. She is supposed to have refused to allow the prisoners' anthropometric services to photo-graph with the exclamation: "I know the law. You cannot force me to pose before that ignoble object," meaning the camera. To anti-clericals, on the other hand, the "Finaly case" is the perfect example of obscurantist religious fanaticism; depriving a family of its own children.

It is hardly conceivable that many citi-zens, given to the habit of consuming alco-holic beverages now and then, would gen-erally wait until after 6 o'clock in the eve-Some imagination would be required to visualize the situation if all the gold mines in Canada were located within 150 miles of latter ingredient until it is too late to proper Arthur. It would be a great sensation in Canada were located within 150 miles of Port Arthur. It would be a great sensation. But it is true that within that distance of this city is ore worth more than all that of the gold mines in the country. There is a known 500,000,000 tons down to 1,000 feet in the Steep Rock range—and mining can go a lot deeper than that.

Moreover the grade or value per ton is as high or higher than that of the average gold mine, the value being above \$9 per ton.

# NY Police Charge Pair In Father's Slaying

MINEOLA, N. Y. (CP) — Police charged a young wife with murder along with her husband because they allege she brought him the gun and bullets with which to shoot his father.

Mrs. Eileen Starkins, 19, took the rifle and bullets to her husband, Charles, 24, in the cellar of his father's home. Detective Andrew O'Connor told district court Tuesday.

Husband and wife were held without ball for grand jury action.

Police say Starkins shot his father, Alvin, 62, a retired New York policeman, Jan. 26. The couple was arrested last Sunday, after a neighbor found the body.

BUFFALO, N.Y. (AP)—The murder trial of two Canadians accused of the holdup-killing of a Buffalo jeweler last Dec. 9 will be called for Feb. 26, district attorney John F. Dwyer said Wednesday.

Dwyer notified defence lawyers of the tentative date. The case will be brought before State Supreme Court Justice William H. Munson at that time. Munson then will fix a definite date.

The defendants are Maurice O'Dell, 28, and Walter Griffen, 27, both of Hamilton, Ont. They have pleaded innocent to charge of first-degree murder and robbery and are being held pending trial.

# **Bears Blank Hornets** To Hold Third Place

By THE CANADIAN PRESS Hershey Bears blanked the sec-ond-place Pittsburgh Hornets 1-0 Wednesday night in American Hockey League play and the tail-end Buffalo Bisons turned back Providence Reds 5-3. At Hershey, the victory gave the Bears undisputed possession of third place.

At Hershey, the victory gave the Bears undisputed possession of third place.

Lee Labin, recently sent to the Bears by Boston Bruins of the National League, scored in the first period to give Hershey a badlyneeded victory.

Ken Davies paced Buffalo's attack with three goals. Lorne Davis and Calum Mackay netted the others. Moe Morris, Paul Gladu and Al Baccari tallied for Providence, sixth in the seven-team loop.

# **Beach Patrol** Suggestions To Red Cross

LAKEFIELD- (ENS) - The Lakeffeld— (ENS) — The Lakeffeld branch of the Red Cross Society met Monday evening in the Council Chamber. The president, Mrs. Albert O'Donnell presided and Mrs. C. H. Hunter acted as secretary in the absence of secretary S. A. Grylls, The meeting opened with prayer.

Correspondence included several letters from the Ontario division, Toronto, re quota for clothing which will be accepted by the branch, and also a suggested program for Swimming and
Safety program submitted by the
chairman, Mrs. A. R. Gariepy.
Mrs. Gariepy suggested that nine
ladies be asked to captain a team
of beach supervisors for each of beach supervisors, for each week of the season. She further suggested that the beach patrol would consist of six to ten children with at least senior Red Cross standing to act as life guards—one for the wading pool and one for the more advanced guards— one for the wading pool and one for the more advanced swimmers and that all ife guards be provided with special Red Crosa bathing suits. A chart reporting the captain's name and that of the supervisor, the time, weather, number of swimmers, lesson number and a record of first aid administered will be kept. This report was given by Mrs. J. W. Ridpath in the absence of Mrs. Garlepy. A committee to work with Mrs. Garlepy will be Mrs. Ridpath, Mrs. O'Donnell, Mrs. Roy Farrow and Mrs. Hunter. An instructor will be hired from the University of Toronto.

Stanley Burger and Arthur Kingdon were appointed delegates to the Red Cross annual convention to be held in March

Wool convener, Miss M. Hampton gave the knitting report and she and Mrs. W. E. Gillman were appointed a committee to purchase \$10.00 worth of wool locally.

It was decided to make a don-ation of \$50 to the Canadian Na-tional European Flood Relief Fund, and to purchase 1 dozen hypo needles to be used at the school. The branch will also as-sume the making of 25 layettes as well as the regular quota of sewing assigned.

The next meeting will be held Monday, April 20 in Memoral Hall at 8 o'clock.

BOLD COYOTE—A determined hunt for this coyote which invaded the runways at Edmonton airport, inside the city limits, ended in its being shot by constable Andrew McCann. It was feared the animal might be infected with rables. A provincial campaign against diseased animals has been stepped up since laboratory tests confirmed the presence of rables in a dog which bit a nine-year-old boy at Fort Smith, N.W.T. Other rabies-infected animals have been found as far south as Leduc, 20 miles south of Edmonton.

# **Vets Minister** Lapointe Vows Aid For Ex-PoWs

OTTAWA (CP)—Veterans Minister Lapointe Wedpesday promised representatives of the National Council of Canadian Prisoners of War that he will place before the cabinet 'their claim for compensation on the basis that all prisoners in Europe suffered maltreatment. The council, embracing some 7,600 former prisoners of war, told Mr. Lapointe that a "grave injustice" would be done if the government continued its present policy of settling war claims for maltreatment of POWs on an individual basis.

The council said Canadian POWs of Japan were compensated on a dollar-a-day basis for every day's "isonment. The claims were I out of enemy alien funds.

Present policy for POWs of the European theatre was that individuals must prove claims for compensation because of maltreatment, the council said.

"Cruelty of Nazi imprisonment is so well known that it is the government's re sp on sibility to prove that Canadian POWs did not suffer maltreatment."

Capt. Edwin Bennett of Woodstock was a member of the delegation.

Sanctuary Farmers Ask

Limited Goose Shoot

TORONTO (CP) — A delegation of farmers from the Jack Miner bird sanctuary district on Eake Erie Wednesday raised the possibility of a strictly limited goose shoot on their farms.

The delegation, led by deputy rever Glen Rogers and William Nurdoch, Progressive Conservative member of the Ontario Legislature for Essex South, met with official of the lands and forests department and said large numbers of geese are eating a great deal of wheat.

Dr. W. J. K. Harkness of the department said staff will be sent to investigate the problem and report on the best methods of dealing with the wild geese.

# Car Collides With Truck Turning Into Laneway

A collision with an oil truck driven by Douglas Meiklejohn, 21, RR 4, Peterborough, caused \$97 damage to the front of a car driven by William Keat, 22, 684 Frank St. on Reid St. near Charlotte St. at one p.m. Wednesday.

Meiklejohn pulled to the centre of Reid St. to turn into a laneway to deliver oil when Keat tried to pass between the truck and a parked car. The left front fender of Keat's car was torn off and the bumper bolt broken.

# Spaniel Falls Through Ice Into Chilly River Saved By Firemen After Struggling An Hour "Blackie," a male spaniel owned by Mrs. Minnie Ringer of 261 Sherbrook St., was saved from drowning Wednesday noon when he was hauled from the Otonabee River by city firemen. Onto Track Firemen at first put out wall ladders along the ice but the crust was too thin and began to give. Finally they obtained a boat. Fireman Vinette secured Blackie with a pike pole and the dog was hauled into the boat by Captain Bill Sorrie. "He was all in when we got to him," commented Captain Sorrie. "And he certainly seemed glad to see us." Today Blackie is recuperating at home after his chilling adventure.

# For Second Time In Decade **Dutch Must Rebuild Nation**

By WADE JONES.

THE HAGUE (NEA).— "I have read that the soldier who lives by the sword shall also die by the sword welt, Holland lives by the sea..."

That surprisingly bookish and philosophic statement comes from a haggard young farmer named Frans Eekelen. He is sitting in a rowboat tied to a dike eight feet above what was once his farm in western Holland.

He saved his wife and two young children from the flood, but that's all. His cattle are drowned, his house a ruin, his 14 acres of farmland covered by salt water. It will take months, possibly years, to purge the salt from the land and make it bear crops again.

"This will make twice that I have started all over," says Eekelen; "once after the war and now after the flood. I believe we can do-it, but I do not like to face it. First we must work hard to pump the water off the land. Then we will see."

Frans Eekelen is typical of the brave and wonderful Dutch whom I have seen struggling to restore their water-ravaged homeland. I came here to report the successful fight which the Dutch had made to restore their water country's financial to read that the soldier who lives by the sword shall also do by the sword sale and in his fifties, people a pretty impressive array of such benefits.

Every worker earning less than \$1.250 a year (the average factory worker earns about \$75(0) is assured of a pension affer the age of 65, contributions having been made entirely by his employers. There's unemployment insurance of up to 80 per cent of a period of not over 21 weeks. Despite the fact that overpopulations is one of Holland's biggest broblems, the government pays bonuses to parents on a sliding scale for every child they have. Sickness insurance gives the worker 80 per cent of his last wages for as long as a year, and he gets all necessary hospital and medical care free for as long, as a term of their company's profits their water-ravaged homeland. I came here to report the successful fight which the Dutch had made to the province of the province of their company's pro

health after World War II, a fight so determined and effective that only last month they could proudly take themselves off Uncle Sam's economic aid payroll.

I remained in Holland to see the carefully-constructed financial walls washed out with the protective dikes in the great North Sea storm and flood. And then to see the Dutch painstakingly and courageously commence to rebuild.

PLENTY OF COURAGE

So far one may only conjecture as to the success of the new struggle in the Netherlands. But the qualities which have been shown in this great national disaster and in the other crises of man and nature in the past must make one optimistic for the long haul.

As the flood waters abate and reconstruction starts, Dr. William Drees, the Premier, already is sayinging that the Netherlands will honor its European defence commitments. And he even hinted that the government has no present intention of asking a resumption of dollar aid.

However, the Dutch—even the

"I have not been affected by the flood yet," Dijkgraff says wryly. "But I will be — they'll hit us with more taxes to pay for this flood."

"Already my wife and I are not

this flood."
"Already my wife and I are not able to visit other countries for vacations because we do not have the money. One of our boys we cannot send to college because we do not have the money anymore. But we Dutch love our country and we believe in her and if we must do more to pay for this flood, we will somehow do it."

Dijkgraff speaks for the economic class of Holaind which has
probably been hardest hit of any
in postwar years. It's a great middle third which has failed to get
labor's wage gains, but which at
the same time has been squeezed
by rising prices.

Dutch economists say this class
now has 40 per cent, less in real
buying power than it had before
the war.

the war.

If anyone should have tulips pinned on them for past performances in Holland it's probably organized labor. The "self discipline" of labor, as one top government official put it, "was as important as any other one feature.

ment official pat it, "was as important as any other one factor for getting Holland out of the economic hole after World War II."
Certainly labor's role will be equally important in finding a solution to the present flood crisis.
The more than a million rank and filers in the four big unions have put up with low ceilings on wages, often long hours of overtime with no bonus pay—and all with a steadily diminishing number of strikes.

# FEW DAYS LOST

FEW DAYS LOST

In 1947 there were 272 strikes with 203,000 working days lost. Those figures have shrunk steadily until in 1951, the last year for which official figures are available, there were only 85 strikes with 66,700 working days lost. Part of this labor harmony is due to the Foundation of Labor, an organization composed of representatives of labor, management, and the government, which has been able to iron out many difficulties before they reached strike stage.

# **Breeders Honor** Cattle Importer

GUELPH (CP) — Cattle breeders from across Canada met in three groups at the Ontario Agricus the industry's problems and pay tribute to the man who introduced the Aberdeen Angus breed to North America.

To oued the Aberdeen Angus breed to North America.

The organizations holding their annual meetings are the Canadian Shorthorn Breeders Association, the Canadian Hereford Breeders Association and the Canadian Aberdeen Angus Association.

A bronze plaque was unveiled at a banquet by F. W. Crawford of Winnipeg, secretary of the Canadian Aberdeen Angus Association, in honor of William Brown who imported a herd of Aberdeen Angus cattle to Canada for OAC in 1876. The first North Americanborn calf arrived he following year.

born calf arrived he following year.

Little was said on the re-opening of the United States market to Canadian stock, but members expressed optimism on the subject.

Artificial insemination was discussed at all three meetings. Proceedings of the college animal breeding department, told Shorthorn breeders that artificial breeding provides an opportunity to improve the standards of commercial cattle.

# **Ask Equal Duty** On Vegetables

OTTAWA (CP) — The Canadian Horticultural Council called Wed-nesday for equalization of tariffs on some vegetables traded between Canada and the United States.

Canada and the United States.
Resolutions passed at its annual meeting urged mutual tariff adjustments on lettuce, celery, onions and potatoes, and asked for higher Canadian tariffs on U. S. vegetables whenever Canada raises its tariffs against other U. S. products.
The council deleted from the latter resolution the words: "In retaliation for restrictive trade measures applied by the United States government on Canadian products."
The council also decided to award a trophy and cash prize of at least \$1,000 for the world champion potato grower at the Royal Winter Fair at Toronto this fall.

# **UK Newspapers** Study Plan Of Press Council

LONDON (AP) — Plans for a voluntary national press council to maintain and improve ethical and professional standards of British navapapers and defend press freedrass were disclosed Wednesday in at by the newspaper industry. Under the plan, the group of 15 editorial and 10 management representatives would be empowered to deal with complaints from outsiders about the press — and from the press about outsiders — "in whatever manner may seem to it practical and appropriate."

Among the council's duties would be to "maintain the character of the British press in accordance with the highest professional and commercial standards" and preserve its "established freedom."

It would also have the job of keeping an eye on tendencies toward newspaper monopoly and developments likely to restrict the flow of news. It would promote technical research, training of newspaper men and "proper functional relations" among various sections of the profession.

The plan was drawn up by an industry committee. The move followed several years of pressure—mainly by Labor party members both in and out of Parliament — for the creation of such a council, by law if necessary.

MAYOR SHOCKED. - Mayor A. W. Shackleford of Lethbridge, Alta., got a severe shock and narrowly escaped severe injury when electric current from two microphones passed through his body as he was announcing winners of a teen-agers queen contest. The mayor was frozen to the mikes until they were disconnected. The accident was caused by the difference in the grounding system in the public address microphone and the one used by the Lethbridge radio station.

Trying to free the mayor are radio announcer Joe McCallum (left) and alderman Cliff B'ack, YMCA counsellor.

DEAR MISS DIX: I am 17, and interested in a serviceman who is 20. Recently he asked my girl friend for a date and she refused, because she didn't want to hurt me. Later, under a pretense, he got her head to toe or your money refunded.

NOT A CHEWING-GUM or give him another chance? And should I get mad at my girl friend?

WRONG: Argue with him.

MARY MOORE SAYS:

# Super Swiss Steak and Deep Meat Pie

My name should be Thomas the baking powder and 1 teaspoon of 425 degrees Fahr. for 10 minDoubter, for this morning 1 received some letters that set me 
wondering how much cooks actually know about cooking meats.

Wondering if 1 was performing 
my part adequately 1 went 
through the back copies of this 
allegedly efficient column to find 
not one mention of such favorited 
dishes as Swiss Steak or Meat Ple 
in many months.

Up and at 'em, Mary, 1 sez and 
here I am. I bought round steak 
at 79 cents per pound (even at 
that the butcher acted as if he 
were doing me a favor) and had 
to order 2 pounds to get the 1½inch thick slice I wanted. This 
may be made with flank steak if 
you wish.

SUPER SWISS STEAK

To ½ cup unsifted flour add 1 
teaspoon salt and ¼ teaspoon pepper and pound this into both sides 
of your round or flank steak. Be 
sure all loose flour is picked 
if from board and pounded in. Sear 
the steak in heavy iron frying 
pan in 3 tablespoons melted dripp 
ings until browned on both sides. 
Then add 2 cups canned tomatoes, 
I medium-sized onion slieed thin 
and I large stalk reclery with the 
leaves sliced fine. Cover. Cook 
over low direct heat for 2½ hours 
or bake at 300 degrees Fahr, for 
10 mintout the trough. Now take

der to the dry mixture.) Cut in 
with pastry blender ¼ cup short to uncover during last half hour if you want the liquid to cook down to a thick rich sauce. I can't resist serving this with fluffy mash-ed potatoes and turnip. My sis-ter-in-law always serves it with large boiled Spanish onions, in centre of each of which she puts a large chunk of butter. She doesn't serve potatoes but does serve plenty of her own home-made bread.

OTTAWA (CP)—The financially-reorganized C an adian National Railways had its first surplus in six years in 1952, Finance Minister Abbott indicated to Parliament Wednesday.

Mednesday.

In a White Paper tabled in the Commons in conjunction with tonight's budget, he said the government-owned line did not incur a deficit last year, mainly because of the 1952 federal legislation eliminating a big silice of its annual debt interest.

debt interest.

In 1951, the CNR had an income deficit of \$15,031,000, its sixth in a row, despite a then-record gross revenue and an operating surplus of more than \$44,000,000. Interest charges on the securities held by the government and the public put it into the red.

the mother red.

The CNR capital revision act of last year lifted about \$22,000,000 in annual interest payment to the government from the CNR's obligations. Its interest payments to the public were expected to be about \$22,000,000 for 1952.

In view of figures already made public, the expectations were the CNR will show a moderate surplus for 1952 when its accounts are tabled within a few weeks.

tabled within a few weeks.

An unofficial calculation would indicate an outside figure of \$5,000,000 for the surplus. This will all be absorbed either in income tax—to which the CNR becomes subject for the first time this year under the 1952 budget—or in dividend payments on stock taken by the government under the reorganization in exchange for interest-bearing bonds.

# Windsor Employees Ask \$120 Increase

WINDSOR, Ont. (CP) — City employees Wednesday presented 1953 wage demands which, if approved, would cost the city more than \$160,000 annually.

The five-point program was high-lighted by a demand for a \$120 across-the-board annual increase for all city employees except those of the police department.

The funeral of Marion Bertok, 13, of 212 Aylmer St., who died Saturday after short illness at the St. Joseph's Hospital, was held Tuesday at All Saints' Anglican Church. The Rev. Maurice P. Poole, minister of All Saints' and Archdeacon C. W. Balfour, honorary associate, conducted the service.

In tribute to Miss Bertok, the Prince of Wales School flag was at half mast for the day. The junior and senior choir of All Saints', of which she was a member, were present. Her fellow classmates were also present and six of them acted as pallbearers. They were Robert Fallis, Wayne Ferguson, Donald Fredericks, Tom LeSurf, Elwin Mowry and Ronald Joy. Burial was at the Little Lake cemetery.

Low Income Brackets Get "Almost Nothing" Claims Macdonnell

OTTAWA (CP)-J. M. Macfonnell, financial critic for the Progressive Conservative pposition, said Thursday ight Finance Minister Ab-

night Finance Minister Ab-bott's budget will give "precious little" to Canadians in the lower income brackets.

The budget showed the govern-ment had turned a full cycle, tax reductions had once again been reached "which of course means an election year."

reached "which of course means an election year."

It is a pity, he said, that "tax reductions are timed having regard to the interests of the government and the party in power."

Mr. Macdonnell was delayed for a full minute from getting the floor by the deafening cheers of Liberal supporters for Mr. Abbott as the inance minister finished his budget address.

supporters for Mr. Abbott as the finance minister finished his budget address.

In the election year of 1949 there had been tax reductions, Mr. Macdonnell said. The following year taxes were up again. It was a "cat and mouse" game. Every once in a while the "mouse is given a little cheese to fatten him up for more extractions by way of taxes in the year following."

The budget sounded good but it produced almost nothing for the "man at the lower end" of the income tax bracket. Mr. Macdonnell said by rapid calculation he figured a man making \$2,000 a year would get a \$1 reduction for the last six months of this year and \$2 for a full year.

(Actually the tax reduction for the last six months of this year and \$20 during a full year.)

When the people realized just what was in the budget for most of them they wouldn't be fooled. Mr. Macdonnell said there was evidence of "outrageous waste and extravagance" in government operation. The defence department was the "sinkhole of government waste and extravagance." Yet the government refused an independent investigation.

Considering

Pension Plans

The board of governors of the Civic Hospital want to set up a pension scheme for hospital employees, but have yet to decide which system they want and are not sure they will be able to easily get the system recommended to them.

The board asked for the advice of pension experts and were told that a "trustee" system would be most suitable.

Ald T. D. Miller asked why the hospital wouldn't join the pension scheme enjoyed by civic employees, He said the city's scheme ware the envy of many other Ontario municipalities.

Treasurer T. T. Rodger said the city scheme, a government annuity plan, was fine, but was no longer as attractive as it was when the city adopted it. He said only three per cent amunities were now available to finance it whereas four per cent were available when the city adopted the scheme.

## A Particular Case

Although education is often a theme or comment in these columns it is rarely that we make reference to a particular educational institution; but the visit to Peterborough next week of the Rev. R. S. K. Seeley, to address the Rotary Club and the University of Toronto Alumni and the University of Toronto Alumni Association suggests that a few words about Trinity College, Toronto, would not be out of place, for Dr. Seeley is Provost of Tainity, and Trinity is one of the most interesting of Canadian university colleges. Interesting because it celebrated its centenary last year, and skance anybody looks at the Budget\_ themselves fully equal to a century of askance anybody looks at the Budget—

ANSWER: The 1951 census found it to be 4,597,542. According to municipalities' census rolls the assessed population last year was 4,488,195. In 1940 it was 3,479,267. The taxable assessment in the Province has in-creased even more rapidly. In 1940 the taxable assessment of all places in Ontario was \$2,972,274,000. ANSWER: "Was graduated." is primarily an American usage. "graduated." is English.

ANSWER: "Was graduated" is primarily an American usage, "graduated" is English. The omnipresence of American language in Canada and particularly the influence of Canadians now teaching in Canada who did their post-graduate work for the Ph. D. in the States, have made "was graduated" seem to the illiterate, literate, and "graduated" a made "was graduated" a mere vulgarism.

"To graduate"- that is, to mark off in "To graduate"— that is, to mark off in degrees— is a transitive verb. For instance, 'the dial was graduated in minutes and seconds.' Americans have long been addicted to grammarians and dictionaries and in their puritan republicanism have tended to bypass the long history of English usage. For instance, they spell "colour" as "color," knowing that the word comes from Latin which does not have the 'u' in its stem.

Also we noticed a piece in the same sheet re Orillia's protest over Oshawa (on Percy Nicholls) which the OHA tossed out. It says in part "Derlyn Valley and Walter Varty represented Orillia at the OHA meeting and they report that the OHA granted that they had grounds, but cited rules to show the protest had been filed after the deadline, and thus threw it out." That killed Orillia's chances of making the playoffs and might well affect the Petes, since Orillia is due to replay a game with Kingston, if necessary, and an-out-of-the running Orillia outfit, might not take such a game seriously. In which case Kingston could well win it and back into the playoffs, leaving Petes on the outside. The locals have a do-or-die

Jim Ellis and his scrappy rges will shoot the works to win this one and keep alive their es of a playoff berth. If they lose they're out of the race. If win, they can do nothing more than hope that Orillia defeats or Belleville on Saturday or Kingston next week. Should that ben, the Petes would hurdle either Glens or K's into playette. open, the Petes would hurdle either Glens or K's into playoffs.
Orillis drops both decisions in final games of the schedule,
at puts Belleville and Kingston into group semi-finals. We have
points while these other clubs have 26, but a game in hand
the R's certainly a sizzling scramble right down to the wire.

Though not noted as a betting man, your scribe will wager a modest amount that our junior Oddfellows will down Kingston Vice here tonight to sew up their group semi-finals. It's a best-of-five set, and Vice won the opener on home ice. But the IOOF-ers beat 'em four times in aix during the seedule, and will be giving it the old college try on the home sheet this eve. They can't possibly afford a reverse at this time, as the scene switches back to Kingston on Monday for the third tussle. Hustling hockey will be on view in this playoff scrap at Civic, and it rates a record junior crowd for the season. Belleville, up a game, plays the second of their semi-final sawoffs in Lindsay on Saturday.

pretation on various evidences of administration policy, climaxed by Thursday's White House briefing for congressional leaders and in-cluding State Secretary John Foster Dulles' remarks Wednesday at a press conference

The policy, they believe, will be to intensify pressure on Communist China without risking heavy U S. casualties in a spectacular effort to end the Korean war.

Most of half-a-dozen congressmen interviewed said they thought Con-gress would support such a pro-gram. Some congressmen have pre-dicted, however, that strong pub-tic pressure will build up for dram-atic action.

## SEE NO CHANGE

One informant, who attended Thursday's briefing and requested anonymity, said there was no indication that a major offensive or any radical change in U. S strategy is contemplated.

Gen. Omar Bradley, chairman of the joint chiefs of staff, told the Senate armed services committee recently that an offensive now would risk heavy casualties and would be of doubtful value.

Dulles has told senators the administration will consult Congress and U. S. Allies before making any dramatic moves in the Far East. At his Wednesday press conference Dulles said the U. S. is considering shifting some of the fighting in the Orient to native troops as one way of erasing Russia's advantage in having western

# **Allied Soldiers** Outnumbered, **Beat Off Reds**

SEOUL AP) - Outnumbered Allied soldiers, fighting in the haze of Communist smoke shells, beat off two Red attacks on a western front outpost in a bitter, bloody clash early today.

The Reds attacked behind a curtain of more than 1,000 rounds of mortar and artillery are. Some were smoke shells that hampered Allied observation and cast a thick haze over the area for hours.

In the relentless air war, U. B-29 Superforts roared to within five miles of Manchuria in the early morning and dumped 110 tons of bombs on a Red communications and supply centre.

Allied fighter-bombers later bom-bed Red rail lines and supply cen-tres through North Korea. Sabre jets, screening the aerial blows, damaged two Communist MiG-15s, the air force said.

The air force said the depot, 20 miles southeast of Sinuiju, contained 360 buildings, a headquarters area, fuel storage tanks, supply dumps and warehouses.

Crew members reported smoke and flame shot 2,000 feet into the air after a tremendous explosion, indicating a fuel tank had been hit. One pilot counted more than

Allied artillery eaught 100 Chinese in the open southwest of Kumsong, on the central front. Observers reported 30 killed.

Allied troops beat back the first Red attack on the western front in a bitter 80-minute fight. Three hours later, more than 100 Chinese Reds struck again from the south, north and west. UN troops fought them off in a battle that raged for 90 minutes.

# OVER 40? YOU MAY NEVER KNOW HOW GOOD YOU CAN FEEL

Read how you may help body cells, tissues, to body cells, tissues, to the provide the provided and the provided and the provided and tissues are not being renewed by their blood. Yes, their blood may be literally tired out—from lack of certain lifegiving clements needed by every human being, every day.

Why are these people always tired? Here's the answer. Normal healthy blood teems with red cells which carry lifegiving substances to every cell in the body. But during middle life, the red cell content of the blood may range as much as 10% to 20% below normal. When this hapens, you start feeling tired more often.

Then two things may start to take place. First, your blood may not be able to carry needed substances to your body cells and tissues quickly enough to renew them faster than they die. Second, these lifegiving elements may be "burned up" for energy, to offset your tired condition, thus further depriving your body cells of the substances they need for renewal. Result—you stay tired all the

time. What you may need is a balanced combination of B-Complex vitamins, minerals and medically known "trace" elements—if their deficiencies in your blood and body have caused your trouble.

# **Work Of Lakefield Chamber Reviewed At Open Meeting**

LAKEFIELD (ENS). — The Chamber of Commerce held an open meeting at Lakefield Hotel on Tuesday evening, its purpose being to acquaint the general public with the work carried on by this organization. The guests were welcomed by the president, Donald Hendren.

A minute of silence was observed in memory of three members of the chamber who have died since the last general meeting. They were Dr. J. O. Wilson of Lakefield, Robert Sutherland of Winona Camp and L. R. Rerick of Forest Hill Lodge.

Retail charman, A. W. Stewart, reported that the retail committee had been formed to try to improve the retail section of Lakefield and make it a better place in which to shop. He reviewed the Christmas scheme which included colored street lights, Christmas trees on the main business section and the parade with treats for all the children. The restricting of pedlars in the village is another of the projects of this group. A street familiarizing program is now under way and 400 maps of the village will be issued with all streets named. With the cooperation of the village council the chamber hopes to have nameplates on all the streets.

MORE INDUSTRIES

W. A. Killpran Civic improves. Phone 5171

# MORE INDUSTRIES

W. A. Killoran, Civic Improvement and Industrial chairman, said he felt that more industries should be encouraged to come to the village and thus create employment here, rather than having so many working elsewhere. The attendant revenue to be derived would make a tremendous difference in village affairs. He felt that the school facilities and other overhead costs are large enough and of sufficient capacity to take care of quite an addienough and of surficient capacity to take care of quite an addi-tional number of people, without further expenditures. At the pre-sent time, negotiations are being made with a high class industrial firm and the chamber is very hopeful of the outcome. The com-mittee is also making efforts to have National Housing loans

have National Housing Joans available.

Tourist Resort chairman, Wilton Hillier, said he considered the tourist business one of the biggest industries in the country. However Lakefield serves, during the entire year, only half as many persons as vacation here during the summer months. With this in mind he feels that the merchants should cater to this tourist trade and cited several ways, such as keeping the stores open on Thursday evenings; the distribution of maps of the Kawartha area so tourists will have a good road guide; co-operation with the Red Cross swimming and water safety program, and evenings of entertainment such as street dances, etc., for tourists entertainment.

Capt. J. Sloan, Health and Ag-deulture chairman, said that he was hoping to get the farmers intedested in C. of C. and that he intedested in C. of C. and that he would like to see a co-operation between this organization and the Lakefield Agricultural Society.

Chamber of Commerce secretary, Mrs. William O'Brien, was introduced by Harold Hamblin, and in her report regarding the distribution of motor vehicle licenses and drivers' permits, said she felt the venture had been

# Say Lanza Ready To Return To Film Work

HOLLYWOOD (AP) — Mario Lanza is ready, willing and able to return to film work, an intimate of his reported today.

The friend is Nicholas Brodszky, composer of Lanza's two biggest hit songs, "Be My Love" and "Because You're Mine." He is one of the few persons who have remained close to the unpredictable tenor during his recent tiff with MGM.

MGM.

After recording all his songs for "The Student Prince," Lanza falled to show up for the start of production. The studio finally paid off the other principals in the picture and sued Lanza for damages. He merely went into seclusion and was reported to be on another of his eating sprees.

"Mario says that's all over," sais Brodszky. "He told me he has slimmed down again and is in great shape. He said he was going to make up with Metro and go back to work."

The composer said that much of

# **Build Seaway** Ourselves" -Central Smith

Inclusion of the St. Lawrence Seaway project in the series of Farm Radio broadcasts focussed rural attention and thinking Monday night on its physical realities and its multiple behefits to the people of Canada.

Forums reported large and appreciative attendances and more definite understanding of the promise of the Seaway and its electric power development not only here in the proximate east but also generally throughout the nation.

A bachelor was quoted the other
day as saying you can always, spot
a good housekeeper by the way
she peels potatoes. He explained
that thick peelings are a dead
give-away for the wasteful homemaker, and a sloppy one is known
by the number of eyes she leaves
in the spuds.

So it's good advice to peel your
potatoes cleanly and thinly The
critical bachelor might be tempted
by the following dish:

POTATOES AU GRATIN

Butter a shallow baking-dish and into it slice eight medium-sized potatoes which have been partually cooked (they should be firm and waxy). As you slice sprinkle 2½ sups grated old cheese between the layers and on top. Also sprinkle these layers with salt and pepper. Dot the top with butter and add enough skim milk almost to cover the top layer. Bake at 400 degrees Fahrenheit until milk is nearly absorbed and potatoes are tender (30 minutes approximately). WEIGHTY TIPS

Calorie-saving recipes for the weight-watchers and diabetics are feetured in a booklet now being distributed by the United States manufacturers of a non-caloric sweetener. They sound good too.

The booklet contains directions for making desserts and cake, making desserts and cake, making lettuce.

She was married one working in an establishment outside the city, and I am new at this marriage business, my working too. However, since she men to utside the city, and I am working too. However, since she men to utside the city, and I am working too. However, since she men to with us at present. We must spend quite a bit of time travelling, I see very little of her. In the evening when she returns from work, we have dinner which I cook. I do most of the other housework, including beds and dishes. I asked her to take a job nearer home, but she refuses. Is this too much to ask of her?

ANSWER: The problem of a working wife is one that assumes greater and greater proportions as the complexities of modern career; her friendships with New York's "400", and her ill-fated marriages to gambler Nick Arnstein and showman Billy Rose. Don't miss this faccinating biography.

It is only during the last 20 years that one has heard much about viruses. Now one hears at every hand, "Oh, that's a virus disease," but still there is much confusion.

Unlike the small animal parasites and the germs or bacteria which have been known much longer, viruses are too small to see under the usual microscope. Also they grow only inside living cells. For both these reasons viruses were discovered later than parasites or germs, and have proved more difficult to study.

There are a great many diseases both of human beings and of animals which are known to be caused by viruses. There are also a number in which a virus is suspected as the cause, but has not yet been proved to be responsible beyond all shadow of doubt.

Among the better-known diseases of human beings caused by viruses are smallpox, yellow fever, measles, influenza and polio. Among virus diseases which primarily or exclusively attack animals are rabies or hydrophobia, distemper, hog cholera, and Newcastle disease of poultry.

Some of the viral diseases of animals can be contracted by human street by human beings and be disease of the cause of poultry.

Thursday at the opening of the Alberta legislature.
The scheme was announced in the speech from the throne read by Lt.-Gov. J. J. Bowlen. It was the first meeting of the legislature elected in last August's Alberta general election.
Details will be given in the budgeneral election.
The throne speech gave no details. But the plan has been to set up a revolving fund from which loans will be made at interest rates lower than the open market.
Other legislative plans announced in the throne speech:

the government's head.

Senator W. A. Buchanan of Leth-bridge, Altar, said during a continu-ing trade debate that in protesting against importation of Cuban re-fined sugar, the Canadian sugar-beet industry is just bringing its position to the federal government's attention, not threatening to go af-ter the government's scalp at the next election.

next election.

He said that western farmers have been told for years that they must go into diversified farming and that they must not concentrate so heavily on growing wheat.

With - federally-aided irrigation projects in the west, the farmers were able to grow more diversified crops. They went into growing sugar beets with the help of the federal government.

Quebec To Call

**Two By-Elections** 

QUEBEC (CP)—Premier Dupleses announced Thursday that by elections will be called this year in the vacant ritings of Montreal Outremont and Matapedia.

Mr. Duplessis made the announcement after George Marier, Liberal House leader, said if the government had possessed courage it would have called a by-election in Montreal Outremont after last summer's general election.

Montreal Outremont became vacant two hours after polls closed on voting day last July when the elected Liberal candidate, Henri Groulx, died suddenly.

Georges Lapalme, Quebec Liberal party leader defeated in Joliete constituency, announced he will run in the Outremont riding when the government calls a by-election.

Evidence presented in court showed:
The shooting took place in a U.S. prison camp at Weilheim, in June, 1945. The Americans had allowed the Viking division officers to retain their pistols after they surrendered their troops en masse.
Despite the end of hostilities, Seebach put his battalion through deily military exercises—which the Americans did not prohibit—but finally 14 NCO's protested against this "senseless service."

## The End Of Brotherhood Week

Last Saturday we printed a long editorial in this space, putting forward a few ideas about Brotherhood Week; we think of it only as a week in the created one for a hotel in Vancouver. year, and not as an ideal to be pursued, and a faith to be lived, all the year through. Variety of outlook, difference of opinion, and argument are all valuable elements in society, but tolerance and a decent regard for the claims of others are quite compatible with them. Let us differ, by all means; let us urge what we believe to be the truth upon our ellow-men with all the vigour at our and; let us quarrel, if we have to. But let us differ like civilized people, and let us quarrel like gentlemen: let us be sure that we never carry a disagreement to the point where we cannot hope agree with our opponent on some other, unrelated matter. Disagreement can be the salt of life, or it can be the poison of life. Brotherhood is very much a matter of knowing the difference beneather tween the taste of salt and the taste of salt and the taste of salt and the taste of work in Canada.

Were in jail such a library would make me a ringleader in a mutiny. Even yet, I suppose that many a safe-cracker, in the midst the hand crafts and methods of the great of his work, murmurs some weighty apophings of fresco, frieze and mosaic and may not be the highest form of art in modern practice. But Canada has a lot of walls and will have more. They can be the salt of life, or it can be the poison ages of fresco, frieze and mosaic and may not be the highest form of art in modern practice. But Canada has a lot of walls and will have more. They can to reconcile it, and where we cannot

## Murals For Canada

Young nations and nationalistic nations put themselves on walls. Mural decoration is a primary expression of tribal cohesion and aspiration. The ombs of the Pharaohs and the walls of early Christian catacombs show this. It s also a proud expression of national awareness, in an early stage of a nation's culture, as the Byzantine mosaics and the frescoes of Renaissance Italy show. For both historical reasons, Canadahaving the wealth to commission mural decorators and, Canadians presume, the natural beauty and physical vigour to the greatest exponent of mural arts in the great wide world of today. It is not. Why not?

Canada has left mural painting to the Russians (their subway stations); to the Finns (their post offices), and to the Mexicans (everything, including lifeline of the Nile, is inhabited by eight cks of flats). Why has Canada, so ultably placed in time and development, not taken mural art unto herself and made it a rich Canadian preserve? the sophisticated townsmen of Khar-The reason, we think, is that Canadians are reticent. SUNDAY: For two or three weeks most of the people I know have been fussing about the weather, which they say is too mild; they fear a premature spring. I have feared no such thing until today, when a symptom appeared — a stirring, a heyday in the blood — which is an infallible indication in me that spring has arrived. I was uneasy all morning, and this afternoon, in a sort of trance, I went to the cupboard building, on the theme of the three armed services which occupied the city's life during the war. Miller Brittain is preparing a mural for the Lancaster Hospital in Saint John, for the Department of Veterans' Affairs.

There is an opinion that the collection at the Peterborough Normal School was part of the collection in the old "Ontario Gallery," in the days before the Toronto Art Gallery was formed. When the Toronto Gallery came into being, or for some other reason, the "Ontario Gallery" collection was dispersed, part of it going to the Hamilton Normal School, the other part to the Peterborough Normal School.

Last year, the Hamilton Normal School was burnt to the ground and its pictures destroyed. Thus what remains of the old Ontario collection is what can be seen in the Peterborough Normal School, if anybody bothers to look.

The fact is that nobody at the Normal School knows for sure how the art works got there, what they are, what they are worth, or what to do with them, except to let them hang on, gather dust, cracks and stares.

Some think that the collection scattered through the building is worth a hundred thousand dollars, others that most of it is junk and that a thousand or so would buy the Canadian originals.

One thing is certain: the pictures are there—dozens of them. In their great gill frames, the pictures are there—dozens of them. 30 Horses To Train At Morrow Park

As soon as Morrow Park track is suitable for racing, there'll probably be 30 horses training there. Stan Blewett's Gadabout and Miss Chipso along with three new horses; Buster Johnston's colt, bought at Stewart's sale, Dr. Arthur Johnston's, Lady Victoria and other horses owned by Charlie Fife, Orville Fallis, Johnny Heard, Ambrose Lee, and Milt Post will probably be there.

offer which points towards more money for Lindsay merchants and offer which points towards more money for Lindsay merchants and an increase in popularity of racing there.

They also feel that some suitable arrangement can be made for racing at the Peterborough Exhibition at night and feel that there shouldn't be an Exhibition without harness racing. Owners contend there's still a definite interest in harness racing here.

Owner Hugh Davis points out that Toronto, if they had room, would have racing back, and Ottawa has started to rebuild after discovering that horse racing is a drawing card.

Hey Mac II! Give back that fin. The provincial anti-gambling squad is just around the corner!!!!

West End cagers are Toronto's best intermediate "A" team, winding the Toronto district this year. The game is inteded to points respectively over Bombers, of their first playoff series with Strikes are now deadlocked for first place in the standing.

## Edmonton Sports Barons Nip Buffalo **Editor Retires**

EDMONTON (CP) — Edmonton sportsmen paid tribute Friday night to George Mackintosh, sports editor of the Edmonton Journal who retired earlier in the day after 40 years with the paper.

Jim Coleman of Toronto, chief speaker at a dinner in Mackintosh's honor, said the retiring editor "never wrote a hateful word about any man in 40 years" despite the fact he came from "an age of newspapering when vituperation was the accepted thing."

Mackintosh, 65, recalled that when he came to Canada from Scotland soccer had been the major game in Edmonton. His desire was to live to see Edmonton win the Grey Cup.

At a special town council meeting Friday night, 1953 estimates were gone over and a provisional estimate of 65 mills for public separate school supporters and 62 mills for separate school supporters was struck.

Warkworth's new fire truck was given its first run today when a fire alarm was turned in about 8:30 a.m. The crew quickly doused a chimney fire in the home of Leo Partridge. The truck has been waiting two weeks for its first real try-out. No damage was done by the fire. It was reported that the volunteers lost no time in turning out.

## 57 Unable To Find Be ds In Civic Hospital As Daily Average Of Patients Numbers 182.3

For Shipment Into U.S.

The Civic Hospital could not provide suitable accommodation for 57 people during January.

Superintendent John Hornal's report to the board of governors showed that the hospital had a showed that the hospital had a daily average of 182.3 patients. The rated capacity of the hos-pital is 260. The situation was worse in the last two weeks.

However, it is quite possible for someone to be turned away from the Civic Hospital, or any hospital, even though there are empty beds inside. The reason is that the beds available may

not be in the section of the hospital required.
People with communicable diseases, for instance, are kept sealed off from other wards of the hospital. The maternity ward, too, is kept exclusively for mothers and their babies.
Treasurer T. T. Rodger indicated that the situation had not improved so far in February. In December there was a daily average number of patients of 167.2, and only three people were turned away because no suitable acommodation was available.

n hour, a piggery in a T-shaped barn about a half-mile west of the city dump in North Monaghan township was completely razed by fire early today. The \$7,000 blaze could be seen as far away as Bewdley and attracted about 200 people but there was nothing anyone could do.

Owned by Claude Cowan, the barn had been unoccupied since early last fall when Mr. Cowan discontinued activities there. There were no animals or imple-

At times the flames leaped as high as 125 feet in the air, causing a red glow which could be seen for 12 miles around. About an hour after the fire was first noticed, the barn was destroyed.

### HOUSE THREATENED

Purchase of dairy cattle in the district for delivery across A strong southwest wind whip ped the fire, smoke and sparks towards the other farm buildings. For more than a half-hour the farmhouse, a chicken house, and two drive sheds were threatened,

Although there were two wells near the barn, there was very little the spectators could do. At one time a few men formed a bucket brigade to douse a small blae in one of the drive sheds blaze was about 50 feet away from the barn. But that was all.

North Monaghan township has no fire department and has no working agreement with the Peterborough Fire Department.

Sam Stinson, a newcomer to the district, was coming home from work and had just stepped out of the car at his home, about 1,000 feet from the barn when he no-ticed the fire.

"It looked like a little bonfire then," said Stinsor

He then went into his home for a flashlight before going over to the barn. The fire, by that time, was sweeping through the east-west section and hadn't yet started in the costs result and the costs. in the north-south part.

## MAYOR'S PROCLAMATION

A mane pleasure in proclaiming the week commencing Sunday, February 22nd, as "Victorian Order of Nurses for Canada Week" in the City of Peterborough, marking 56 years of valuable service to Canadians.

The nurses of the V.O.N. pride themselves on never refusing a call to attend the sick in their homes. Charity cases are just one phase of their work, as they minister to the needs of both the rich and the poor, regardless of colour, race, or creed. Operating 113 branches across the country, the V.O.N. last year cared for 134,971 patients, making almost one million visits.

In urging your support for this National V.O.N. Week, I hope that everyone will realize that the local branch of the V.O.N. is a valuable asset to our city, and that its services are available to all-of us.

HUGH F. WADDELL,

OTTAWA (CP)—Production Minister Howe has decided to place his assistant deputy, T. N. Beaupre, in direct charge of aircraft production, it was learned Friday. With Canada concentrating heavily on jet fighters, the aircraft division has become the department's most important segment, with officials estimating it may spend about \$700,000,000 on jets and other planes this year.

For several months, however, the division has been without a permanent head. G. M. Grant, the department's production co-ordina-

## **Dunbar Promises New Law** If Needed For Exemptions

DETROIT (CP)-Mrs. Beatric

TORONTO (CP)—Municipal Affairs Minister Dunbar said Friday night that if provincial legislation is required before elected members of municipal councils are able to deduct expense allowances for income tax purposes, he will do his best to expedite it.

The change was announced in Finance Minister Abbott's budget speech. It has been advocated by the Association of Ontario Mayors and Reeves for some years.

"We certainly would help the local councillors if it is up to us," Mr. Dunbar told a reporter. "However, we are trying for clarification."

Ottawa sources said the expense allowance must be designated as such before it is deductible. However, there is no such designation under the Municipal Act and

## adde it harder to borrow or get redit. Thus the effect of easing the margin requirements was watered down before the acion was

taken.

Since March, 1951, the reserve board has been tightening up the money market, that is, making money scarcer. In January, the board increased the rate, at which banks may borrow money from the federal reserve system This helped further to cut down available money for bank loans.

## 400 Church Women Mark World Day Of Prayer

World Day of Prayer services, which are held annually throughout the world on the first Friday in Lent, were attended by almost 400 Peterborough women. Services were at St. Paul's Followers of Christ Around the Church in the afternoon and evening and at Anson House in the evening. Each followed a program which was prepared through the co-operation of African Christians, the same being used throughout the world.

Collection from these services is principally used for Christian literature to be sent to Africa, India, Japan, Korea, Latin America, Pakistan and is also dispersed to the various organizations which distribute such literature throughout the world. In 1952 the amount was \$28,850.

In preparation for the day, a

In preparation for the day, a key woman and a secretary were appointed for each service at the church. Mrs. Howard Clegg was key woman and Mrs. M. C. Metheral secretary for the afternoon program and Mrs. Hector McKenzie was key woman and Miss Mary Morton the secretary of the evening service.

All Protestant churches in the city were represented by the women taking part. A very excellent address by Mrs. I. G. Pollock was heard in the afternoon by 275 ladies, Mrs. Pollock is wife of the minister of Grace United Church and they were seven years in charge of a church in South Africa so she spoke from experience and observation there.

Mrs. Clegg introduced the program in the afternoon and the first portion was led by Mrs. Hubert Eastwood of St. Paul's, followed by Mrs. G. H. Frise of Murrary St. Baptist, Mrs. F. W. K. Harris of St. Andrew's United and Mrs. F. E. Hooper of St. John's Anglican.

A series of prayers were: for the Queen by Mrs. G. White of St. Luke's Anglican; for homes and families by Mrs. Frank Barrie of Park St. Baptist; for increased family and private prayer, Mrs. G. Seeley of the Church of the Open Bible; for followers of Christ around the world by Mrs. F. Sauve of Park St. Missis sionary Alliance Church; for none Christians everywhere, Mrs. Massis along the groom's sister, als McKee, in a blue gown and a assisted pink carnations.

He was asked by designer Joy Ricardo to com-ment as she showed the first of ment as she showed the first of the coronation-year collections that Britain hopes will take world fashion leadership. Curator Laver says emphasis is shifting from the bosom "back to the bottom" in "the inevit-able cycle." He explained: "In 1910, it was the bust, and cleav-age went down to the limit. In the 1920's sex emphasis was on the legs. In the 1930's it veered to the back and posterior. In to the back and posterior. In the '40's it concentrated on the bust again. And now we are back to the bottom . . . Woman is such a collection of loveli-ness that mere man cannot embrace all her charms at one embrace all her charms at one time. It is the duty of the fashion designers to direct his attention to specific zones— speaking in a fashion sense, of

DOROTHY DIX:

## Pride Of Race Often Cause Of Parental Objection

DEAR MISS DIX: I am a girl, 18, and have been going steady with a young man of 27 for the past two years. He is a fine person, and the only cause for disagreement between us has been his mother, who resents the fact that I am not of their nationality. Later, when we told her we intended to marry, she threatened suicide. Ray led her to believe we had broken up, so for the past year we have been seeing each other without her knowledge. She wants him to take a trip with her this spring and when he refused, she ordered him out of the house. I think she realizes he is still seeing me, and is using this method of delivering an ultimatum to him. WILMA

PRIDE OF RACE

ANSWER: Ray's mother has so many objections to her son's marriage that the possibility of overcoming them all seems rather dim. The pride of race, which fosters so much parental objection to marriage, is as strong as it is unreasonable.

Besides battling this strong, instinctive clannishness, Wilma, you must also battlle a mother's aversion to being alone. Ray's mother has conjured up a picture of herself as a deserted woman who will be left alone when her only son marries.

If your prospective mother-in-law could have some assurance that you are not going to be heartle so and that Ray would not become a heedless son, she might be so won over to the idea of your marriage. However, while I offer these crumbs of comfort in a remote hope that they might help, it seems unlikely that you and Ray will be able to overcome the obstacles to a happy marriage. You were both wrong in keeping your friendship a secret for the past year, for as you see now, nothing has been accomplished.

It's up to Ray to decide whether he loves you enough to buck his mother's domination. Let him make the decision—but soon.

DEAR MISS DIX: Four months ago I met a fine man; we have the daded at least twice a week. He

DEAR MISS DIX: Four months ago I met a fine man; we have dated at least twice a week. He is 30 years old, 'I'm 33. He is most kind, considerate and sincere. One month after our acquaintance, he told me he was married, his wife having been bedridden for the past four years. Seven months ago he left the town where he lived, and came to this city to work. He has dated ope other girl besides myself. I have dated other men, hoping to forget this particular one, but without success. Is he wrong in stepping out? Am I wrong in dating him? LINDSAY (ENS) - Lindsay Muskies jumped into a one-game lead in their OHA Lakeshore League semi-finals Friday night when they overpowered the Bow-manville Barons 5-1 before a large crowd at the local arena.

a hard-fought game that saw the Barons stay with the potent locals until the end of the second period then fade in the final frame.

Crawford opened the scoring in the first period as the Muskies went in front early in the game. The goal came after two close-in chances by the Mueskies had been chances by the Mueskies had been stopped by Gearing who was easily the Barons' outstanding man of the evening. In the second, with both teams playing a man short, the Barons tied the count,

That was all the tallying for the visitors. However, and before the period ended, Coombs banged in Crawford's rebound with Wimp Parker starting the play to put the locals in front to stay.

facilities. Ideally, there would be a separate storage area or closet for each person, or at least a separate for hanging garments.

In most instances the long, shallow, reach in type is more economical of space and more convenient for removing articles. When this type is equipped with sliding doors or two large hinged doors, it is highly desirable and preferred over other types.

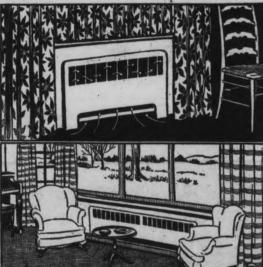

One very good method of making a house more functional and less expensive is to use closets and storage as the wall itself. When this is done, it is often found that space is available for a unit, such as chest of drawers. This unit can very easily serve two people and eliminate the necessity of buying furniture that will not only be more costly but also occupy precious floor space in the bedroom. (Do not use these wardrobes as bearing walls).

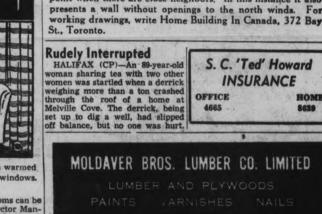

Many hard-to-store items, such as men's shirts, can be dealt with conveniently by providing, at one end of a closet, a series of trays or open drawers which can be constructed to the desired size. This again furnishes more complete utilization of available space.

Convenient and additional storage can be provided by building base cabinets, desks, bookcases, etc. under windows. This space cannot be generally used for other furniture, but does provide sufficient theight for low cabinets and will greatly increase the comfort and utility of the bedroom area.

## **Que. Biologists Find Suckers** Respond To Moon's Changes

MONTREAL (CP)—For those who like to speculate on the relation of the moon's phases to fish-catching, here's something the quebec biological bureau found out.

Carpes noires, or white suckers, entered nets and traps more freely on nights when the moon was full, but barometric changes had no erfect on the fish at all.

The experiments were made at the Mont Tremblant biological station two summers in a row and the findings were reported by Prof.
Albert Courtemanche, station director.

Just so you won't become confused about the color description of the fish in the two languages: French-Canadians selected "black" because of the dark color of the fish's back; the English version, "white", relates to the fish's belly.

## 16 Aircraft On Hop To Greenland, One Airman Killed

ST. JOHN'S Nfld. (CP)-Three United States jet aircraft rashed near Goose Bay air base in Labrador Saturday and another is missing after one of the worst multiple jet crashes in history. The USAF says one pilot was killed and the fate of the fourth pilot, missing over the Atlantic about 100 miles

The others escaped serious in-Jury. The planes were part of a flight of 16 F-84s en route Organist Dies to Europe and were flying from Goose Bay to Narsarssuak in Greenland. The three that crashed were returning to Goose Bay after their flight leader reported his auxiliary fuel tanks weren't feeding properly.

They were making a ground radar approach in formation when the leader's craft ran out of fuel at 10:30 a. m. NST (9 o'clock EST). All three planes struck the ground about 3½ miles east of the giant military airfield.

A rescue helicopter located the two surviving pilots within 20 minutes. One was evacuated to Goose immediately while the helicopter crew chief, airman Thomas Millett of Palmyra, Maine, stayed with the other.

south of Greenland, unknown

They were picked up Sunday, as unfavorable weather prevented the helicopter from making a second flight. During the night Millett fashioned a shelter from the wreckage, inflated its rubber raft for the remaining pilot and administered first aid in below freezing temperatures.

The third plane and its lifeless pilot were found Sunday morning. At 1:55 p. m. NST Saturday the pilot of the fourth craft radioed that his engine quit and he planned to ball out when the plane descended to 5,000 feet. Actual bail out time has not been confirmed. Two amphibian aircraft and two Di7s searched the area off southern Greenland for two hours without success before bad weather forced abandonment of the hunt. Unfavorable conditions continued Sunday, and operations were not expected to resume until late to day.

The U. S. Air Force withheld names of the casualties until next of kin have been notified.

BOYS TRAPPED

BOYS TRAPPED

Two small boys were trapped in a fishing hut on Lake Simcoe when the wind sent the tiny structure scuttling across the ice-covered lake. Trees were uprooted, telephone poles toppled and awnings, fences and doors torn loose in many communities.

Toronto (CP)—The stock market's record - smashing 'penny bom' set another mark in the first hour of trading today.

Week-end cogitations by speculators across-Canada resulted in a lood of orders that swamped the stock exchange. High-speed tickers was told. He denied the charge.

City police announced the man had been picked up in the city more than a week ago, and later classified as the wanted man in Western Canada. It was stated in court that Springer was being sued for non-support by his wife, and that he had passed worthless chaques at Winnipeg, Brandon, and Wainwright, Alta.

An escort from the Provost Corps had earlier been expected from Western Canada. The charge of false pretences now preferred by city police, involving some \$40; through cashing here of a worthless cheque on the Royal bank of Canada, will be proceeded with in Peterborough.

Springer will be arraigned in court Tuesday morning.

First, the province's Social Credit government announced Wednesday it will tax the profits of logging and mining companies 10 per cent.—a new tax for logging and a six-per-cent increase for mining.

For a B. C. logging company making a net profit of \$100,000 a year, the "old" federal tax was \$49,000, leaving the company \$51,-

With the new provincial tax, the company would retain \$46,200, or \$6,800 less.

\$6,800 less.

Then Finance Minister Abbott on Thursday reduced federal corporation taxes. This means that the B. C. company would retain \$51,700 from its \$100,000 net profit, ending up \$700 better off.

Logging and mining executives have criticized the new provincial tax and they got support in the B. C. legislature Friday from P.A. Gibbs, Liberal member for Oak Bay.

Mr. Gibbr contended that because production was falling the new taxes are "punitive."

The government claims it is entitled to more revenue from natural resources and this view was supported by CCF opposition leader Harold Winch.

Mines Minister Robert Sommers said earlier in the legislature session that 15 mining operations have closed down in B. C. in the last year, because of higher production costs or falling prices. More than 800 men were thrown out of work but most have since found new jobs.

TORONTO (CP) — Dr. Hewlett Johnson, the Red dean of Canterbury, arrived here Saturday to tell Canadians, he said, "something about the great and peaceful work being done in the Soviet Union."

Reporters interviewing him in his hotel room asked how Russia's latest anti-Sernitic moves could be considered peaceful work.

"I don't believe that Russia is anti-Semitic," said the 78-year-old British churchman. "Russia may have certain opposition toward particular groups, but she is not anti-Semitic."

The game saw some of the most controversial, justified or otherwise, refereeing this season. Doug Calhoun got himself into hot water with the fans when he sent off Hal Williams with a match misconduct late in the first frame, charging Williams had attempted to injure a player on the Hawk bench with his stick. Williams and Therrien of the Hawks had been wrestling on the boards and should, in the opinion of most, have been sent for majors. In the third period, the game got completely out of hand, and Calhoun handed out two minors, four majors and three misconducts when the teams began to mix it, of Port Hope.

## An Iniquitous Tax Removed

It is pleasant to be able to congratulate the Government, and the Minister of Finance in particular, upon the re- getting all the gravy. Federal as well as moval of a tax which we have often criticised in these columns; we refer to the ten per cent tax on books. Eight per cent. of that levy was sales tax, and the remaining two per cent. was an old the remaining two per cent. was an old age security tax. The tax has been dis—

Here is an outline of what the Federal fingers of the the ten per cent tax on books. Eight Here is an outline of what the Federal cussed many times, and was brought to the attention of the Massey Commission; it was pointed out that Canada was the only progressive Western country to impose such a tax on works of art and learning. Now the tax has been removed, and an adjustment of tax on paper has been made which puts all Canadian publications-books, magazines and newspapers-on the same footing. What has been bitterly described as Canada's tax on information has been abolished, and it will be a brave but illadvised government which seeks to rewive it.

The acquirement of a private library of any scope is always a costly business, but there are many people to whom it is a professional necessity, and many more who are book-lovers and students. and who desire to own books for the pleasure of themselves and their families. The cost of books in the modern world is heavy; indeed, the cost of books has always been heavy in relation to the cost of other commodities. Yet the possessor of a library of books cannot be said to have a tangible asset for his case a surplus of eleven million dollars. money; if he wants to get rid of his Judging from the way the actual surthem, and the volume which cost him \$3.50 five years ago will bring him perhaps ten cents from the dealer in Finance a year hence. All the assets that his books bring him he carries in his head.

It is sometimes said that Canadians do not read enough. Certainly they read much less than the peoples of Europe and the British Isles, though they read more than the people of the U.S.A.; a recent very interesting survey has prorided a statistical foundation for this statement. But how can Canadians be blamed for reading little when books are so expensive? It is not enough to say that books are available to them in the public libraries; we seriously doubt if anyone has ever done much serious reading in a public libarary who did not also possess a few books of his own. When very ordinary books are likely to cost from \$3 upward, books become a luxury,

publication. We wonder, in particular, if it would not be possible to cut down the price of books by publishing more of them in paper covers. We do not mean the sort of paper covers which are seen on the cheapest books; we mean the sort of paper covers which French publishers have used for years, and in which they have brought out some beautiful books. After all, it is not essential that a book be bound in cloth and cardboard; off Canadian books: it is up to the publishers to remove others.

Perhaps the Government had too much money on its hands, too embarrassing a load to bear in the face of critics' attacks on the customary Abbott surpluses. Pilot Dropped Bombs

From Burning Plane

TOKYO (Reuters)—A U.S. naval pilot—desperate because flames had broken out in his cockpit—dropped the bombs that killed three U.S. infantry behind the lines in Korea Feb. 2, the Allied command disclosed Sunday.

The carrier pilot was over a command post of the U.S. 7th infantry division when the fire broke out. Hoping to get back to his ship, he let the bombs go to lighten his burning plane. The bombs killed three Americans and wounded five others.

Later the pilot snuffed out the fire and the plane limped back for a safe landing on the carrier.

## Man Interned **During War** Unable To Sue

OTTAWA (CP)—The Exchequer Court of Canada, in a precedent-making judgment, has virtually shut the door on socres of damage suits against the Canadian government for alleged illegal wartime internment.

Mr. Justice J. T. Thorson, court president, ruled that the Crown is not responsible for a wrongful act crimitted by its officers and servants in the course of their duty, except where negligence or carelessness is proven.

The judgment was handed down in the case of Michael Magda, Romanian-born merchant seaman, who in his claim for a petition of right against the Crown told a tale of capture, suffering and imprisonment because he refused to serve aboard an Allied ship.

This isn't an obituary column, but nevertheless there are some Open Bonspiel equies to be observed marking the demise of the OHA senior Petes for this season. The end of their desperation drive came in Kingston before 4,000 roaring fans Friday but they went down with colors flying. A neutral critic, Scribe George Carver of Belleville, said: "The score was no indication of the play, as the Petes actually had more of the play. They could do everything but score— Johnson being both good and lucky— while Goodyears could doen recorded the results do nothing wrong. It was a great game." In the past few weeks, Petes had beaten Glens twice, Clippers in Stouffville and Kingston twice, ere finally bowing to the K's in the final game of the schedule.

By HERB MARTIN

Local rinks dominated play completely in the open bonsplel held at the Charlotte St. Curling Rink on Saturday. When all the scores had been recorded the results were: Peterborough 1-2-3-4-5-5. We have heard of grand slams in other games but it is the first time we have ever seen a grand slam in curling. in Kingston before 4,000 roaring fans Friday but they went down

Had they the same squad all season as the one which shed wearing local livery, the Petes would have been a shoo-in for group playoffs. But they lost three aces at the start, Jake Wade, Arn Dugan and George Steele. Also had banked on five or six of the better Eagles, but they had banked on five or six of the better Eagles, but only Toodie Greenlaw came out from the start. Later Keith Montgomery dressed. Latter easily led defencemen in scoring while Toodie was one-two all season with Chum Fryla for sniping honors up front. Still later, Bert Hill, Bill Crowley and Freddy Mortimer joined the club and then the Fetes began to roll. But 'twas a little too late to catch Glens and Kingston then, just a game or two too

late.

Blame It All On Orillia

Kingston's Mike Rodden remarked the other day: "Ironically enough, a tie game waged by the lowly Orillians and Petes in the Liftlock City on Jan. 23 could be eventually responsible if the Ellis men fail to make playoffs. Petes would have preferred to lose the points to any other team. Petes would have preferred to lose the points to any other team. Those feudists crossed swords in five games and, believe it or not, Pontiacs won three, tied one and lost one. Though the schedule favored the Petes in that three of the contests were waged in Peterborough. No doubt in the good old summer time those debts will be repaid in part or in full when lacrosse is here again." Yes, we expect Orillia will be meeting Timbermen up this way in senior "A" lacrosse warfare comes May.

## Marine Cagers Get Shower Then Return To Win Over Toronto In Overtime

All Doug MacPherson's Marines needed Saturday to defeat Toronto Monarch Knits was a brisk shower. That's right; immediately after they had stepped into the showers at St. Peter's High School, they came back to win an 81-76 over-time exhibition basketball game against the Toronto inter-

mediate "A" winners.. All they needed was that shower. It's crazy, you say, but it's true; fore taking the winning margin in overtime. It was one of the most unusual endings to any game ever played in Peterbor-

gin in overtime. It was one of the most unusual endings to any game ever played in Peterborough. It all happened this way:
With only a minute left in the game and both teams hooping baskets from all angles, the scoreboard keeper became confused and somehow Toronto ended up with a 71-68 victory. The teams gave each other three cheers and then headed into the dressing rooms and then the showers.

Downstairs the referees, Fred Wclford and Joe Stewart, checked the official scorebook and suddenly there were loud choking sounds coming from the officials table. It seemed that the game's official score was 69-all and the scoreboard had been wrong.

WANTED DECISION

WANTED DECISION

The Toronto "A" champions after coming 100 miles for the game wanted a definite decision, not a tie, and the players were recalled from the school's showers. Downhearted over their loss the Marines apparently washed away their blues in the showers and came back for the five-minute overtime period with oodles of

The hospital has one strict rule for all non-medical members of the staff.

the doctor as a god.

As humans, doctors could easily get angry at patients who cuss them, relax the rules for the patients they like best.

This type of psychological hazard is dealt with consciously at the National Jewish hospital at Denver, tuberculosis centre which in more than 50 years has provided completely free medical care for some 50,000 men, women and children of all faiths from all parts of the U.S.

"The doctor always reacts to his patients, even though he may not be conscious of his reactions," explains Dr. Sidney Dressler, Medical director. "Unless he understands his own reactions, he may become too easy or too hard toward his patients.

"Either way, he is not doing all that he could or should do for them."

This problem is discussed fully at regular staff meetings. A hospital psychiatric social workers, who know individual patients, explain why some patient is restless or unhappy or hostile, why another patient is looking for extra sympathy—and perhaps shouldn't have it.

This approach to psychology of sickness—for patients and doctors alike—is just part of the total teamwork approach to medical care of the tuberculosis patient. ## **Once Homeless Russian Boy** Rehabilitates Korean Youth

By JOHN STACKHOUSE
TAEJON, Korea (Reuters) — A
man who was once a beggar lado
on the streets of Leningrad following the Russian revolution now is
teaching the ragged, dirty beggar
boys of Taejon how to live normal
lives.

The beggar boys' benefactor is
Nicholas Wyrouboff, now a French
citizen and a United Nations welfare worker, who was able to win
the boys' confidence becausefrom his own experience — he
understbod their problems.

After his mother died in prison
fin Russia and his father had fled
to France, young Nicholas took to
the streets and became one of the
"bezprisorni"—the 'children without care" — who set Communist
Russia one of its biggest social
groups after the revolution.

When he came to Korea in
1951, Wyrouboff saw the pafrentless boys haunting the markets,
forced to beg and steal to keep
alive.

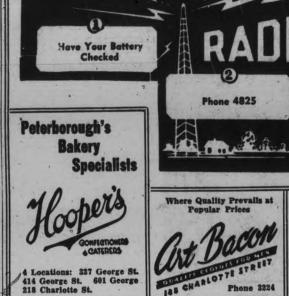

Wyrouboff discovered that the

Canadian Press Business Editor
The United States business scene is a bright one, according to the current monthly letter of the National City Bank of New York. Only in basic commodities, particularly farm products, does the letter see a "discordant note."
Business men generally, says the letter, "are putting their faith in a continuance of active demand in the months ahead."

"Final returns, when they are in, probably will show that January has set another peacetime record in aggregate industrial production, continuing the uptrend that has run since the steel strike.

"Little further gain in employment and industrial output is possible, for many of the key industries are at capacity. However, the view that business can go along on this plateau for some time is increasingly accepted.

STRATFORD (CP)—Secondary will accept an offer of a \$100-a-year increase in salaries offered by the board of education.

Teachers had originally asked a \$200 increase in maximum salaries. But they notified the board Saturday they will accept the \$100 which will bring the salary of a department head to \$5,400, major specialist \$5,200 and graduate specialist \$5,000.

specialist \$5,200 and graduate specialist \$5,000.
Women teachers in public schools accepted the same offer Thursday, which brings salaries of holders of first-class certificates to \$3,600.
Public school men teachers plan to negotiate further.

## Warkworth Brigade Given First Call

Given First Call

WARKWORTH (ENS) — Fire brigade was called out Saturday morning about 9.30 to the home of Mr. and Mrs. Leo Partridge on the second concession of Percy township to answer a chimney blaze, but luckily it was under to three months when Allan I, executive vice-president Congress of Industrial Orongress o

Haywood, executive vice-president of the Congress of Industrial Organizations, collapsed and died Saturday night.

Haywood, bitter foe of communism who compared joining a union with joining a church, died of a heart attack while addressing a union meeting here. He collapsed on the speaker's platform and died without regaining consciousness.

The death of the 64-year-old Haywood, who was hailed in some labor circles as "Mr. CiO," follows those of Phil Murray, CiO president, and William Green, president of the American Federation of Labor, Murray and Green died last November.

Haywood, who rose from a coal mining pit in England to the CiO's second-ranking job, recently lost a bitter fight for the presidency of the vast union. Believed to be heir apparent to Murray's leadership, he was defeated in his bid of union control by Walter Reuther of the United Auto Workers, Haywood was re-elected vice-president.

WINDSOR, Ont. (CP)—Michael Starr, Progressive Conservative member of Parliament for Ontario riding, said Sunday night an independent Ukrainian state would be "a powerful barrier against Russian aggression and would safeguard a free and democratic Europe."

Mr. Starr, former mayor of Oshawa, was guest speaker at the 35th hanriversary celebration of the Ukraine's independence.

Other guests included Health in inster Martin and John Yaremko Toronto, a member of the provincial House. Both Mr. Starr and Mr. Yaremko are of Ukrainian origin.

## Suburban Councils Oppose Annexation

Red Membership

Oppose Annexation

NIAGARA FALLS, Ont. (CP)—
Representatives of a dozen suburban councils met here Saturday to draw up a formula for blocking annexation or amalgamation.

They unanimously approved recommending legislation. The formula will bee presented with a brief to the annual meeting of the Ontario Association of Rural Municipalities here Monday or Tuesday.

The meeting was attended by about 35 representatives from Brant county and the townships of Brantford, Elizabethtown, arantham, London, Markham, Nelson, Saltfleet, Scarborough, Stamford, Trafalgar and Yarmouth.

They said amalgamations or anexations are only justified when there is consent of both parties involved, of if an area cannot properly be served by the township and the annexing city can and will provide the needed services.

Annexations are not justified, the brief says, where necessity is not shown.

Falling Off In France

PARIS (Reuters)—France's Communist party—second largest in Western Europe—is skidding down hill rapidly and its leaders frankly admit falling membership.

Latest evidence of the party's downward spin came in an antouncement Sunday that Le Soir Dimanche, Sunday edition of the Communist evening paper Ce Soir, will cease publication because of lack of funds and increased costs. NOTE ON SALAD

Since most families of two seem to want greater and more tempting varieties than large hungry families, I think a well-stocked vegetable crisper is a great comfort and asset. Buy 1 cucumber, I head each cabbage and luttuce, 2 bunches radishes, 1 bunch celery, 1 lb. tomatoes, 1 bunch parsley. These will provide plenty of variety for your salads for every day in one week—especially if you keep two or three kinds of salad dressing, mayonnaise and Russian dressing. To the French dressing you can add a slice of garlic for one meal, and some crumpled Roquefort at another time.

Egypt Demands U.K.

Withdraw From Suez

CAIRO (AP)—Premier Naguib's
right-hand man, Colonel Gamal
Abdel Nasser, today demended
"immediate, unconditional withdia drawal of British imperialist troops
from Suez."

In a national broadcast from Shibit in el Kom (Nile delta city) to
thousands of the city's inhabitants
who had gathered to inaugurate
a liberation organization centre,
Nasser declared:

"Egypt will not bargain for her
sacred rights" and will accept
nothing but the "immediate, unconditional withdrawal" of all British troops stationed at the canal
base."

His statement came on the eye
of British - Egyptian negotiations
on the vital canal zone. He is a
member of the Egyptian delegation for the negotiations and is
reputed to be the brains behind
the army movement that overthrew
King Farouk and the strongest man
in the 13-man revolutionary council now governing Egypt.

Last Saturday Nasser warned
Egyptians not to indulge in excessive optimism regarding British
evacuation of the Suez area and
to "brace ourselves for future
eventualities whatever they may
be."

This was, a few hours before
Naguib met the British ambassador, Sir Ralph Stevenson, for preliminary talks on the evacuation
of British troops. There are about
70,000 British soldiers guarding the
canal at present.

Karl Virtanen, 59, of Mineola, N. Y., who owned a floor refinishing business, a resort hotel at Roscoe, N. Y., and several Long Island apartment houses, was reported missing last Jan. 12.

Sunday New York city police reported that Virtanen had been found unconscious in a Manhattan apartment house elevator on Jan. 8 and digd of natural causes an hour later in a hospital.

Police said there was no indication of what he was doing in the apartment house, and that no relatives could be located.

Officers said arrangements have now been made for removal of the body to another cemetery.

By THE CANADIAN PRESS
. There are only 11 games left to play in the Cutario Hockey Association Junior A schedule and it's still a toss-up who will meet whom in the playoffs.

Two teams — Windsor Spitfires and Kitchener-W at erloo Greenshirts—will miss the post-season play. Guelph Blitmores, last year's Memorial Cup champions, weakened by player raids of the parent New York Rangers, could still reach a berth among the noble six, though the chance is slim.

The Blits would have to win their three remaining games while Oshawa Generals, now in sixth and last playoff spot, lose their last two.

last playoff spot, lose their last two.

Barrie Flyers, who stole first place from Toronto Marlboros Friday, crept up another two points over the Dukes when they downed Galt Black Hawks 4-2 in Galt Saturday. The victory increased their lead to three points.

In the only other Saturday game, Oshawa edged Kitchener-Waterloo 4-3 in Oshawa.

Sunday, St. Michael's defeated the Generals 7-2 in Toronto, Toronto Marlboros got the short end of a 3-1 decision playing the Biltmores in the second half of the doubleheader and St. Catharines Teepees nipped Windsor 4-2 in overtime.

At Galt Saturday Orm Carver

Sudbury won the boys' doubles title.

Burley Dimma came back with an insurance marker for the winners.

# Chinese Resume Poor Maintenance, Repairs Germ War Claim Plague Russian Shipping

Against Alies

TOKYO (AP)—The Chinese Communist radio Sunday resumed its major germ war propaganda offensive against the U.S. with claims that two captured marine officers "'onfessed" taking part in the campaign.

Both the U.S. state department and the United Nations command previously have branded the Redgerm charges as false.

The new Communist blasts appeared to be timed to coincide with the opening of the United Nations general assembly sessions in New York.

The new Red propaganda drive began with a 6,000-word statement attributed to Col. Frank H. Schwable, a prisoner of the Reds, who was identified as former chief of staff of the 1st U.S. marine sir wing in Korea.

# Gen. Clark Blasts Germ Charges, **Reds' Extortions**

TOKYO (AP)—Gen. Mark Clark today blasted Communist propagandists for their "fantastic and 15% utterly false charges" about germ warfare and angrily accused the Reds of extorting "confessions" from captured Americans.

The UN Far East commander said in a statement the Reds apparently have revived germ warfare charges to hide their failure to cope with expected new epidemics in war-ravaged North Korea.

The blistering denunciation was inspired by renewed germ charges by Red China's official Peiping radio. Sunday the radio sparked its marine pilot. The filer, Col. Frank Schwable of Arlington, Va., was quoted as saying the U.S. joint chiefs of staff had ordered a "contamination belt" strewn across Red Korea.

Omemee today found a third prominent writer among its population of 742 persons.

The Saturday Evening Post, on the newsstands tomorrow, carries first-person story under the name of garageman Wally Wollernan, who tells how he left Tomorto for Omemee and why he wouldn't go back to the big city.

The community's other writers are Scott Young, internationally-known author, and Robert Thomas Allen, magazine writer and humarist

A mechanic, part-owner of a service station and garage next door to Mac's lunch on Omemee's main street which is Number 7 Highway, Wally suddenly finds himself in the big league of writers. He has "made" one of the highest-paying magazines in the world

A quiet-spoken man in his mid-thirtles and happy in his new life in Omemee, Wally isn't the kind to hide his light under a bushel, but he won't put a bushel over another man's light.

Wally Wollerman admires his neighbor and fellow-villager Robert Thomas Allen. That's why he is embarrassed. He does not want anybody to think he wrote the big-paying story when his friend Bob Allen ahould have the credit.

Here's how it happened. Two garage men in Toronto became fed up with big city life. Croft Richards and his young family set out for Omemee in 1949. Wally Wollerman followed in 1950 with his wife and two youngsters. They bought out a garage in partnership.

1951 Robert Thomas Allen In 1951 Robert Thomas Allen and his family looked for life which wasn't full of high rents, taxes, smog and the risk of sudden death. Another well-known Canadian free-lance writer, Scott Young, had already moved to Omeme. So the Robert Thomas Allens went there too—to a farm house on-the edge of the village in Emily township.

house on the edge of the village in Emily township.

Bob Allen, always in search of sunjects for his articles, met Wally Wolferman at his gas station. They talked about why they had left the big city. Wally told Allen his reasons and why he liked village life. So the reasons and Allen's phrases and humor make the big-time American magazine. And so does Omemee.

# Third War Might Drive Vatican To New Land

VATICAN CITY (AP) - A Jesuit publication said Monday that another war might drive headquarters of the Roman Catholic Church to another country. But it added the Pope would still be "Roman."

Civilta Cattolica, authoritative bi-weekly publication of the Society of Jesus (Jesuits), recalled the period the papacy spent at Avig-non, France, beginning with Pope Clement V in 1314.

"The Pontiff did not cease at that time to be 'Roman,' "it said, "just as he would not cease to be (Roman) if Divine Providence should dispose that he be compelled to abandon the sacred ground of the city of Rome."

# Estimates Raise Town's Salaries

LINDSAY (ENS)—Lindsay Town Council met last night in committee to receive estimates for the coming year, preparatory to fixing the mill rate this week-end.

Police and fire departments salary demands were dealt with, as was the lengthy board of works budget and expenses of the town office. The police budget was increased to \$26,955, including salaries and expenses.

Salary increases were granted to all regular members of the force and included raises to \$2,450 for Constables Henley, Balley and Mossely, \$2,600 for Constable Mark, \$2,800 to Sergeant Eberts and \$3,300 for Chief Hunter. A new man is to be hired in May to replace Chief Webster at the base rate of \$2,250.

Total budget for the assessment department is to be \$4,500 rulus.

Remanded In London Court

LONDON (CP)—Matthew Laurence Sullivan was remanded in custody for the second time when he appeared in Bow street magistrates court Monday charged with a breach of trust affecting the public interest while employed as an immigration officer in Montreal.

Detective Sgt. Neil Sutherland of the metropolitan police asked for and received adjournment of the hearing, pending arrival of the case's details from Canada.

Sullivan, 31-year-old traffic clerk at Pont Morefax, Glamorgan, Wales, will reappear March 2. He was arrested Feb. 4 on a provisional warrant under the Fugitive Offenders Act. Bail was denied Monday.

## Is Divorce Such A Hot Potato?

Mr. Nathan Phillips, the Toronto lawyer who has been active in the move to enlarge the grounds for divorce in Canada, has described this issue as a hot potato which the federal Parliament does not want to handle. We have touched upon this subject in these colreaders know what the liberalizing of law of divorce in Great Britain, where certain other grounds than adulteryinsanity, desertion and cruelty-are recognized as reasons for divorce.

We are not sure that divorce is such a hot potato as Mr. Phillips and some parliamentarians imagine. It is not unusual for members of Parliament to exaggerate the warmth of public opinion on matters of this kind; we think that there is a very large body of opinion in Canada which favours the liberalizing of the divorce laws.

There would be opposition, of course. Roman Catholic M.Ps. would not favour any move to make divorce easier, but it is not impossible that they might abstain from voting on such an issue. Some other M.Ps might think it necessary to divorce under any circumstances, but we do not think that they are numerous. The remainder of the M.Ps would, we feel, hear the argument with an open

As Mr. Phillips points out, divorce is not a controversial subject to people who are suffering injustice and misery under existing laws. Those laws can bear very heavily on people who have been deserted, whose partners are permanently confined in mental hospitals, or who are suffering from genuine cruelty. In Mr. Phillips' phrase, such people are living in a hell on earth, and the law condemns them to it. We do not think that a majority of people in Canada would wish such a situation to continue if it were forcibly called to in the full traditional costume of his their attention, for a strong regard for rank in the Church of England. A Dean public morality includes a condemnation of laws which are demonstrably in-humane. The potato is not hot; it is barely lukewarm.

# **Wun Hors Spelling**

A bill before the British House of Commons would, if passed, introduce simplified spelling into some three thousand British schools. The bill's author, a linguist named Mont Follick, proposes a seven year experiment, on a parentpupil voluntary basis to rid English orthough and bough.

Mr. Follick says the intention is not to re-make spelling, but to assist chilamount of priestly weight. But what the only way to stop them was for every organamount of priestly weight. But what the only way to stop them was for every organbridge.

With the coming of Spring and the swellSaturday. learnt to read in his simplified phonetic versions of words, the transition to orthodox spelling would be made, simply made. We suspect this is i-wosh, the thinn ej of the wej and when pupils learnt to recognize enuff, tho and bow they would not be able to slip easily into enough, though, and bough. That, we suspect, is the result the linguist hopes

The idiosyncracles and even idiocies of English spelling are notorious, the bane of many pupils and some of their parents. Yet these irregularities, hardarnt as they may be, are themselves historical guarantees of continuous and universal understanding of the written English word. An Indian with an Oxford pronunciation over his Oriental tongue, a Virginian, a man from Cork, and a Cockney might have difficulty under standing each other's spoken word, but each would be at ease with the other's

This brings us to a major objection against the spelling reformers. On whose speech is the reformation to be made? Whose wun hors is to be used: the Canadian horrs, the southern English hahs, an old English oss, the Irish hars? Simplified spelling based on phonetics can indeed make an ass of the written language. Nor is the variation in pronun ciation due to education or lack of it. lucated people say canstle and cawstle, call the town Shrowsbury and Shrewsoury. On whose speech is the simplified phonetic spelling to be based?

There is enough confusion now with out confounding it further by basing the written word on the speech of one section of the English-speaking populace of the world. This would make the writ-ten word almost incomprehensible in some other parts. And what would be rult a century hence?

speech of one corner of the Englishspeaking world might become as archaic and as full of alleged stupidities as enough, though and bough. And as hard to read as Chaucer is now. To change spellings might put speech into a straitjacket, enshrine the literacies of today as the illiteracies of tomorrow, and reduce literature to pidgin-English.

## The Mountains Of The Moon

We recall reading an adventure story many years ago in which intrepid explorers visited the Mountains of the Moon in Central Africa. These mountains with the romantic name were said beings, including the inevitable white princess who was venerated by the savages over whom she ruled.

In later years we learned that the Mountains of the Moon were decidedly umns before, and we think that our not legendary, and that they form a beautiful and impressive feature of one the divorce laws involves; it means of the most fascinating areas of Africa. bringing Canadian law into line with the It was then, and still is, difficult to reach the mountains, for whom the correct name is the Ruwenzori Range. In two years or so, however, that will be changed, and tourists will be able to buy railway tickets to visit the mountains which straddle the frontier of Uganda and the Belgian Congo almost to the equator.

Although the railway undoubtedly will attract tourists to the Mountains of the Moon-which we think a far more attractive name than the right one-the tap the mineral wealth of the area. Extensive copper and cobalt deposits will be developed, it is said, by Canadian and British interests, thus providing other links between this country and the Dark in virtue of its greater membership Continent (there are a number of Canadian engineers already holding posts with mining concerns in various parts of Africa). According to reports, it is also propitious for the unions to attempt a merknown that radioactive ore exists in the oppose any extension of grounds for known that radioactive ore exists in the district, indicating that the present intense search for uranium may have had something to do with the decision to construct the three-hundred-mile railway extension from the present end of steel at Kampala in Uganda

Another of the remote places of earth will thus be brought within easy reach of civilization in a few years' time. It been spent on trying to attract into the ing fountain in our Court House? It is so is perhaps regrettable that this may be due in some measure to search for a mineral to be used in making a terribly destructive weapon of war. That, however, cannot be helped, and it is unlikely that it will mar the beauty of the mountains for touring.

# The Dean Is Improperly Dressed

The Dean of Canterbury, Dr. Hewlett Johnson, rarely appears in public except is entitled to wear a specially cut coat, gaiters and a pectoral cross; the Dean of Canterbury wears them all, and because he is a man of striking appearance he looks very fine. He looks venerable, benevolent' and intelligent, as a Dean should. Yet we maintain that the Dean is improperly dressed.

He wears his picturesque garb as a sign that he is an ecclesiastic of high rank, obliged to uphold the teachings of the Church of England, even though thography of anomalies like enough, these may be liberally interpreted. And whatever the Dean says from within this Mr. Follick says the intention is not priestly shell is bound to carry a certain depression of the early thirties and that the teachings of his Church, however liberally interpreted, and we think that he should lecture in some other clothes.

Apparently Bishop G. N. Luxton of the diocese of Huron shares our opinion. When the Dean spoke in London, Ont. last night, the diocese took no notice of

# WASHINGTON LETTER:

# American Labour United?

By KENNETH HARRIS

WITH the new Republican Administration With the new Republican Administration of President Eisenhower labelled as a "Businessmen's Administration," many people think it likely that the two giants of American Trade Unionism may at last decide to join forces. Since its beginnings in 1886, the American Federation of Labour (AFL) has developed along craft lines. Each local group which makes up the basic unit in this vast Federation is supposed to consist only of members of a particular trade—carpenters, meat-cutters, or musicians, for example. tains with the romantic name were said to be almost inaccessible—so nearly inaccessible that they were regarded as almost legendary. And, of course they were peopled with strange beasts and beings, including the inevitable white unit, say, in the town of Tomahawk, is made up of the members of the iron industry, and whether the member is a moulder or a crane-man, he joins just the same

THOUGH each union, particularly the AFL, has to organise to a certain exent on has to organise to a certain exent onthe principles of its rival, the basic organisational differences in their approach to Trades
Unionism is one of the first things which
would have to be overcome if a merger were to be effected.

THERE are other obstacles. Both organisations, the AFL with a membership of eight million, and the CIO with a membership of six million, have created large and strong bureaucracies within themselves.

These bureaucracies will not want to press for an alliance which would deprive many of them of their jobs. AFL bureaucrats argue that it is against the interests of their organisation to merge with CIO since it would mean AFL's sharing power equally with ar primary reason in its construction is to organisation which at present controls two million less workers than they do. CIO chiefs, on the other hand, wonder if a merger would result in the policy of the new unified body claim a greater share of the deciding votes

OUITE apart, however, from the pressure against a merger within the organisations themselves, the present time does not seem propitious for the unions to attempt a merpropitious for the unions to attempt a merpropition for t would be opposed to such a revolutionary

—as it would seem to him— step being taken.

At present it seems that neither union

ses that confidence. Both unions collected far less for the 1952 election campaigns than they had set as the contributory unions the six million American men and women who have joined the labour force since 1946, the total membership figures of both AFL and CIO stand just about where they were in that year.

The National Labour Relations Board—

a government agency —has reported that last year their polls and reports showed that the number of workers who would as soon be out of a union as in it, had increased from a steady thirty to thirty-two per cent, a trend which at least shows that the idea of unionism as such is not growing in influence at this time. . . .

THIS casualness and lack of partisal feeling, which seem characteristic of trades union members just now, may have urge their Council members to take a firm stand against any move to have this modern stand against any move to have this modern convenience removed. THIS casualness and lack of partisan been encouraged by President Eisenhower's decision to choose a prominent Trades Union Official, Mr. Durkin, to be Secretary for Labour in his Republican Cabinet, despite the fact that Mr. Durkin is a life-long Dem-

On the whole, therefore, there seems no reason why there should be any strong movement to merge the two unions in the immediate future. But much depends on how the "Business Administration" which President Eisenhower has constructed be-haves on domestic issues in the next year. All the obstacle at present in the way of a merger would be cleared overnight if Amer-ican labour decided that the Republicans

The lilies of the field, which toil not, for instance, grow not either in Palestine. This botanist is sure that it was the Palestine anemone which the original texts described. Zacchaeus almost certainly climbed up into a fig-tree, not a sycamore, to see above the crowd, and the bull-rushes that hid the infant Moses were almost certainly papyrus. There is no mention of "apple" in the story of Adam and Eve, only of the Fruit of the Tree of Knowledge.

## Mr. Millard Charges Government and Employers With Delinquency

(Kingston Whig-Standard) C. H. Millard, Canadian director of the United Steel Workers of America (C.I.O.-C.C.L.), made grave charges in an address given at the annual convention of the Ontario Federation of Labour last week. He declared that the Ontario Government and employers are gambling with the limbs and lives of workers in the Province by holding back an adequate accident prevention program. He added that employers are delib-erately concealing accidents from the Work-men's Compensation Board in order to hold down the rate they are charged as their share of compensation costs. Mr. Millard also declared that he charged the employers and the Government with delinquency in this matter and that the union were "just epared to sit back and wait while workers are being maimed and killed not prepared to sit back and wait under our noses."

These are very serious charges. They are so serious that it is not sufficient merely to make them as a preamble to a strong appeal for more "political action" by workers. Mr. Millard cannot know that these charges are true unless he has information about specific cases on which the charges may be based. And if he has such information, he is emphatically acting against the interests of the workers by not making proper use of it. Since he associates the Government with employers in a charge of delinquency, he may concelvably be reluctant to lay informwith the Workmen's Co Board. He could, however, make his information public, or he could have legal action taken against employers guilty of concealing accidents. Such action, we submit, would be more effective than anything to repair any inadequacies which may exist in the present accident prevention program

If Mr. Millard fails to produce evidence in support of his charges, the people of Ontario may conclude, with good reason, that they are baseless. If that conclusion is drawn, he can make no valid complaint. The gravity of the charges places the onus of proof on Mr. Millard, unless he wishes to have his statements discredited.

DEMAND HIGH STANDARD

The adjudicators have done much to keep up the standard of plays. And from the very first the plays entered have usually been of a high calibre. Regionwise there's usually a sprinkling of Shakespeare, Barrie, Shaw, Odets, Coward and Tennessee Williams to name a few. Thus the festival has kept a good standard of plays before the public, and kept the groups themselves from falling into too frequent use of the purely commercial play.

A number of the actors and actresses winning the Dominion top award have turned to professional theatre work. And because they have succeeded they have given an impetus to the whole field of acting.

OTTAWA (CP)—Canada's diplomatic corps is endangered by an over-abundance of academic brains and a shortage of practical men with plain common sense, Gordon Graydon (PC—Peel) said Monday. The foreign affairs specialist of the official opposition who has served with Canadian diplomatic teams at United Nations meetings said the staff of the external affairs department should bear a closer relationship to the "fabric of Canadian life."

the Tony Despirite won a desperate battle against the most relentless opponents of all, Old Father Time.

Tony Despirito is a jockey. He hadn't been heard of when 1952 dawned, he may never again hit the heavy type. But December 30, 1952 was his moment of glory, the climax of a play that gripped the imagination of sports folk all over this continent.

On the morning of December 30, Tony had ridden 385 race winners. So that every one of the year's closing days would count, he flew to Havana to ride in the Sunday races there, then flew back to Florida to resume his attack on the old mark of 388 winners in a single year. So with one day to go, he needed four winners to break the record, and on that day, he rode the four winners, became the new champion. He had one day to go, which is drawing it as close as any camera finish could be.

The undersized son of a textile mill-worker, at Lawrence, Mass., was so small that other youngsters called him The Runt' and shooed him away from their games, lest some bigger lad should trample him. So he wandered the eight miles to Lou Smith's Rockingham Park, and began to hang around the barns. Kindly horsemen let him earn a buck by walking "hots"—that is, cooling out horses after a race.

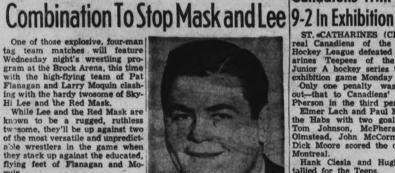

He rode horses for training in the morning and finally, he got a mount, but he didn't get close to the pay-off line. In fact, he rode so poorly that the stewards instructed that Tony wasn't to have any more mounts until he developed skill and timing. So it was back to the exercise gallops in the mornings for the kid from Lawrence.

In January 1952, at Florida's Sunshine Park, he got another chance. He rode Great Shuffle and won. Even then, success didn't blaze a sudden easy trail. For stewards at Sunshine Park shooed him away, told him to quit riding before he killed himself, or somebody else. "Fou'll never be a jockey" they advised.

But the kid din't heed the advice. We presume he felt, as have a lot of other kids in a great many sports, that he had the stuff if given any kind of a break. He we

# Farm Unions Ask Grain Act Change

WINNIPEG (CP)—Review and redrafting of the Canada Grain Act was recommended Monday by the three Prairie farm unlons in a brief presented to the board of grain commissioners at Winnipeg. The brief was presented by a delegation representing the Manitoba Farmers' Union, Saskatchewan Farmers' Union and the Farmers' Union of Alberta, including the British Columbia block.

They asked a "full-scale" inquiry by Parliament or a royal commission into "the whole question of grain handling, grading, weighing, storage and transportation."

The unions again expressed "strong disapproval" of the present grain overages practice.

The three farm organizations also attacked the diversion charges practice, which "reacted unfavorably" against the port of Churchill. In urging removal of these charges, the unions said that until such was done, terminal elevator companies were being allowed "to levy a charge for a service which is admittedly never performed."

STRIKE STOPS BURIAL-These tents shelter 77 coffins at Evergreen cemetery, one of 10 cemeteries being struck by New York gravediggers. As the strike entered its sixth week, the number of bodies awaiting burial rose to 565. Many families are burying their own dead as mediation drags on.

ished teacher, and has for some ne been head of the Classic partment of Humberside Col-

legiate in Toronto.

As a writer Miss Irwin is chiefly known for her perceptive and deeply convincing novel "Least of All Saints," which appeared in 1952. Its theme was the doubt of his vocation which assails the mind of a Canadian Protestant minister. After a profoundly touching struggle he banishes the unworthy and guilty feeling that his is not the noblest of callings, and advances confidently upon the future. The book was warmly commended by those reviewers who sensed its merit, and was for a time on the list of books most-borrowed in Toronto's public libraries.

# **Departments At Airport An Organized Machine**

By JEAN E. STENTON

CLEVELAND. — The average person who buys a plane ticket thinks only of securing his passage and reservation. There is nothing to indicate the amazing precautions taken for his safety or the work involved in the buying of that single ticket. Until I had a chance to see the other

side, I must confess that it didn't occur to day of the death of her father, me either. Basically all the airlines have Walter McHugh in England. Mrs. somewhat the same system, but I happened to visit the American Airlines building on the borough, now living in Toronto, Cleveland field and it was like living in an-

One of the top items of interest around an airport is weather. Because of the proban airport is weather. Because of the prob-lems it presents, every available avenue is explored to give the pilot maximum infor-mation so that he will be prepared to grapple

In the American Airlines Building, the weather reports from all over the United States and Canada are received every hour on the half hour. This is a joint effort of the Canadian and United States government The messages pour in in code on the teletype and the reports are filed and continually updated.

There are three files, all in code, which the pilot watches carefully before filing his flight plan. One deals with weather known at that period and has notices about hangars which speaker Thursday evening at the may be closed at airports on his route. Then there is the foreeast group for the area and also a weather map with a surface chart indicating the developing front and what is likely to for the evening will be "Air Defence in Canada." occur in the next few hours.

This is only part of the work carried on in the department of passenger and cargo service of which Paul Storm is super-visor.

CGE works, on Monday was made an honorary members of the Pe-terborough Rotary Club. He was

His assistant is Larry Cramer who has relatives living not far from Peterborough and who has fond memories of Toronto where he spent his honeymoon. You're apt to see the red-headed boss checking weather reports or out in the snow on the runway directing ramp and cargo

He looks after this special room in which the pilots study the weather charts and file flight plans. There are three main desks. The flight desk is manned by one person. The Joan Begley pilots come to him, study the weather and get weather clear-ance reports one hour before starting. The flight deskman also advises people when planes are coming in and on arrivals; he signs the clearances and flight log for the captain.

The men handling things in this department must be as familiar with Trans-Canada Airline rules and regulations Of Skating Club for handling things as Canadian employees.

The second important desk is for loading and cargo. There has to be a flight plan for each plane that is loaded and the weight must be figured to balance the aircraft. It sometimes requires a great deal of juggling to achieve. There is a minimum load as well as a maximum one, and my plane had quite a bit of leeway. The third hub, is the crew schedule desk. The crews are selected after it is checked whether they have worked the 85-hour limit per month and decided the choice of routes by seniority.

The communications department under Collis Perkins

The communications department under Collis Perkins, supervisor, is always watchful, too. Stripping the work of any glamor, Mr. Perkins said he and his staff are simply the "mouthpiece between the airships and the ground."

The Cleveland department guards planes between New The Cleveland department guards planes between New all conversation during the flight, personal or otherwise. It is recorded on a tape machine and filed. This guarding of planes goes on until they are within a 25-mile radius of the Cleveland field and then it is turned over to the control tower. Two radio men and the boss work a shift. They keep in constant touch too with other parts of the chain mentioned in the person with the most points, the winner.

In the junior ladies' group, Miss Dorothy Kingston was first, Marting and then marched, in company with a group of Peter-borough Rotarians, to the Empress. Hotel for dinner. He was introduced by K. S. Wightman, super-intendent of schools, who pointed to him as a product of the Peter-borough educational system; and he was thanked by Dr. Russell K. Magee.

In the junior pairs division Carol Hollingsworth and Jean Ann Dobbin were first, Karen Wood and Carol Smitheram were second constant touch too with other parts of the chain mentioned above, and if a piece of information is not acknowledged immediately, a special button is used to alert them. They have recently replaced some of their teletype equipment with newer and faster machines.

# MAINTENANCE IMPORTANT

Maintenance at an airport is stressed as much as anything else. At American Airlines there are about 20 mechanics and supervisors. Between the time the plane arrives and leaves, it receives a ground inspection from the mechanics and a separate one by the crew. If the captain makes any complaints, a special checkup is made. There are only two planes which stay overnight there and this calls for fast work. When the aircraft arrives, four mechanics and a supervisor form a minimum gang to make sure everything is in shape before takeoff. Some-times there are between 12 and 15 people doing vital maintenance. When a major overhaul is due, the flight must be considered so that it will end in or near Tulsa.

The reservations office at the airport is a story in itself. The office handles reservations direct for a 30-35 mile radius. They have direct teletype access across the country to all cities in the airline system. It is the largest domestic carrier in the U.S. and operates in 77 cities. The manager of operaons at Cleveland is George Rutledge and the ticket reservation section is under Donald Walters.

While I was in the reservations room, there were abou 12 girls working at a circular desk without pause, taking calls, checking files of flights and studying the availability board which shows accommodation available for two weeks ahead. Their total staff numbers 28.

If the Toronto office has a request for a seat out of Cleveland to Chicago, they check their availability list in Toronto and the latest teletype corrections. Thus they know exactly what space is available. As soon as the reservation is made, it is messaged to Cleveland and entered in the records.

"In flying today, every person is treated as an important adividual case. It's not just a smart propaganda phrase," Mr. Walters declared.

So when a person buys a plane ticket, no matter the point of destination, he automatically throws a highly geared organization into operation.

For fastest starts on coldest days, thousands of Canadian motorists are asking for Marvelube 5W (MS\*), the amazing lubricant perfected first by Imperial Oil and tested for three years under the most severe winter driving conditions. Marvelube 5W reduces battery drain and dangerous warm-up wear. It's a tough, high-detergent, heavy-duty motor oil that provides complete engine protection for all winter driving—sub-zero days and sudden warm spells. For longer battery life, longer engine life, ask for Marvelube 5W, the faster-flowing motor oil, the grade recommended by the largest Canadian cast manufacturers for trouble-free winter driving.

An age-old controversy still exponents of the running game. This is an overstatement. Witness the fact that Manitoba, where the chap and lie game is predominant, has won the Dominion title in Brier championiships on the disciples of the knock-out their cause is vindicated.

Naturally, there are exceptions to every rule. On frosty or alkalice, or when the ice on the outside of a sheet is much heavier than the centre strip, a rink is courting disaster if it plays the quiet chap and lie game because there is too much danger of guarding the opponent's rock when attempting to remove it quietly. But in most curling clubs in Canda, the ice is reasonably keen, and under such conditions it is my humble optimion that draw weight is the basis of strong offensive curling. If you know what draw weight is the basis of strong offensive curling. If you know what draw weight is the passing the provinces the provinces have been unjustifiably referred to as in the rings count when the score is racked up.

REMEMBER YOUR DELIGHT when you first baked a cake with a mix? What a grand, time-saving joy it was . . and so delicious. Now comes more big cake-making news. If you use a mix that calls for milk, I know a way that you can definitely get a higher cake. Yes, a lighter, more tender cake, every time. Carnation Evaporated Milk performs this magic .. Carnation used a new way. Doublenation used a new way. Double-rich Carnation, mind you . . . no other form of milk is rich enough. Try this cake-mix trick soon.

With any cake mix that calls for milk do this — Instead of ordinary milk, use an equal amount of liquid consisting of 2 parts of Car-nation Evaporated Milk and 1 part water.

Right now at your grocer's, there's probably a special display of Carnation Milk and cake mix. There you can get an interesting FREE leaftet giving you recipes for icings that you'll want to use again and again. Get your leaflet —get some Carnation and some cake mix — and treat your family to a super cake.

Never run cold water on hot cake pans. Sudden temperature changes may cause warping.

WHAT MAKES CARNATION SUCH A PRACTICAL MILK? First, it's the fact that Carnation is double-concentrated. In each cup of Carnation, you have the food values of 2 cups of pasteurized whole milk. So you can use Carnation mixed with an equal amount of water, to fill every whole milk purpose. Or you can use Carnation undiluted, in almost every way you use cream, Second, because it is specially heat-refined, Carnation gives foods a creamy consistency and flavor that ordinary bottled milk never could. For tempting color and delicious flavor, you should be enjoying the creamier consistency and richer taste that you get with Carnation Eyaporated Milk. Remember — every drop in every can of Carnation is the same, and unconditionally guaranteed. WHAT MAKES CARNATION SUCH

SPEAKING OF CAKES, I want to tell you about a wonderful easy-to-make Maple Cream Icing. This is a "quickie" method for a favorite kind of Icing. And because it's made with Carnation Evaporated Milk, it always turns out creamy rich and super smooth. It's the fact that Carnation is concentrated to double-richness, that makes this icing so much richer than if you made it with any other form of milk. And Carnation's special heat-refinement means that it blends more smoothly and completely with other recipe ingredients, to give icing that's more delicious than any other milk can give.

# **NOW RENEWED RED BLOOD-CELLS GIVE EXTRA VITALITY TO PEOPLE OVER 40**

Read how you may help blood renew wern-out body cells, tissues, this emazing way!

Today, thousands of people over forty are living half-dead lives. They are tired-out, rundown, littery, because their body cells and tissues are not being renewed by their blood. Yes, their blood may be literally tired out—from lack of certain lifegiving elements needed by every human being, every day.

Why are these people always tired? Here's the answer. Normal healthy blood teems with red cells which carry lifegiving substances to every cell in the body. But during middle life, the red cell content of the blood may range as much as 10% to 20% below normal. When this happens, you start feeling tired more often. Then two things may start to take place. First, your blood may not be able to carry needed lifegiving substances to your body cells and tissues quicky enough to renew them faster than they die. Second, these lifegiving elements may be "burned up" for energy to offset your tired condition, thus further depriving years body cells of the substances they need for renewal. Result—you stay tired.

# **British Launch New Blitz Against Birds**

LONDON (CP)—A new type of blitz has been launched against the freet, speckled starlings, which have become a menace in some of the larger cities of Britain.

In the stepped - up campaign against the birds, the authorities are testing out a cunning lure—specially-designed cage traps, containing tempting morsels of food in a central feeding chamber.

For years officials have been searching for effective measures in dealing with the birds that nightly descend in swarms on buildings in cities such as Birmingham, Manchester and London. Zooming for hours in closely - knit formation, twittering endlessly on the eaves of historic buildings and in trees, the starlings have become a particular nuisance in London's Trafalgar square,

He told a joint meeting of the Ontario Municipal Electric Association and the Association of Municipal Electrical Utilities that the final cost will be substantially higher than the \$191,000,000 predicted in 1948.

Reasons for the increase were greater population, increased costs of materials and labor and a higher standard of living reflected in the number of articles to be converted.

# **Warns Generosity** Of Province **Nearly At Limit**

TORONTO (CP)-Premier Frost today introduced a bill in the Ontario legislature to give municipalities a \$9,000,00 increase in grants, starting in 1954. But he injected a word of caution that the province's generosity has about reached its limit. The bill was submitted along with two others repealing the police and fire de-

partment grants, under which municipalities last year received \$3,573,000. The new grants, to be paid on a per capita basis, would total about \$12,000,000 and could be spent any way the municipalities wanted. The existing grants are specifically for expenditures on police and fire departments.

"From the very beginning the fire and police grants have been criticized as an infringement of local autonomy and as a subject properly to be financed by local taxation," the premier said.

"The new grant to begin in 1954 may be used by each municipality for any purpose suited to its local needs. There will be no inspection or regulation by the province and no strings of any kind attached."

46 PER CENT

The additional grants would raise the province's total contribution to municipalities in assistance of all kinds to about \$130,000,000, more than 40 per cent of the government's revenue.

"There is a limit to our capacity to go on increasing these grants without imposing additional taxation," the premier said. "And I am sure everyone will agree this is not the time to increase taxation."

The new grants would be paid on a graduated scale, with the largest communities getting the

Washington (CP)—President Eisenhower said today he would meet with Premier Stalin or anyone else if he thought such a conference might lead to lasting peace.

In his second press conferences since taking office, Eisenhower said that, geographically speaking, he would be willing to meet at some half-way point rather than go to Russia.

The annual report of the department of travel and publicity, tabled in the Legislature Tuesday, tabled in the Legislature Tuesday, showed cars entering the province at United States border points increased 20,000 to reach 1,362,363. A summary of the year's business said this was achieved despite industrial unrest in the U.S., exchange problems, an embargo on meat imports, and a presidential election campaign which kept many would-be visitors at home. The report said complaints about the discount on American currency ware far less than expected. "Certain restrictive aspects" of the were far less than expected. "Cerification restrictive aspects" of the liquor laws and high prices were the object of most criticism.

Exact figures on the number of tourists are not tabulated, but the increase is reflected in the number of persons registering at provincial reception centres. Last year there were 582 000 registrations, against Anacci ere 582,000 registrations, against

# Screen Audience At Dean's Toronto Speech

TORONTO (CP) — Rev. Hewlett Johnson, the "Red" dean of Canterbury, Tuesday night praised the Soviet Union before a Massey Hall audience of 2,700 persons, mostly members of the Canadian-Soviet Friendship Society and Communist sympathizers.

About 50 police outside the down-town auditorium forced University of Toronto students and other pe-destrians to keep well back from

officials of the society stopped selling tickets early in the evening when it became apparent that many anti-Communists were try-ing to get into the meeting.

# Batches of tickets were then smuggled out to the street through the back door and distributed only to those known to be sympathetic with the rally.

STRONG ARM SQUAD A police official said that a Communist strong arm squad was inside the hall to make sure everything went off as planned The previous night in Londoh, Ont., heckler's prevented Dr. Johnson from speaking.

Only twice did this squad go into action. The first time two engineering students who had managed to get tickets opened a side door of the hall and there was an onrush of students wishing to gain entrance.

dean was speaking of Russia's peaceful intentions. Farley Faulkner, a Toronto business man and son of a former Ontario minister of health, stood up to object.

The squad pounced on him and also on several newsreel cameramen trying to get pictures of the scuffle. Although Mr. Faulkner objected he was escorted from the hall.

hall.

While the speeches were going on inside the hall, students equipped with sirens and cow bells lined up on the sidewalk opposite the hall and began throwing eggs.

They chanted: "We want Red," threw eggs at the front door, narrowly missing a policeman, then shouted "Go back to Russia" Police forced the students away from the area.

# **Library Board Requires \$48,700**

The Public Library Board on Tuesday night struck its 1953 estimates and forwarded to the city council a request for \$48,700, an increase of \$400 over 1952.

The total expenditure of the board for the year is estimated at \$62,795 \$4,809 less than was spent in 1952. The board budgeted for an expenditure of \$59,127 last year.

year.

The library committee is estimating its 1953 expenditures at \$56 300. The biggest item here is salaries at \$39,250—an increase of \$2,960 over 1952. Part of this increase will go to a full year's salary for the film librarian. Last year only a six months' salary was budgeted for this position.

The estimate for book purchase remains the same as last year at \$9,000. Record purchase estimates have been increased from \$200 to \$300.

The property committee's estimate is \$4,695—\$515 less than last year.

The finance committee's estimate has been increased from \$1,-725 to \$1,800. 970 870 880 The board has budgeted for a \$10,000 grant from the Provincial Government. Other sources of revenue will be fines and subscriptions, interest on bonds and

The principal ing takes place. These models, correct even to the last branch of a plant tree, are in the Government of Ontario might be PC financial critic, Mr. J. M. Macdonheld legally responsible for places upon nell, said that the budget was designed which it had conferred a rating as tourist lodges. It is feared that the Government might be sued for damages if a tourist lodge which had been thus approved were to catch fire, or sustain ome other mishap.

The peculiarities of the law are many, but to our ears this sounds extremely far-fetched. In the U.S.A. the American Automobile Association grades tourist lodges, and so does the Duncan Hines organization: have they ever been expected to pay damages in consequence? Hotels are licensed and inspected by the Government: is the Government liable for damages which guests may seek, in case of fire or mishap? All over the world there are guides published, which grade hotels and tourist lodges by a system of stars, and the plan seems to work very well. The excuse offered by the Ontario Government for throwing over a good system, which has already brought about improvements in the provincial tourist homes, is feeble and incredible.

Several owners of tourist resorts have spent large sums of money to improve their places in order to get a good rating. That money has not been wasted, for they have lost the Government rating. which they could display and which served as a guide to prospective guests. And certainly tourists from the U.S.A. ought to have some satisfactory way of learning what kind of accommodation they are likely to get when they make their reservations.

Whatever excuse is offered for dropping the star system, the public will suspect that it was done because of pressure from people who do not want their tourist homes graded. A great many Ontario tourist homes are wretched dumps which never catch the same guests twice They work on the short-sighted prin-

I have an ambition for the University of Western Ontario and I give it to you on the 200th anniversary of the introduction of Printing into Canada-Halifax, 1752. In that 200 years printing has journeyed across the great face of the country and has built itself into one of the leading industries of the nation. But here is the sad fact: Canada has never yet had a printer of distinction. (Here Mr. Duff named great printers and typographers of Europe and the U.S.A.)

## Concern For "The Small Man"

It is understandable that the Progres-"to benefit most those who perhaps need it least." If this is intended as a reference to the alterations in the taxes on those which are small far outnumber those which are big. The increase in business in every branch of Canada's economic life demands new efforts from corporations, and the heavy taxes upon them make such efforts extremely difficult. If businesses do not expand, a brake is placed upon what appears to be a perfectly healthy national progress.

It can be said that corporations do not need money, because they already have money, but this is kindergarten economics. Corporations do not have money in order that their officers may revel and riot, but chiefly in order that they may provide goods and employment; a corporation may be perfectly solvent, but without money for legitimate expansion. To say that tax relief for them is not needed would be a curious statement indeed for Mr. Macdonnell, who knows the processes and needs of business intimately.

The same critic says that the budget will do "precious little for the small man." Certainly it will not give him they still have the improvements, but much more money by letting him off taxes, but what Mr. Macdonnell calls and the wires are threaded with polished small men pay little or nothing in taxes aluminium spheres. After the ceremony, the now. Earlier budgets have relieved them of many of their burdens. But the small man gets a good deal from the government in the way of social services, and he is likely to get even more in the future. If the small man is paying little or nothing in tax, and getting a good deal in services, what can a budget legitimately do for him?

After his pep talk, he's convinced me Texas must be quite a place. For all his kidding, Capt. Hayes is one of the most popular pilots on the field. The boys spend their time between his trips thinking up cracks about Texas.

Since regulations forbid visitors in the cockpit during flight, the Captain volunteered to give me a preview while we were still grounded. The loading ramp was something of be a problem but with Capt. Hayes pulling in front and Larry nin Cramer, assistant supervisor of passenger and cargo service, pushing from behind, they got me, the cameras and the type-

As "co-pilot for a few minutes", I realized more than ever before the complications fliers deal with. Rows and rows of instruments stretch across the nose of the plane and overhead on the roof. poses. The new mill rate in the Board's estimates was announced by G. Wilson Craw,

Chairman of finance:

"Making allowance for a small amount which is credited to schools in the city accounts we find that the Public school rate to meet the proposed estimates will be approximately 14.26 mills, or an increase of .16 mills over 1952. On the Collegiate side the rate will be 5.20 mills, an increase of .02 mills only. The effect of 1953 school requirements on the city tax rate should therefore be very small."

Robert Saunders said Tuesday in Toronto.

The five standing committees of the board — finance, property, health, supervision and advisory vocational — have all brought in their separate estimates. These were scrutinized by the finance committee and then at a special meeting of the board on Tuesday night the 1953 estimates were approved.

The levy of \$762,090—a record for the Peterborough Board of Education—is the difference between the estimated expenditure of \$1,168,860 and the estimated revenue of \$406,770.

# Vets To Inspect Cattle After U.S. Ban Lifted

CTTAWA (CP)—Agriculture Minister Gardiner said Tuesday that government veterinarians were instructed Feb. 20 to be ready to inspect pure-bred cattle sold for export to the United States after the ban is lifted March 1.

Mr. Gardiner was replying in the Commons to a statement made Monday by H. O. White (PC—Middlesex East). Mr. White asked if veterinarians were instructed not to test pure-bred cattle sold for export to the U.S., after March 2.

Mr. White said such delay would result in loss to the farmers.

Mr. Gardiner said the instructions to veterinarians were just the opposite to what Mr. White had suggested.

The department took action to see there would be no delay in inspections and no loss to farmers once the U.S. han is lifted. WASHINGTON (AP) — Former Senator Robert M. La Follette Jr., member of a Wisconsin political dynasty, shot himself to death in his home here Tuesday. He was reported to have been despondent over a heart ailment.

A friend and business associate, W. R. Voight, said the former senator's body was found in his bathroom by his wife, Mrs. Rachel Young La Follette. He had been shot through the mouth and head and there was a .22-calibre pistol clutched in his right hand.

Dr. A. Magruder McDonald, coroner for the District of Columbia, said he has issued a certificate of suicide and that there will be no inquest. Voight said La Follette might have been worrying over a heart ailment.

La Follette was 58 and served in the Senate 21 years. He was first elected to the Senate in 1925 to rill the seat left vacant by his father, Robert M. (Fighting Bob) La Follette Sr., who had run for the presidency on the Progressive ticket the year before.

"Young Bob" entered Congress at the age of 30. Joseph R. McCarthy, while a circuit judge in Wisconsin, defeated him for renomination in the Republican primary of 1946.

ANNUAL BANQUET AT ST.

LUKE'S

With Canon Walter Gilling as chairman another annual father and son banquet of the 2nd Peterborough St. Luke's Scout group got under way last week with some 10 Cubs, Scouts, Leaders and Dads filling the festive hall. At the head table were seated Sixer Bob MacDonald, A.S.M. Danny Barclay, S.M. Hank Nokes, Skipper G. Group Committee Secretary E. J. McDonald, Mr. E. Trueman, vice-president of the Local Association, Canon Gilling, Distric Commissioer Dr. G. R. Langley, Cubmaster Bill King, A.C.M. Harry Willis, A.C.M. H. Tunnicliffe and Mr. Don Worboy, the Rector's Warden. A splendid feast was served by the Mothers' Auxiliary of the group. A brief singsong under the leadership of Skipper G. was held during the clearing of the tables. Harry Wills replied to the toast to Scouting. Mr. E. Trueman, was introduced by Mr. Ed. MacDonald and thanked by Mr. J. S. Mason

Mr. Trusman drew attention to the rise and fall of the Roman Empire and then spoke of our own Brilish Empire. "The British Empire," The British Empire, with the spoke of our own Brilish Empire. George Street Young People's meeting Monday evening took the form of a dedication service at which the Rev. E. W. Rowland addressed the group with the topic "Why Am I a Member of This Union? Why Am I Here To Night?" Mr. Rowland answered the question, "We are here 'to see', to be', and 'to do' as we dedicate ourselves to God's way. He closed his address with prayer and the group then joined in singing the hymn "Just As I Am". Worship service was in charge of Miss Shirley Plowman, faith and evangelism convener: Scripture was read by Graydon Hadwin and Miss Marlene McDonald offered prayer. Recreation was in charge of Kelly Metcaffe. Lunch was served by the group in charge.

Clothes to wear south are not do fashion stitching, this is the much use if you're not going to see touches of dashion stitching, this is the much use if you're not going to see touches of embroidery, every-where. Your nearest sewing centre will show you how to do wonders with the sunny, new, resort strickes do not even need designs. If you are not sure of how a thing will look beforehand, sew-ing centres suggest an easy rule. For trim on a print, keep it plain, or violet in one of the resort cottons. You'll be surprised what it will do for that "so tired of winter" feeling.

What lifts a washdress out of the kitchen, makes it look nice for after dinner, is the trimming, from the print. If working on a plain color, you can give your winter designs and the scooped necklines, down the fronts, and on the abbrevlated sleeves of cottons. If relieves the bare look, gives a finished effect.

DEAR MISS DIX: There has been a good of trouble caused in my family through tales spread among my in-laws. None of those that have come back to my attention have any basis in fact. They say I spend too much money on clothes, when the truth is that most of the big items, such as coats, good dresses, etc., were bought before my marriage. Since then, although my husband is most kind and generous, my purchases have been limited to inexpensive dresses, shoes and hats. There have been other stories, too, but I won't take up your time by going into them. Suffice it to say, that when my husband tried to track down these tales, he met deniels at every turn. The people who had passed them on to me denied saying anything, and none else would admit to having begun the stories. Do you think

I should continue visiting my inlaws under these circumstances?

A. L. M.

ANSWER: While your in-laws my have a fondness for creating disturbances, you should not be sensitive and guilible.

NO ADMISSION FROM GUILTY

You certainly should know that no one is going to admit to spread-in a runcomplimentary story. When such a tale is told, you may be treated the sake of the trouble it will cause. No real friends would even listen to such stories.

When a member of your husband's family repeats a mean remark that has been made about you, say you don't believe it was ever said, and if it was, insist on knowing who told them. Don't wait to track down a rumor until the trail is cold. Suggest that the gossiper repeat the story to your nusband. The usual reaction is, like yours, to cry, complain, refuse to visit the family and, in

iuke yours, to cry, complain, re-fuse to visit the family and, in general, conduct yourself pre-cisely as was expected by the creator of the trouble. Why not fool 'em? Either ignore the tales entirely, or make an immediate issue of it. DEAR MISS DIX: I married my nusband when he came out of service, and we moved about 1,000 miles away from m yhome town. his family lives here, and he has

a good paying job. We both like it here, and have been very happy and successful. My problem is one that probably wouldn't occur to me if other people didn't keep reminding me of it. If my husband should pass away, should 1 stay here with my two children. or return to my home town?

ANSWER: Aren't you going out of your way to borrow trouble, Sara? While it's a wonderful thing to be prepared for emergencies, worrying about a remote contingency, as you are, is a bit overdoing it. While it's true, of course, that no one ever knows when death will strike, your husband's youth and good health would indicate that he has many useful years with you. Concentrate on making them good years together.

DEAR MISS DIX: I am the mother of three children, and have been separated from my husband for two years. A few months ago I met a man, also separated from his wife (neither othis on your sewing machine right now. For your new dater — or graduation dress, it's a dream!

An offer is being made by the Board of Education to amalgamate their health services with those of the city. Terms of the offer were agreed on at a special meeting of the Board on Tuesday in hospital here. Death those of the city. Terms of the offer were agreed on at a special meeting of the Board of Education's health services that began on a part-time basis some 40 years ago. In recent years there have been several attempts made to have the medical and dental services become a part of the Board of Health's system; but up until now the negotiations have already been made between the two Boards, it is understood, and there is a broad basis of agreement. This time it looks as though the amalgamation will go ahead.

LONDON (CP)—A chance encounter at the 1946 Ontario intermediate football finals led to the globe - girdling enterprise that genial Edward Peckham of, Niagara Falls, Ont., now heads.

Then a major on leave from the Canadian army, Peckham bumped into the holder of Canadian rights on a little-known process for "sewing steel."

Today, he's chairman, and

Today, he's chairman, and managing director of Metalock, Ltd., a British firm. The process that he 'as spread round the world turned over \$280,000 last

world turned over \$280,000 last year.

The technique is a heatless system of mending broken or cracked from and steel machinery, with short strips of nickel alley worked across fractures in much the same way as medical sutures are used. Peckham says the process, invented in the United States by an oil field employee about 1935, makes the repaired portions better than new.

makes the repaired portions better than new.

The 45-year-old executive doesn't know why what he calls the "gospel" had spread no further than Canada. But he promptly cut short his army leave to take a course in the process and then set up a Trafalgar Square office in Indonon in 1947, correctly estimating that Britain's abundance of war-weary machinery offered a ripe market.

## Starlet Gets Chance Mother Jailed For

Moiner Jailed For

Hollywood (AP) — Jill Hollingsworth has won a movie role, a chance which cost her mother a long term in jail.

Jack Broder, an independent producer, said Monday night he signed the 18-year-old Detroit girl for a part in a picture, "Steel Bayonets" on which production is scheduled start March 4.

The film will star John Ireland and Lon McCallister. Broder said Miss Hollingsworth's part may run only a few minutes but will be the principal feminine role.

"She may earn only about \$500, but she'll be getting a chance," Broder said.

Jill's mother, Mrs. Beatrice Hollingsworth, 47, last Friday was sentenced in Detroit to five to 14 years in prison for embezzling \$25,000 from a Detroit manufacturing firm for which she was a bookkeeper.

Mrs. Hollingsworth said she took the money to take her daughter to Hollywood and groom her for "a chance in show business I never had."

The elder Mr. McConnell has been one of the most conscientious and high-minded publishers in Canada, and such a reputation is not made without hard work and the taking of many disagreeable decisions; we are glad, therefore, that he is retiring at a time when he will be able to enjoy his ease; he has been a fine publisher and a fine citizen of Canada, and he has earned his rest. The younger Mr. McConnell has shown himself a worthy son of his father, and we may be assured that under his direction the Star will maintain its high standards. Fortunate indeed is that father who can pass on an honourable reputation and a great task to a son worthy of both.

## **Lindsay Juniors** In Tie Game With Belleville

LINDSAY (ENS)—The Lindsay juniors travelled to Belleville Wednesday and came back to the home town still tied with the Junior Black Hawks in their semi-final round, after playing a 5-5 overtime tie. After coming from behind a 3-1 score in the first period, to tie the count at 3-3 at the end of regulation time, the Lindsay lads went out in front twice in the overtime session, only to have the Hawks storm back, with Therrien proving the hero of the game, scoring both the overtime goals for the home team, the last a minute before the end of the overtime period.

Lindsay opened the scoring in

Lindsay opened the scoring in the first period, when Chidley blasted one from the side, with Ron Teel and McGill assisting. Four minutes later, however, the Hawks' second line came to life, and in slightly over three minutes had counted three goals. Hull scored the first, from Halstead, then Jacklin, with Halstead assisting, and finally 15 seconds later, Halstead, from Jacklin apd Hull.

The Lindsayites buckled down after that, and, with the forceful refereeing of M. Walsh from Newmarket, the teams managed to keep the proceedings clean, if rough. Packer scored the only goal of the second period, with A. Truax and Bill Williams assisting. Hal Williams knotted the count in the third, from Graham and Gibann, to set the stage for the overtime. ## Hi Lee Pins Larry Moquin For The Deciding Fall In Main Bout Of Pro Card

Hi Lee pinned Larry Moquin in seven minutes to win the deciding fall of the main pro wrestling bout at the Brock Arena last night. He did it with a series of hard slams after crotch holds, but got away with a raw deal by smashing Moquin to the mat with a punch from outside the ring previously when Larry appeared

Moquin to the mat with a punch from outside the ring previously when Larry appeared to be beating Lee's teammate, the Mask. Lee towered at 298 pounds and the Mask went 251, while Moquin was a measly 220 and his mate in the tag bout, Pat Flanagan, scaled just 231 pounds. Yet the livelier and popular pair made it quite a tussle, as each side in turn hung their rivals up in the ropes, and Pat and Larry once used Lee and the Mask as battering rams against each other. It was a hot struggle.

EVENED IT UP

Flanagan won the second and equalizing fall in 11 minutes over the hooded one as Flan and Moquin worked in relays with flying tackles to knock him goofy. It was a popular fall. The villainous dud did their worst and Referee Sam Gotter missed plenty. The ref even dove out of the ring once to escape the furious action with four grapplers engaged at once, Flanagan and Moquin having all hands befuddled in some uproarrious action. The Mask earlier used choke holds and pulled hair to keep Larry off balance, but the Frenchman evened that up with some fast hard punches to the midsection.

## Figure Skaters Seek Titles On Colored Ice

OTTAWA (CP)—Canada's top figure skaters, with one notable exception, take to the emeraldaren ice of Ottawa's Minto Club today to open the three-day Canadian figure skating championahips. The country's best amateur woman skater, 22-year-old Suzanne Morrow, announced in Toronto Wednesday night she has temporarily given up the sport to concentrate on studies at the Ontario Veterinary College.

In her absence, interest centres on Norris Bowden and Frances Dafee, the brilliant Toronto couple who placed second in pairs competition in the recent world championships at Davos, Switzerland.

Last year's men's singles champion, Peter Firstbrook, and the junior men's titlist, Charles Snelling, are back to defend their titles. Both are from Toronto.

Other top performers among the 65 entries are Sonia Currie of Edmonton, winner of the Western women's title, and Peter Dunfield and Elizabeth Gratton, both of Toronto.

## **Deliver First Automatic AA**

FLINT, Mich. (AP) — General Motors AC spark plug division to-day delivered to United States Army ordnance its first fire-control system for the army's skysweeper, largest-calibre automatic anti-air-craft artillery weapon.

With delivery of the vital unit for the 75-millimetre artillery machine-gun, some of the secrecy surrounding the weapon was lifted by the army ordnance department. Many of its details, however, still are withheld.

The major components of the sky-sweeper include radar, computer and power units. The weapon is described as designed to spot and track with radar, and aim and fire automatically at any enemy air-craft flying near-sonic speeds at low and medium altitudes. It can also be used against moving ground targets such as tanks. The skysweeper finds and tracks approaching aircraft as far away as 15 miles. It fires on and defeats air targets as far away as four miles.

Regular meeting of Colonel Agnes Neill Chapter IODE was held Tuesday evening in the YWCA with regent Mrs. W. Durant presiding.

It was voted to send a donation of \$100 to European Flood Relief, following the reading of a letter from Provincial headquarters requesting financial 'aid.

Mrs. Durant and Mrs. G. Carruthers are to represent the Chapter at the annual convention in Hamilton April 22 to 24. Several members volunteered to canvass for the Cancer Society drive being held the last week of March. An interesting letter informed members of the work of the Victoria League. Coronation booklets have been offered for sale to the IODE in Canada.

Annual reports of the Chapter were read and approved and indicated a most successful year, The nominating committee then presented a slate of officers and the following were accepted:

Regent, Mrs. W. Durant; first vice-regent, Mrs. G. Ardern; second vice-regent, Mrs. A. Gertley; secretary, Mrs. L. Morrison; assistant, Mrs. R. Wison; assistant, Mrs. R. H. G. Shaw; Echoes secretary, Miss Doris Finnie; standard bearer, Miss Helen Boyer.

The following conveners were also appointed: membership, Miss Zetta Jameson; post war, Mrs. L. Routley; child and family welfare, Mrs. S. Adamson; ex-service personnel, Mrs. G. Vallery and Miss Agnes Chalk; publicity, Mrs. W. Cuppy; Empire and world affairs, Mrs. B. Roberts; film convener, James and her group.

be called thus."

The argument intrigued philologists. Nobody produced a translation to match the nuances of the original, which contains a play on words. The French word "Bellede-Nuit" means a flower, called the Marvel of Peru, which blooms only at night.

Similarly the film deals with a French musich, played by versatile, 25-year-old Gerard Philipe, who escapes from the harshness and clatter of modern life through a series of night dreams transplanting his spirit into earlier times.

Sid did see Jim again. They met often at the rink during the winter. But it took more time than these meetings at hockey games for Sid to learn what was behind Jim's surprising. "I don't know," when asked about his Dad that first night.

It took about two years for Sid to learn all "the facts" about Jim. As their friendship grew, Sid was able to fit the story of his chum's life together from fragments Jim told him from time to time.

HON. DOUGLAS ABBOTT, Canada's HON. DOUGLAS ABBOTT, Canada's Finance Minister, buys a "share" from Bill Lord of Ottawa, Minister of Finance in the Older Boys' Parliament, to launch a campaign for \$17,000 to support church boys' work through the Ontario Council of Christian Education. In addition to the parliament, the funds are used to provide leadership for 30 summer camps, leadership training schools, a national athletic contest, literature and supplies for Sunday school

teachers and boys' group leaders and services of a boys' work secretary. Representatives of all denominations have endorsed the campaign of which Archie Townsend, chairman of the finance committee of the Peterborough Boys Work Board, is in charge locally, assisted by Walter Dainard, member of the Older Boys Parliament. A local objective of \$700 has been set and Peterborough residents are invited to "Buy a Share in Boys' Work."

Teacher's Federation is holding a teachers' workshop in Queen arrangements for the workshop.

The Peterborough workshop will be attended by over one hundred teachers from the public, separate and secondary schools in and around Peterborough, and by some twenty students from the Normal School. After a general session, the workshop members will break up into small discussion groups, led by committee members who are experienced teachers in this field. General and specific problems will be threshed out in these groups and then the members will meet in another general session at the end of the day to discuss the findings of the groups.

The workshop will be an all-day session, and will be address-

Mary School, Monaghan Road, on Saturday, to discuss various problems in the teaching of health and physical training. The discussion will be based on a booklet, "Let's Talk It Over," published by the Federation last spring, in which the committee posed the numerous problems it had found to exist in this field of education, and discussed the pros and cons of each school of thought.

## **And Brownies Receive Awards**

LAKEFIELD (ENS)—An open meeting of the Lakefield Girl Guides and Brownies was held in Memorial Hall on Tuesday afternoon, when parents and friends witnessed the enrolment of some new members and presentations of awards and badges to others.

Mrs. Harold Wilford, president of the group committee, welcomed the guests and congratulated the girls on their achievements. She also thanked the members of the group committee, those who sold tickets on a draw for a \$50 bond, and especially Mrs. C. M. Serson, convener in charge of the sale of tickets. The winning ticket was drawn by Reeve William C. Grant and the winner was Mrs. Jack Jopling of Bridgenorth. Carol Whitney sold the lucky ticket.

Nancy Doubt, Betty Jane Rath and Jeanette Staples were encolled as Guiders and Dianne Mc-Ilwaine as a Girl Giude. Carol Newson was enrolled as a Brownie of the 1st pack and Arlene Gra-

## Served 25 Years As Warden **Provincial Jail**

REGINA (CP)—Forty-two years of police service in Canada—25 of them as warden of the provincial jall in Regina—came to a close this month with the retirement of Warden T. P. Hayes.

Mr. Hayes, a native of Tipperary, Ireland, came to Canada in 1910 and served with the Regina city police force until the outbreak of the First World War.

He say service at Vladivostok in Russian Siberia during the war and on his return rejoined the Regina force. He took over the provincial jail in 1927.

on his return rejoined the Regina force. He took over the provincial jail in 1927.

Warden Hayes had many exciting experiences during his years of police service. He took part in gunfights, investigated a bank hold-up, safe-blowings and numerous robberies. In 1923 he was captured and tied up by three criminals who were themselves captured later the same day.

His most vivid years as warden were the 1930s with their over-erowded jails, riots, and embittered men—Warden Hayes calls them victims of "the disturbed state of the country" rather than criminals. Warden Hayes says the province has made tremendous strides in treatment of prisoners.

"Each individual is treated as an individual. We try to help and rehabilitate him and set him on the right road. The days of cold iron bars are gone forever."

**Quebec Legislature Expels** 

By THE CANADIAN PRESS
A Liberal member of the Quebec Legislative Assembly was expelled wednesday night, for the second time during the current session.

Emilien Lafrance, member from Richmond, was expelled for threedays by a vote of 48 to 20 during one of the stormiest sessions of the assembly in years.

Mr. Lafrance aroused the ire of Premier D u plessis when he charged Mr. Duplessis had established "a policy of tolerance and indulgence" in the administration of the Liquor Act.

The Premier demanded that Mr. Lafrance be named and after the speaker had named the Liberal member, moved that he be expelled for three days.

The British Columbia house had another stormy session in which demands for resignations flew back and forth. By the time the row had quieted down, the Social Credit government led the Opposition in demands for resignations, 4 to 1. The box score for the last two sessions is 4 to 2 for the government side.

The CCF initiated the row Tusday by demanding the resignation of J. A. Reid, Social Credit member for Salmon Arm, for his attack on the province's school system. The government repudiated Mr. Reid's remarks.

Don't believe your eyes. Spring is here!

Alright, so robins are scarce. But crows have been seen in the district and a woman phoned the Examiner today to say that she had seen a flock of ducks flying north along the river at a point near invertee bridge.

Okay, so birds have made mistakes before and found themselves perched on back fences in the middle of a blizzard with only the crumbs of generous housewives between them and starvation. The provincial police have got proof positive that the favorite season of lovers, poets and fashion designers is breathing

You Have An Invitation from Mrs. Jim Coleman, wife of sports columnist. She invites you to compare BLUE BONNET MARGARINE with eny spread at any price. Like Mrs. Coleman, I'm sure you'll love Blue Bonnet's fresh, country-sweet flavour. You'll appreciate Blue Bonnet's nutrition, too. (No other spread is richer in Vitamin A.) And you'll certainly appreciate its economy. Use Blue Bonnet in cooking, on vegetables and meat and as a delicious spread for bread. It's so handy to use in its famous Yellow Quik bag for fast, easy colouring. So ask for Blue Bonnet and get flavour, nutrition, economy and convenience.

M Agreed As Bridge the other day that those grand new chemical soaps make dishwashing a pleasure (well, almost!). And we agreed, too, that JERGENS LOTION is ideal for hands roughened and dried by these new soaps. Because it's liquid, Jergens quickly penetrates to supply the softening moisture that dry, thirsty skin needs. Keep a bottle of Jergens Lotion handy in both kitchen and hroom. Use it after every watery chore to keep your hands always as them. Yes, it's good advice to remember Jergens Lotion—because care for your hands. Costs just 15c, 37c, 65c and \$1.15.

The Case Of The Missing Pigeonhole—I used to have to solve this mystery many times a year. Somehow or other, something important always got left out of my budget. It was either a case of not enough pigeonholes or not enough money. But now, with the same amount of money, I find I have enough to go around—plus some to put into my Bank OF MONTREAL Soungs Account as well. That's because I discovered Personal Planning. It's taught me how to make my budget anticipate and meet all my most important needs—and savel It's a grand and glorious feeling and one I'd like you to have. So why not go around early tomorrow—to your neighborhood branch of the B of M—and ask for your free copy of their "Personal Planning" booklet? Speaking from personal show you have to make the most of the money you have—no matter how little or how much.

## **Edmonton Boy** Supervises Uganda's Farms

EDMONTON (CP)—Ronald J. Harvie of Edmonton went to Uganda, Africa, as an agricultural officer and ended up taking a large part in local government. Mr. Harvie, a 25-year-old graduate of the University of Alberta, is chairman of the education committee for the state of Toro, member of the board for locating and maintaining a leprosy settlement, and member of a district team advising the government on "nearly all problems."

A fleet of tractors which does custom plowing for African farm-ers is under his supervision and he is in charge of a 200-acre experi-mental farm. He has a staff of 30 Africans in a district 5,000 miles

RUSSIAN AMBASSADOR Andrei A. Gromyko, left, accepts a parting handshake from Prime Minister Winston Churchill, as he leaves 10 Downing Street, London, after presenting the British leader with a gift of £90,000—approximately \$252,000—to aid

residents of England's flood-ravaged coastal areas. It was the third such Russian gesture to non-Communist nations made public with-in the last week. Soviet aid already has gone to flood-stricken Holland and to Iran, recently hit by an earthquake.

Mr. Harvie said he finds the district interesting.

"Game abounds and elephant, hippo, buck of all kinds, wild pig, lion and leopard are common," he said in his letter. "There are quite a few snakes, including cobras, mambas and puff adders, all extremely angerous."

Baboons and monkeys are pests. Croeodiles have been placed in the same class as vermin.

Mr. Harvie says he finds the work arduous, tiring and sometimes trying but still interesting.

Married and now a father, he joined the British colonial service two years ago when he was graduated from university. He trained for 10 months at the Imperial College of Tropical Agriculture at Trinidad and then went to London. The family has been in Uganda for about a year.

WASHINGTON (AP) — The Republican administration removed price ceilings Wednesday from another \$12,000,000,000 worth of goods including cigarettes, nearly all groceries still under control, and copper and aluminum.

Price rises, some fairly sharp, are foreseen by the office of price stabilization.

Prices rose almost instantly. In New York, Kennecott Sales Corporation announced that domestic electrolytic copper would go up at once three cents a pound, to 27½ cents.

once three cents a pound, to 27½ cents.

A spokesman for the Aluminum Company of America said there would be no immediate change in the price of the metal or products made from it, however.

The copper boost was precisely in line with OPS expectations.
OPS officials figured that rice might go up 20 per cent, cigarettes one or two cents a pack, and cereals, crackers and candy by unestimated amounts.

The American Tobacco Co. announced a price rise of 38 per cent

The American Tobacco Co. announced a price rise of 38 per cent per thousand for its leading brand of cigarettes, Lucky Strike. This means a probable retail price rise of at least one cent a pack.

Prices vary according to state taxes but in New York state a pack of 20 retails for 22 cents.

## Mother's Rescue Effort Fails, 3 Children Burn

MONTREAL (CP)—Three small children ourned to death despite their mother's frantic efforts to rescue them when fire destroyed their small, wooden, 1½-storey home on the south shore of the St. Lawrence Wednesday.

They were Marjolaine Lamoureux, 5, Pierre, 4, and Monique, 2. The children had been left alone in their house at Brosseau Station, near Laprairie, Que., while their mother, Mrs. Yvette Lamoureux, went out with a six-year-old son, Laurent, to mail some letters.

Mrs. Lamoureux returned to her home to find it in flames.

Eyewitnesses said she tried to smash a window with her hands in an effort to enter the house. She then ran through the flaming arch of the front door into the living room.

living room.

Patrick Pierotte, a fireman, rar after her.

"She ran into the house screaming her bables were dying." he said. "I went after her and had to wrestle her out of the house while the flames raged round us." District firemen found the house blazing "like tinder" and concentrated on saving nearby homes. Handicapped without nearby fire hydrants, they formed a bucketchain using snow as well as water

On many occasions, however, the Queen prefers something entirely different. New designs are then prepared and presentd with suggested materials, the Queen makes her choice or suggests certain alterations, and the next step is the first fitting. Often only one fitting is necessary as designers serving the Royal Family have made-tomeasure "figures" that save the royal patron many hours of tedious standing.

An intrinsic part of the Queen's appearance is, of course, the priceless jewelry worn on official occasions. Some of this passed to her on her accession. The rest is her own private collection and includes many pitriday, wedding and state gifts. A favorite lapel piece for costume jewelry is the diamond maple leaf brooch presented by the people of Toronto.

A member of the royal household said the Queen considers it an appointment of a secretary and six conveners to complete the slate.

St. Anne's Parent-Teacher Association held a meeting Monday evening in the school auditorium with President F. J. Whaley in the chair. The Rev. L. M. Dubbery of the cathedral staff introduced the subject for the meeting, "The Imparting of Sex Education to the Child." In his introduction, Father Dubbery stressed the importance of the child receiving this education as he required it and from the correct source—the parent.

The members were privileged to have also as their guest for the evening Dr. Wm. Blastorah, who was introduced by Mrs. J. Paquette. As a help and guide in these matters Dr. Blastorah suggested the use of the "Christopher Recordings on Sex Education," which aim at the heart of the parents' problem.

COBALT BOMB-Six Cobalt bombs are being used for cancer treatment in Canada and the United States. Produced at Canada's atomic plant at Chalk River, Ont., each bomb costs \$50,000—compared with \$50,000,000 for a radium bomb of similar intensity. Called officially a Cobalt 60 beam therapy unit, this bomb is at the Victoria Hospital, London, Ont. Since it began operation in October, 1951, hundreds of treatments have been given. Director of the cancer clinic, Dr. Ivan A. Smith, is shown with the bomb. It is installed in a special room with concrete walls, eight inches thick, lined with lead and with a sand-bagged outer wall. The unit at London was financed by the Ontario

### **Budget Loophole Lets Person** Draw \$9,000 Without Tax

OTTAWA (CP)—A provision in the federal budget could let a person draw several thousand dollars a vear without paying income tax. But a government spokesman said Wednesday few taxpayers—if to beat the tax man completely. The provision is an enlargement of one in effect since 1949, under which taxpayers could deduct, from of in effect since 1949, under which taxpayers could deduct, from the two-per-cent special levy which taxpayers could deduct, from the two-per-cent special levy which taxpayers could deduct, from the two-per-cent special levy which taxpayers could deduct, from the two-per-cent special levy which taxpayers could deduct, from the two-per-cent special levy which taxpayers could deduct, from the two-per-cent special levy which taxpayers could deduct, from the two-per-cent special levy which taxpayers could deduct, from the two-per-cent special levy which taxpayers could deduct, from the two-per-cent special levy which taxpayers could deduct, from the two-per-cent special levy which taxpayers could deduct, from the two-per-cent significant to per-cent of dividends they received from Canadian corporations. The tax credit now has been expanded to 20 per cent.

Purpose of the move, Finance Minister Abbott said in his budget spech, was to encourage Canadian investment in Canadian firms.

It was criticized in the Commons Tuesday by M. J. Coldwell, CCF leader, and J. M. Macdonnell, Progressive Conservative financial critic. It was defended Wednesday by Jean Lesage, parliamentary assistant to the finance minister.

Most people who develop the barbiturate habit do so because they have been using the pills for sleeplessness. The habit usually takes several months or even years to become established. A few people have difficulty in stopping after using the sleeping tablets for less than a month.

Those who are in the habit of taking a sleeping drug find that they have to take larger and larger quantities and that even then the results are less and less successful. Besides developing a harmful habit, they may be chronically poisoned.

One woman, for example, who had taken barbiturates for several months became mentally incompetent, lost control of her elimina-

### U.K. Labor Slaps Ban On Bickering

LONDON (Reuters)—Leaders of Britain's Labor party Wednesday ordered the party's leftist and rightis factions to quit shouting at each other.

In a major effort to re-establish party harmony, the party execu-tive committee censured:

2. Sir William Lawther, miners' union leader, for blunt attacks on Bevan featured in Conservative

newspapers.

3. The Daily Herald, Labor party newspaper, for "unnecessarily offensive" references to Bevan and his supporters.

Chief target were the "brain trust" teams organized by the Bevanite Weekly Tribune. The teams, in defiance of party orders, have been stumping Britain for public question-and-answer sessions ever since Bevan's row with party leaders over the cost of reparty leaders over the cost of re-armament and United States for-

armament and United States
eign policy.

Such meetings are "contrary to
the spirit and intention" of a party
ban imposed last year on separate groupings within the party, the
executive committee said.

### USN Craft Down, All Crew Saved

WASHINGTON (AP)-A crippled

WASHINGTON (AP)—A crippled United States Navy patrol plane crash-landed in the mid-Atlantic this morning but all 10 men aboard were picked up by the coast guard cutter Coos Bay.

The navy said that four of the men were rescued from the water and six from a raft carried by the plane. The navy reported no injuries among the survivors.

The patrol plane, which was about half way between Bermiuda and the Azores Islands, landed in a sea that had been whipped by a 30-mile an hour winds.

The coast guard cutter had been sent to the area after the plane, a P2-B reported it was having engine trouble. A patrol plane also was ordered to stand by over the scene.

During the last hour of the crippled plane's flight, its progress was tracked on the radar of the Coos Bay and by other vessels. MORE ABOUT-

Crooks At Coronation

LONDON (Reuters)—Labor member Emrys Hughes said Thursday a number of crooks have already come to Britain "to celebrate the Coronation." Some of them actually installed in hotels, guised as "hotel proprietors," he told the House of Commons He apparently was referring to allegations of excessive charges by certain hotels for "Coronation accommodation."

### Absence Of Hobby, No Recreation Cause Of Much Of Mental Illness

life had been devoid of recreational activities or who had no hobbies to break the monotony and strain of present day living. In Ontario 75 per cent of the inmates in reform institutions were people who had not learned hobbies, lacked wholesome recreational pursuits and accordingly had an outlook on life that led to crime. The speaker said that in a large measure this situation was due to improper parental guidance and break-down of family life during the last war.

INTEREST DROPS

During the course of a panel discussion which followed Professor Klein's remarks, mention was made of the fact that once a child had progressed through school, obtaining an education for which there was no lack of public funds, the interest in the student dropped after he left school and he had to find his recreation in spheres which were often loosely organized and inadequately financed.

The second point which appears from time to time is that some groups favour a controlled circulation of works which plains of a series of printed questions he they feel may do harm. But it is a book which should be read by everybody who is interested in social problems, for many of its conclusions (backed by evidence) are the contrary of what is widely believed on the subject of the investigation. The third point has arisen many times, but a recent suggestion from the Montreal diocesan committee for Catholic Action embodies it clearly. Here it is: "A censorship board, composed of representatives of government departments, churches, parents' associations and educators should be empowered to prohibit sale of obscene writings." Now where, on such a censorship board, is there anyone to speak for literature? For let it it is not a subject on which all opinions along the lines drawn up in this suggesdices of the censors. For it must never be forgotten that literature is an art, and must be judged first of all by the standards of art. The complaints which are being made by people who want books banned which they have not read suggest that censorship in Canada might well turn out to be a tyranny of well-meaning non-readers, determined to meaning non-readers, determined to make the world safe for 'teen-agers, determined to preserve ignorance in its darkest gloom, and utterly unmindful of those Canadians who are lovers of litera-

### A Democratic Quandary

Widely differing opinions have been xpressed about the conduct of those students of Western University who hooted down the Dean of Canterbury when he tried to speak in London last Monday. The President, Dr. Hall, has defended them but not, we feel, very effectively. Other critics and some newspapers have pointed out that by silencing a man who was about to express opinions which they did not share, the students behaved like Brown Shirts, or Communists, or any other group of people who have closed their minds: It is suggested that they should have listhim questions, and behaved like reasonable-if unconvinced-people, and not like a pack of boodlume

The case of these students points up attitude— apart from this being a characone of the great quandaries of our time.

Somehow, sometime during the events preceding the swearing-in of the perfectly honest witnesses who had a friendly bias towards the candidate contrived to assuage their religious scruples The court-room Bible used for swearing as purloined briefly. Its Biblical pages were removed from the covers .... Here my opinion. Some say that advertising pages of The Examiner were substituted, others that pages of a directory were put in, to Some say that advertising pages replace the Biblical narrative. The book was old, anyway. It had to be tied together with strings. But now tied between the covers was something other than Holy Writ.

THE WITNESSES, always in favour of the defendant of the dollars, were thereby relieved of the necessity of swearing on the true Bible, Michael, Patrick, Sarah and the others knew that to swear to tell the truth and all the truth as contained in the advertising columns of the newspaper gave them wide freedom of testimony.

So they were all sworn as witnesse the Bible that was strung together out of purely secular myth. Now they were con-science-free to say, No, they had never re-ceived a dollar from Candidate X. Their word was not their bond, because the bonds

of Holy Writ had been removed. The imposture was not discovered until years later, when the strings fell apart re-vealing the awful truth: that for decades no person had been properly attested as a witness in any County Court trials.

Over Signing With BC

TORONTO (CP)—Annis Stukus, newly-appointed manager-coach of the Vancouver club in the Western Interprovincial Football Union said Thursday he is "happy and I guess the Vancouver club is is "happy and I guess the Vancouver club is is happy" about the signing announced at the West coast city. The likeable sports writer conceded in an interview that the problem of getting experienced Canadian players would be "tremendous." He added that "we have 18 months to work on this situation and I'm sure that we can come up with some good ones when Vancouver enters the league in 1954."

Stukus said he would shop around on the United States west coast for American players.

May Replace Cook

NEW YORK (CP)—The New York Journal-American said Thursday rumors continue that Alf Pike, now coaching the Guelph, Ont. Silitmores, is under consideration as coach of New York Rangers to replace Bill Cook.

The story, by Stan Saplin, former Ranger publicity chief, said that Gen. John Reed Kilpatrick, Ranger president, denied Wednesday night that Cook will be replaced as coach.

But the story said whispers that pike was negotiating with Madison (Cook's work in his season and a half as bench leader of the Rangers as not been "altogether pleasing" to his bosses, the newspaper said. "Also there has been evidence that Boucher and Cook, inseparable pals in their playing days, have not seen eye to eye on many matters pertaining to the team." The newspaper said the big hitch in developments concerning Pike is elieved to stem from his contract demands. Pike, 35, played for the Rangers as a forward from 1939 until 1947 except for three years service with the RCAF.

### **RoK Food Crisis** Grows Severe, To Ask UN Aid

SEOUL (AP)—The food crisis in the army of the Republic of Korea has grown so grave its chief of staff said Thursday he would ask the United Nations for help.

Gen. Paik Sun Yup made his decision known in a telephone inter-

cision known in a telephone interview. He did not go into detail, but said he was preparing to ask the UN for aid in solving the food

problem.
The situation was pointed up by Defence Minister Shin Tae Yong, who said the South Korean soldier gets only a third of the calories he needs.

This has sent several thousand Korean soldiers to hospital with tuberculosis, mainutrition and other dietary diseases. medical sources would not reveal the figure, but Korean Army officers said 7,000 men, the equivalent of two Korean regiments, had been affected.

Lt.-Col. Kim Dong Ik, commanding officer of the Korean 3th Army Hospital, said the average Korean soldier gets about 2,900 calories a day, although he needs about 4,000 as a minimum to work and fight.

Phases Of Selling Stressed At Recent Rural Group Meetings... Maple Breeders Meet Wed,, March 4.... Federation Dinner At Norwood Thursday, March 5.... Holstein Sale Tops \$600.... Five Peterborough Entries in Bull Sale.

The element and activity of selling keeps cropping up at meetings of rural groups and is like to receive increasing attention the more they realize its importance to them and their industry.

In the top brackets of a new attitude in fact-facing and doing something about it are the cheese producers. Their Ontario association harped for forty years or more on quality, the flow of milk in the cleanest possible channels all the way from the dairy farm through the factory on to the table of the consumer and customer at home and abroad.

The story has been told often enough of late of the switch in emphasis to the marketing of cheese, not only to the markets themselves but also in the manner of marketing, down to the detail of cellophane.

On the other side of the picture is the cheerless fact that Mr. Jenkins and his province associates had to plead with the federal government to take ten million pounds of concentrated milk off their hands. That sounds like a bankruptcy in initiative and enterprise in selling.

The notes of those two meetings were laid aside. Ontario farmers can raise finst rate cattle, they can produce high quality milk, and it is not all Jersey, but what about the selling of it? That job has only been skimmed. Hauser's was a voice not in the wilderness, but bouncing off tradition.

Mr. Walsh ought to tell the Concentrated producers the first step in marketing should be to dissoci-

tom, and custom wherever it be dies hard.

Meanwhile, and still, weanling pigs and calves will continue to flourish on the skim milk (with its bone building calcium) that is Louda Manor Farms and M. H. poured into their troughs. Part of the McKeown recital to the Jersey breeders had to do with the use of that surplus milk in setting up the young calves on sturdy legs.

On the other side of the picture breeders are consigning entries from their herds to the annual bull show and sale in the Royal Winter Fair building, Toronto, March 10-11. They are Louis Cadesky of the Determinent of Sons, Indian River, sending Shorthorns; and Col. F. E. Birdsall, Homer J. Hawkey of Inue of the young calves on sturdy legs.

### With Embargo Lifted, Confidence Of W. J. Murphy

Shipping Again Next Week

William J. Murphy, of Lindsay, widely known among Holstein breeders, expressed confidence to the Examiner Thursday night that the promised lifting of the U.S. embalrgo on Canadian livestock would come into trading effect next week.

"Maybe it won't be until the middle of the week or a bit later, but it is my expectation that our cattle will again be admitted into the United States in a few days," Mr. Murphy said.

In the lack of official news at Ottawa from Washington, some apprehension has been indicated redently about the intentions of the American agricultural authorities.

"Plecing together the information I have been getting from various sources. I am expecting that definite word will come through," Mr. Murphy said. "We all know it was to be March I, as was reported, but that is Sunday. Possibly they may wait until Monday to mail the announcement to Ottawa. If that was the course there would probably be a delay of a few days. However, I am only wondering what will take place. All the intimations I hear lead me to believe that our livestock farmers will be able to do business across the line next week.

"We know that this country has stamped out the foot and mouths at the Mormal School Wednesday evening March 8. This means a change in both place and time, with around 550 members in this area, the meeting could bring out a large attendance.

"We know that this country has stamped out the foot and mouth disease that was found in Saskatchewan last February, and also that we had news from the U.S. that the embargo would end on March 1st.

"The news came from the U.S. on November 28 last that the embargo was to end on March 1. It is only a few days away now, and I'm confident that announcement will be carried out, although

ment will be carried out, although I have been a little apprehensive about it lately because we had no official statement from Washington. A lot of us have been feeling that way, but I think the authority will be here before long, and that the U.S. market will be open

OTTAWA (CP)-The Common defence committee was told Thursday that materials ordered in a \$15,000 repair job on a \$14,000 army house in Regina went beyond the normal army standards.

normal army standards.

The committee's discussion of the Regina incident came to an end after an opposition attempt to get full details on a finding by the chief of the general staff that there was a degree of irresponsibility by Brig. A. B. Connelly in the use of public funds in the 1951 renovation

The work was done while Brig. Connelly, 44, of Calgary, who was retired last fall, was area commander in Regina and the house was for the area commander But E B. Armstrong, assistant deputy defence minister, testified Thursday that Brig. Connelly never lived in the house himself, that he was posted elsewhere before using the house.

He told E. D. Fulton (PC—Kamloops) that he could not say that the results of the renovation were desirable because, he said, they involved the use of public funds for articles and equipment that would not normally be acceptable under such circumstances. This went, he said, for a \$200 plate glass mirror which was ordered but never delivered.

The irregularity came to light in February, 1952, through an auditor's report that authorizations for an \$800 renovation job had been considerably exceeded.

MEXICO CITY. - For hundreds of years the heart of Mexico City has pulsed most strongly in the old section around the Zocalo (main square). Today, old and new Mexico merge here; if throbs with life and color any time of the day. Revolutions and civic fiestas have taken and take place here. It is the centre of transportation. For anyone wanting to see Mexico with all its facets and to appreciate the many cultures which have passed this way, the Zocalo is the place to make your headquarters.

My hotel room faces the Zocalo. It is an attractive park with a fountain, flowers and tall palm trees. Throughout the day there is the ceaseless rushing of people to and fro. Although it is officially known

as La Plaza Mayor de la Constitucion, it is usually referred to as the Zocalo. It is said that the shorter name is derived from the French word socle, meaning foundation.

About a century ago one was laid there for a monument to Mexican Independence which was never completed.

My view on the left is the great Mexico City Cathedral, the Directly across the plaza is the National Palace where the President of Mexico has his executive offices. On the right, is the City Hall, known as the Municipal Palace. There are some fine coats-of-arms done in multi-calculated by Toltan Temesy, are considerated for the junior championship. some fine coats-of-arms done in multi-colored tile which include those of Columbus, Cortez, that of the city of Vera

Below my window is the Portal de Mercaderes (the Arcades of the Tradesmen). They date continuously from 1524 when the Colonial government granted permission to the owners to erect a portico 25 feet wide in front of their shops to afford a sun-and-rain shelter for pedestrians. Beneath the 27 gaily decorated arches, bearing posters of bull fights and lottery drawing lists, are a host of small jewelry, toy, book and ice cream shops. They have changed little in three centuries. Some of the portable stands have been moved elsewhere by the

### MONTEZUMA'S CAPITAL

The Zocalo and buildings which surround it occupy the site of what was, under the Aztecs, the central part of the capital city of Tenochtitlan. Here they had their great palaces and temples. The Cathedral stands on the great to the God of War; the National Palace is built on the site of Montezuma's palace and some of the Aztec palace stones were used in its construction. Many treasures are still buried under all this section. The City Hall was built on the spot where the palace of the Aztec commander-in-chief

Within a few blocks in any direction the visitor can walk and see the area which was the centre of both the Aztec and Spanish seats of government. Even the oldest buildings look attractive with their graceful iron balconies and other Spanish touches.

### FOUNTAIN IN HOTEL

The Hotel Majestic where I am staying is a reconstructed colonial mansion. Today it is done in the colonial style with an attractive fountain at the end of the lobby. The rooms are furnished with pieces replicas of an earlier day and there is an abundance of the nice blue, white and yellow tile work along the corridor walls. Inside rooms overlook a lounge and have easement windows which swing open over the lounge.

It is easy to imagine the clock has turned back hundreds of years when you sit in the roof garden here. The Cathedral and National Palace fade away and in their places are the magnificent temple and palace of Monteuma which staggered Cortez and his men with their beauty and engineering.

American tourists prefer the glittering modernity of the aptown hotels. Many Mexicans prefer the atmosphere of the Majestic and so do I. It has given me a glimpse and helped me savor the charm that is Mexico.

THE NATIONAL PALACE which faces my hotel window houses the executive offices of the President of Mexico, the National Treasury, the Secretariat of War and the General Archives of the Nation. Some of the material from the palace of Montezuma was used in its construction.

### Anonymous Letters Should Be Withheld If Possible

CONSULT POSTAL INSPECTOR
ANSWER: Most certainly you should withhold the letter from your son. Regardless of how innocent the girl is of the accusations, there's no sense in planting a seed of suspicion. If you want to earry the matter of the letter further, take it to your nostal inspector.

Eggs Have High Food Value

One of Cheap Protein Foods

By KAY REX

Canadian Press Staff Writer
Those who live alone—usually know any number of ways to prepare eggs in a hurry. It's easier to make a meal of eggs than to go through all the preparations a big meal involves.

Eggs have high food value, and the Poultry Products Institute of Canada says they are cheap when compared with other protein foods. They lend themselves to many ways of serving, and in combination with other foods their versarility is practically endless.

The institute passes on some hints for preparing omelettes. Serve with tossed salad greens and

Replying to a question on a rumored difference of opinion between thim and German Chancellor Konrad Adenauer on strength of Soviet froces, Bidault denied he had any fundamental difference of opinion with the German leader.

Bidault said that he was "not entirely" convinced of figures on Soviet strength cited by Chancellor Adenauer. He did not say what the figures were. But, he added, the important thing is that we know that there is a great disparity between the Soviet forces and our own-"and that disparity is danger.

### May Hold Cuts For 1954 Election

For 1954 Election

OTTAWA (CP) — One of the Progressive Conservative opposition's old political hands thinks the Liberal government may be holding more tax cuts up its collective sleeve as a voter come-on for a delayed election.

Hon. Earl Rowe, one-time Conservative cabinet minister and member of Parliament almost continuously since 1925, made the suggestion Friday in the Commons as he criticized Finance Minister Abbott's 1953-54 budget.

The representative of the Ontario constituency of Dufferin - Simcoe said it is obvious the budget isn't as enticing as the pre-election budget of 1949 with its big tax slashes.

Perhaps this was because the government had ideas about delaying the election until next year. In that case, the government then could give the voters a "real gurshot prescription" just before polling time.

THINK TWICE

Looking directly at the cabinet ministers, Mr. Rowe said they had better "beware of rumbling in the mulberry bushes."

"You had better think twice," he said. "You might get one more year in office, one more year in power, if you consider that discretion is a better part of valor and do not go to the country until next year, because your days are numbered when you do go."

Life of the present Parliament does not expire until August, 1954, but it is generally expected the government will call an election his year, probably in October. However, some Liberals are known to prefer an election in the spring of next year.

The parliamentary day produced one formal division in the Commons. It voted 76 to 29 to reject a CCF-sponsored bill for payment by the Canadian wheat board of storage fees to farmers who store grain on their farms. The vote came after Trade Minister Howe opposed the proposal.

SHOWING RIBS
Ol' Man River (Otonabee) is showing his ribs and backbone these days. On'a drive up the River Road toward Lakefield shallows and sandbars capped with heaved ice sheets show the fishermen where the deep holes are. Lack of fall rains and winter snow looks like a small spring freshet this year, experts think. This could change with March snowstorms and April showers, however.

BY WILLIAM E. GILROY, D.D.
When Jesus invited others to follow Him, He asserted His place as a leader of men. Teaching humility both by precept and example, even to washing the Disciples feet, He nonetheless made clear His spiritual supremacy and the prerogatives of His divine mission.
Others who have been ready to profess their leadership have had no such warrant in nature or in grace, but assumed a place for which they were not qualified, or betrayed a trust that calls for high standards of character and achievement.
No call is more urgent in our time than the call for leaders and leadership. The insistence and persistence of the call seems to suggest that there are more who are ready to respond than there are who meet the demand.
Reversing the famous saying that many are called but few chosen, it might be said that many are called. Nothing is weaker in our democratic processes than the fact that many, though not all, who are elected to public office are inadequate in leadership and lack character or ability.

Jesus challenged the religious leaders or of religious lea

### **Education No Charity**

Two interesting opinions respecting the Dominion government's grants to universities were made known on Tuesday. Premier Duplessis said that Quebec would take no more federal money for this purpose; Dr. Mackintosh, principal of Queen's University, said that

We must respect the firmness with which Mr. Duplessis holds to his opinion in this matter. Education, he says, is a strictly provincial concern, and the acceptance of federal money for that purpose is therefore an acknowledgement of the federal right to interfere. If the Dominion government has large sums of money to give to Quebec universities, it is because they have taxed the people of Quebec to get that money, and they should not have done so. We do not agree with Mr. Duplessis, but no one can deny that he is logical and that his point of view has much to be said for it.

We do not agree with Premier Duplessis because we do not think that greater provincial grants to universities would be an automatic result of the Do- shining dead against them. They are reply with nothing more accommodating than minion government resigning some of its present taxing powers to the provinces. And we know that the universities need money. We agree with Principal Mackintosh that government grants to universities is investment and not charity.

The Welsh summer is pleasant, but it is rarely very warm. The Welsh winter and autumn are dank, raw, marrowchilling months. But the Welsh spring, lasting from the middle of February until the middle of April, has a beauty which no one who has seen it can ever forget. It is very quiet in the country at that time, for the bleating of the sheep is such an accustomed and appropriate sound that it is hardly notice able. But the whole land is wonderfully alive, and everywhere there is a great sense of peaceful, determined growing It is a lucky chance that the feast of the national saint comes at the time when Wales is at her loveliest.

### When Is A Surplus Bad?

Fvery organized government in Canada except municipal government has themselves? had surpluses since the war. Provincial legislatures now in session are hearing

modest-a million odd dollars. British Columbia had a twenty million dollar surplus.

Now it is a very odd thing that surpluses in some quarters are viewed as bad, in fact, rather wicked; in other quarters they are the height of excellent financing, a mark of good government. Why the differences in opinion? The Windsor Star explains the contradictory voices adequately:

Provincial Conservatives, therefore, appear convinced surpluses are good things, especially in good times. Federal Conservatives, however, have branded surpluses as "over-taxation," even though they result in reduction of the national debt. If it be sound fiscal policy to have pro-

vincial surpluses, it certainly is equally sound to have federal ones. Indeed, it is more so, because of the great national debt ulated because of two World Wars.

During the last year there has been less clamour against Federal surpluses. The reason, we suspect, is not because the surpluses are becoming smaller (both in Ottawa and Toronto) and therefore less to criticize. We think that the noisy critics are beginning to fear that a time may come when there are no surpluses; instead, deficits. And then MONDAY: I shall have to be careful about the universities should take all that they the surplus-hounders will want to could get, and not look upon it as change their tactics and cry havoc at the Government—federal or provincial in which he became enthusiastic over the —because it is not able to budget on the right side of the ledger. ### The Village Spirit

Peterborough is a big town, now. We can speak of its population in terms of 40,000. It is so big that we can even call it a "town" without thinking twice about the matter; it is a sure sign of a place which is not quite sure of its status as a city that it always insists on being called a city. But there are a few people in Peterborough who preserve the village spirit, even at the risk of their lives.

Every motorist knows them. They are the old ladies and gentlemen, infirm of step but lion-like in spirit, who choose to cross the streets when the red light is ously enquire if the rug has caught fire I in something superior to the "Match-box the lethargic citizens who amble mildly amid the rushing cars, obviously wondering what has happened to all the horses. They are the people who are so busy rushing nowhere to do nothing-in-particular that they cannot use the proper crossings; they must jay-walk, dodging with a hop, skip and jump amid the

### The Journal of Samuel Marchbanks

SUNDAY: Wanted to verify something which I half remembered, and sought Bartlett's Familiar Quotations which, to my dismay, did not contain what I sought. But it contained such a great amount of what I did not seek that I was moved to ponder upon the title; to whom, precisely, are these quotations familiar? I found scores of pages upon which not a line was familiar to me, but that means little for I am a bad quoter and have a poor memory for the exact word-ing of anything. But every quotation book appears to set out with this pretence that what it contains is pretty widely known Are there, somewhere in the world, people who use such quotations as those Bartlett includes from that notable scholar and gentleman Benito Mussolini? To me they sound like twaddle, and I could make up better and more 'quotable pieces myself.
And do people who say "Hello, sucker!"
care that they are quoting Texas Guinan?
I don't think they are even conscious that they are quoting, or know what quotation is.

his constitution is stronger than mine. A tor said that he thought I would live, I made a vow to be careful in future about what authors said, for they are liars by trade, and should be watched. But las week I read another enthusiastic essay by Priestley about the fun of trying new brands of tobacco, and when I found that my tobacconist was out of my tried-and-tru mixture today I was overcome by fool-hardiness and bought something else. It tastes like nasturtiums mingled with cayenne pepper, but as I am too stingy to throw it pepper, but as I am too stingy to throw it away I suppose I shall have to smoke it to the end, developing a mouth like a lumberman's leather mitten in the process.

Sir: Compliments are in store for Mr. Russelle who so capably expressed the desire of many Peterborough citizens: the to the end, developing a mouth like a lumberman's leather mitten in the process. One's use of tobacco is a deeply personal view of the many odd matter; my own pipe mixture, which I got our money's worth. create by mingling two delicious brands, makes some smokers quali; they say that it is concentrated essence of the Kasbah. But the size of ours. Many local fans like to me it is mild, caressing and evocative of witness hockey matches but I am certain gaudy fantasy, and to people who humora stony stare.

TUESDAY: Awoke this morning unable to move, for I had fallen victim to the Curse of the Marchbanks, which is Lumbago it runs in our family as haemophilia runs among the Bourbons. My grandfather, who was a deeply religious man and a great stu-dent of Holy Writ, identified it as the third claw of the Beast described in Revelation After much moaning, snorting and shriek-ing, and with the aid of three completely new oaths which came to me in flashes or inspiration, I rolled from my couch and huddled on my clothes. One of my legs ap peared to have shortened by six inc my axis was eighteen degrees out of plumb, this pitiable state I went about my day's work. To some I was an object of sly mock ery; to others my condition was a matter for a deep and unnecessary concern, for Lum-bago never killed anybody, though it has sometimes driven its victims to acts of vio-lence. It is a treacherous and feline ill, for at times it seems to abate, and then return carpet-stretcher.

WEDNESDAY: Lumbago worse, but I will not give in; anyhow, moving around does it good, and prevents permanent seizing-up and corrosion of the lumbar region. This evening attended a violin recital by a world-famous performer, and enjoyed it thoroughly, although I do not odicatile correction. lthough I do not ordinarily care for the solo violin. But its passages of yowling per-fectly interpreted the anguish which was going on in my back, while its tender and beautiful tones soothed me, and worked upon me like some angelic chiropractor. The player was a man of great vigour, like most alone was his deliverance, and we musicians of the first rank, and I was interaudible above the music; planists tend to growl and mutter as they play; conductors stamp their feet and sing; but players of stringed instruments are snorters . . . In the intervals many people sympathized with me, and others whispered behind their hands; I knew that they were attributing my strange-ly bent posture and crab-like progress to a number of uncomplimentary causes. Nor can I blame them, for I was conscious that I looked like Dick Deadeye in an amateur production of "Pinafore". Went to bed with much medicated wool on my back, which quickly worked up around my chest, and nade me dream of Cuba during an unusually

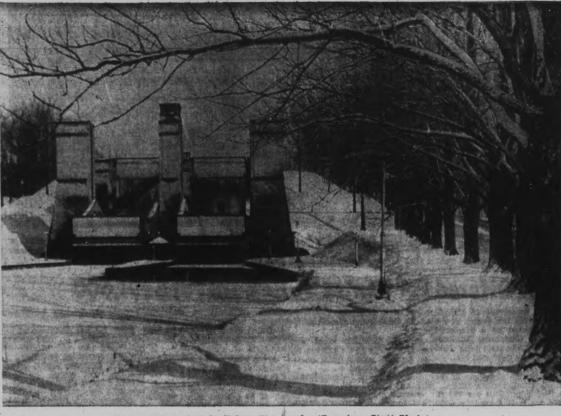

THURSDAY: Upon what system, I wonder as I stare at the white piece of paper in my 4ypewriter, is the keyboard of a typewriter designed? It looks like a jumble of letters, and I can remember a time when I found it extremely inconvenient, and had to search for a minute or so before punching every key. But now it is familiar enough.

Why does the alphabet not warph screet the Why does the alphabet not march across the three tiers of keys in its accustomed order? Why begin with Q and struggle along toward M, not to mention? and /? Personally I am found of \*, though I never use it, and I can make pretty designs with —like this Veveve—I suppose the whole thing is very scientific, but I am unable to see where the science lies.

PRIDAY: A nasty class feeling is growing hospital at Hull, which seems extravagant, when we think of the large one maintained just across the river.

A Social Credit member of the B.C. legislature complains that children out there are being taught immorality. Well—does he expect them to pick it up by themselves?

Instead of complaining about poor church attendance, why don't parsons the same good old financial story—their surpluses have dated from the middle years of the war. ### NO EFFECTIVE OPPOSITION

Sir: Re the Editorial, "Mr. Drew on Emergency Powers", in which you uphold the Government and in the next paragraph, Mr. Drew. It is a good liberal editorial which seems to see both sides of the debate. However, there are two statements with which I do not agree.

(1) "A Government which showed signs of being untrustworthy could be checked by an uproar from the Opposition."

I do not agree with this statement because recently there was an uproar from the Op-position about the Currie Report and nothing was done about it. Why? Because the Liberal their 190 odd members against a total of 61 opposition members (P.C.'s, C.C.Fers and Social Crediters) and outvoted want-ofconfidence motions, amendments and subamendments. When the opposition tried to enlarge the scope of the findings of the Currie Report by an investigation into the other branches of the Army, Air Force and Navy, it was again voted down

Then the Government facetiously announce ed it was setting up a Defence Expenditure will consult Hansard at your elbow, Mr. Editor, you will see that the Government appointed 26 men to attend these meetings, 16 were Liberals and 10 were opposition members. They appointed Mr. Croll (Lib.-Spadina) chairman, just so things would not get out of hand.

The Currie Report was whitewashed and we shall hear nothing more of it—by the Liberals.

Every loaf of bread they buy is wax paper-wrapped with a special type of processed paper from Peterborough. Gum labels to identify a thousand kinds of pure foods and gummed tape for retail stores are all made here. The company, a zubsidiary of the parent firm, Nashua Corporation of New Hampshire, was established in the city 32 years ago. It has grown with it, and with Canada, ever since.

The story is told of two of their company's American directors who had their minds set on establishing a Canadian branch in another Ontario centre. They were so casually mishandled by a city clerk who was anxious to be off to attend a wedding, they came to Peterborough for a weekend visit to salve their ruffled feelings.

Vincent Eastood heard of their visit, and being a great home-

town booster, arranged to have the two Americans look over the city-owned Canadian Cordage plant—built in 1901 to make hemp products and, later, munitions during the First World War. They decided to take it. The company started operations in 1920 and continued in the same premises until it was decided to build an ultra-

The Canadian Nashua Paper Company acquired 10% acres of land at Braidwood Ave., and Monaghan Rd. Architect Gordon Adamson of Toronto and an associate from Boston designed a glass, steel and brick building with 72,000 square feet of floor space, 8,000 of it for office. The design and utility was so outstanding that story and pictures of the completed building have appeared in many North American and European trade journals. This sort of publicity not

only put the company but Peterborough on the map.

Scotsman Hugh Munro Niven heads up the 130 employees as general manager. He prefers to be called a "salesman" since he worked for the company in that capacity in Canada for a quarter of a century before taking over the management reins. He succeeded the late E. G. R. Clarke.

Canadian paper stock with the addition of a very little special American product is processed in waxed, laminated and gummed papers. Their manufacturing processes embrace all phases of printing, waxing, gumming, winding, slitting and shipping. Work is constant and working conditions pleasant. There are several pensioners living comfortably about town and relations with the union have been very agreeable. Employees belong to Printing Specialty and Paper Products Union No. 520.

Plant manager Russell Cole is the only American on the staff. From Mr. Niven down through sales manager J. R. D. (Des) Marshall, office manager George Cheatle and plant engineer Garth Wade, the personnel is Canadian.

On a personally-conducted plant tour by Mr. Niven I saw the various manufacturing processes from the arrival of paper stocks and other raw materials at the plant railway siding, through printing, waxing and gumming to the truck and railway loading docks. The extent of each twelve-month operation of Nashua's busine

may be gauged by noting the raw products used: More than 5½ million pounds of paper is processed for waxing.

-More than 21/2 million paper pounds in the gumming processes. Three million pounds of wax.

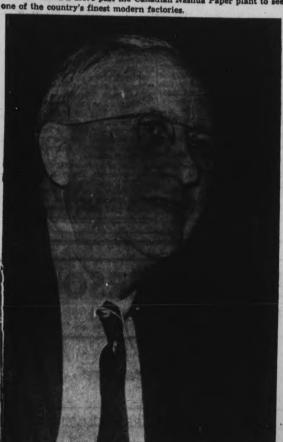

-Three-quarters of a million pounds of glue.

-120,000 pounds of printing ink (various shades).

The only thing missing which one might expect to find in a plant of this kind is a laboratory. To date, officials explained, product tests vere very simple and could be made by any of several people. But they are aware there will be the need for a lab sometime in the future. The company made provision for expansion, both to the east and west of the present plant.

Nashua Paper processors are proud of their plant. Low horizontal planes of brick and glass, oblong brick pilon clock tower, modern curved sun canopy, tasteful ornamental shrubbery plantings,

About a month ago, Lionel Conacher wrote a derogatory article a magazine, flailing present-day hockey. Called the piece "You But Girls Lose Call This Hockey?" Well, the current New Liberty carries a sharp Call This Hockey?" Well, the current New Liberty carries a sharp reply by Conn Smythe, fiery manager of Toronto Maple Leafs. Smythe thinks the Big Train's tirade is caused by (a) sour grapes, (b) a fuzzed-up memory, and (c) a time or nostalia-addied perspective. The Little Pistol is as quick on the trigger as ever. He praises big Lionel as being one of the all-time NHL greats, but he stoutly asserts that the present speedy brand of play is far superior to the old kitty-bar-the-door tactics of a couple of decades back. He points to the much larger crowds at today's games as proof.

When it comes to basketball, the boys at Kenner Collegiate can give the girls a lesson or two. Triday night N. Erskine's Kenner bantam Rams romped through Lindsay collegiate bantams in COSSA play 61-26 while Jack Cullis' midgets edged LCI junback. He points to the much larger crowds at today's games as proof.

\* \* \* \* \* \* \* \* \* Smythe says: "It was in those same 'good old days' that the great George Hainsworth got 22 shutouts and yet won only 21 games! Today's hockey is good hockey, and today's players are great players. Players in the NHL today have to make every game they play their best-or suffer the consequences. The men who ran hockey some years ago saw that the sport was tottering into oblivion and they changed the rules for the better—for the good of the gates and the good of the game. Conacher would have been an even greater player had he been playing under present-day rules, because it is dually offensive and defensive for every player on the ice." He writes much more on this.

Two Big Hockey Figures

Well, they're two mighty hockey figures in the argument, but few can out-talk Constantine Falkland Cary Smythe, the Little Major, show they weren't that bad. In He took engineering at U. of T. and played for Varsity juniors ere given government that bad. In fact Kenner took the lead 1-0 at going overseas in the First World War. Came out of it as a major the quarter and were only down with an MC, and he took a battery over in the last war, too. In be7-3 at the half. He's a real hockey authority. Lionel Conacher, MP, of course is well known as Canada's athlete of the half-century. He and Smythe both appeared at the old Brock St. rink more than once away back when.

Barbara Succee was Kenner's best with six points, starring along with Sally Reynolds. Sally Pike and Pat Scully again led the Port Hope attack.

A good physique is most important to athletes. Everyone knows that. You can't cut much of a figure in sports if you're not built right. One supposes that applies, to some extent, to people in any line of endeavor. Take Marilyn Monroe, for example—or just take her for no reason at all. Now, there's deed, as a lot of quite interested Canadian newspaper guys noticed when they sought interviews with her last year as she worked on the picture "Niagara" by the falls. She may be just a beauteous dumb blond, but she has that physique. Oh, yes, what got us off on this Monroe tangent? Let's just

At Montreal Saturday the Canadiens face the league-leading Detroit Red Wings, whom they trail by four points.

Ron Murphy, a hot-shot junior from Guelph Biltmores of the Ontario Hockey Association, will make his professional debut with the Rangers at Toronto tonight after a fancy last-minute build-up.

Murphy fired no less than six goals Friday night at Guelph in his last game as a junior.

SASKATOON (CP)—Stan Long, Victoria Cougar defenceman who was seriously injured in a West-ent Hockey League game here Wednesday night, was in an "improved" condition Friday. Hospital authorities taid he had a good night's rest and was stronger.

Long was badly cut on his right groin when a broken hockey stick giert. Long's doctor, Dr. W. D. Mc-Phall, said it was a close call for the hockey player who lost about two-thirds of his blood by the time the first transfusion was made. His condition was critical for several hours after the incident.

admitting that they have been locked in a life-or-death struggle with TV for the last three years. Yet when the industry puts on its biggest event of the year, its competitor is allowed to use the event as a showcase for selling more TV sets.

It's incredible but true. The movie industry has allowed itself to be manoeuvred into this comic position. It happened because certain studios withdrew their financial support of the academy. The studios argued that they were not allowed any say-so in the running of the academy.

Lacking enough money to put on its annual show, the academy had to seek a TV sponsor. If the balking studios had maintained their support—which amounted to around \$20,000 or a tiny fraction of their annual expenditures, this emplay. annual expenditures—this embar-rasing event would have been pre-

ON PRAIRIE CIRCUIT

Henry went to Calgary from Vancuver and followed the Prairie circuit for awhile for C. L Jacques. That was about 1936. Henry remembers, for that year, he went east with Jacques, met and married his wife, a native of Toronto Now they have a daughter, 15-year-old Maria Elizabeth, who is interested

in figure skating. Henry stayed in the east when the Calgarian went home, free-lancing or contract-riding, depending on his luck. Then, in 1938, he was ruled off the tracks for two years on sus-picion—it was never proven—in connection with a race-fix That was probably the worst time in his

A lightweight jockey who never has had trouble making the 105-pound limit, he went to work for neighboring East York township—in the sewage disposal plant. "I didn't like that kind of work," he ommented wryly.

Probably among the biggest pur-ses Henry has won were those for the Diamond Ring, an annual Tor-orto race for two-year-olds. In 1943 he won with Charlie Hem-

stad's Patafryn. The purse was \$1,558 plus the ring. A year later he rode Optioner, owned by H. W. Taylor of Islington, Ont., for an-other ring and \$1,550.

# \$10 Million Program For Mental Hospitals

TORONTO (CP)—Health Minister Phillips announced Friday a \$10,000,000 building program for Ontario mental hospitals. The additions will make available 2,000

more beds.

The health minister said renovation and addition of new wings are planned for Ontario hospitals at Brockville, Hamilton, Kingston and London. The wings, to cost about \$3,000,000 to \$4,000,000 each, will add 500 to 600 more beds.

Mr. Phillips said the program is expected to be completed by the middle of 1955. The wing at Brockville is about completed and one-third done at Kingston. Work on the Hamilton wing is to start this fall and later at London.

**Fire Ousts Workers** OTTAWA (CP)—Some 1,000 civil servants evacuated the nine-storey Hunter Building in uptown Ottawa Friday when fire broke out in the sub-basement transformer room.
The blaze was first noticed about 4 p.m. EST, when smoke seeped out between the double walls of the building at Queen and O'Connor streets. There was no immediate estimate of damage.

Oldest Twins Challenge WOODSTOCK (CP)—William and Robert Smith, both 82, of Toronto, who claimed they were Canada's oldest living twins, have been challenged once again. In a letter received Friday by the Woodstock Sentinel-Review, Egbert H. Webber of Walkerville said he and a twin brother will be 85 in about three weeks. The brother, Edgar L. Webber, lives in Vancouver.

# **River-Opening Record** Set By Ice-Breakers

MONTREAL (CP) — The ice-breakers N. B. McLean and Er-nest Lapointe reached Montreal East late Friday, setting a record by seven days in the annual chan-nel-opening job from Three Rivers.

The ships were near the main am off Pointe-aux-Trembles. Scores of persons watched from the river bank as the ships smashed at the ice, each drive carrying the ice, each drive carrying m nearly a quarter-mile.

From Montreal East the ice. breakers will continue their chan-rel-widening job on up into the harbor proper of Montreal. Even that may take a couple of weeks or more, depending on the weather and how long it takes the shore lee to move out.

Cheap Murder, Inc.

MEXICO CITY (AP)—Mexico's secret service says it has uncovered a low-priced Mexican "Murder Inc.." which killed its victims after first taking out insurance policies on them. Two men were arrested. One of the men was an insurance agent. Officials said several persons had been killed by the gang, which collected between 1,500 and 2,000 pesos (\$172 and \$230) for the death of each victim.

# Few Cans Of Paint Make **Big Change In Bathroom**

When you feel the urge to redecorate this winter, remember, your bathroom deserves its share of face-lifting. This can be done with drama at a surprisingly modest cost. No need for structural family. Did you ever think of ushanges and you don't have to buy ing, for instance, petal pink, flam-

est cost. No need for structural changes and you don't have to buy new or expensive equipment.

The secret of redecorating your bathroom is through basic changes in colour. A few cans of paint, some interesting, original accessories, a big share of imagination and you can create wonders.

To start your decorating project, get a completely objective point of view. Stand at your bathroom door and look at it through the unfamiliar eyes of a guest. That's a wonderful way to see the need for improvement. We often become so used to our own bathrooms that we develop blindspots about their shortcomings.

DRAMATIZE WITH COLOUR

What you may need above all is a new colour scheme. It should be startling and dramatic...completely different from your present colour. Of course, if your tiles or fixtures are a definite colour, this somewhat limits your choice. If your bathroom is white or a neutral colour, you can easily introduce a new and brilliant colour change.

A simple way to introduce colour, is to start with a few bright

duce a new and brilliant colour change.

A simple way to introduce colour, is to start with a few bright shelves. These can be of gally painted wood, glass, or perhaps expensive painted metal shelves. Let's say you have chosen a sharp green as your basic colour. Pile a few forest green towels on your shelves, add another group in gay sun-gold and you have a striking effect immediately.

Don't hesitate to use one, two or even three colours in your bathroom. In fact, if there are two in the family, you can personalize your towels and avoid mix-ups by each one having his own colour. Use your third colour for definite accents, for guest towels, shower curtain or for a bath stool cover.

SUGGESTED COLOUR SCHEMES

A few hints for colour schemes may help to start you: suppose your have selected blue as your hasic colour. For dramatic interest you might include towels in petal pink with accents of a deeper lightning pink, or rocket blue. In a yellow scheme, you may choose a clear sunshine yellow, a deeper sungold with accents of rich sable brown.

sands already blind.
CENTRE FOLLOWS SURVEY
The establishment of the demonstration centre which Mr. Magill will direct follows earlier surveys made by United Nations technical assistance experts at the Egyptian Government's request.
The first step was taken to follow up the Egyptian request when Dr. Harold Baime, Consultant in Rehabilitation to the United Nations and the WHO, went to Cairo in 1951 to make a preliminary study. This was followed by a more detailed study, conducted by Sidney Starling, Secretary of the Association of Workshops for the Blind, London, who spent two months in the country.

It was then decided to set up the Egyptian Government, two fellowships were granted by the United Nations—one for a blind man to train in Braille printing both at the National Institute for the Blind, at London, and at the American Foundation for Overseas Blind, in Paris; the other to train in the administration of blind welfare, at Perkins Institute, in Kentucky. The latter, who has completed his training, will act as Sub-director of the Administration Centre under Mr. Magill.

The United Nations has also granted a scholarship to an Egyptian in home-teaching to the blind. This scholar now is studying in the United States.

# Visitor To Mexico Finds Old, New World Mixed

By JEAN E. STENTON

MEXICO CITY. - Coming to Mexico is a wonderful experience because the yisitor has one foot in yesterday and one in tomorrow. He travels through time.

Part of Mexico City looks much as it did in Aztec and Spanish times. The newer section has buildings so futuristic in design that their glittering skyscraper glass walls and streamlined shapes come as a

Within a few hours one can pass through several thousand years of history, from Indian villages whose way of life is still largely pre-Columbian, past colonial churches recalling medieval feudalism, to the technology and intellectual ferment of the 20th century.

Your first contact with history comes when your plane lands at Mexico City airport. The new way is arriving by plane—the old way was by boat. The stretch of land used for an airfield was formerly Lake Texcoco, which the Spaniaras found so beautiful.

### GREAT CONTRAST

Walking along the streets I pass men and women who might have stepped off New York's 5th Avenue. Brushing shoulders with them are wrinkled Indian men and women in ragged clothes, showing the marks of a life of hard work The men will be wearing white suits, wide-brimmed stray sombreros and sometimes a colorful serape. The women will have long or short dresses of ancient vintage and the typical rebozo (shawl). The rebozo not only forms a head covering and is worn over the shoulders, but it is used to carry a baby in or place the parcels collected at market.

There are many children in ragged clothes and bare feet sitting along the sides of buildings with their hands outstretched, begging. I saw one old lady walking along avenida Juarez, one of the main streets. She was greyhaired and wore a street-length gown of some homemade material and was padding along the pavement in her

It is this perpetual contrast which makes Mexico so interesting and colorful to visitors and Mexicans themselves. Outside smart restaurants you will see poor laborers munch ing tortillas for lunch in a scene that you could have wited two hundred years ago. These tortillas have been fried on an ancient stove set up perhaps in a hall door way.

I am sure there are more shoe-shine boys per square foot in Mexico City than in any other part of the world. Every few paces there is a obserful "boy" ranging in years anywhere from 12 to 60. Early in the morning they place their little stools and shoe shine equipment and busily solicit trade as you walk along. When business is slow they sit on the stools themselves and doze in the warm

While trying out a second class bus today I had to stand.
One of the passengers hearing me speak a foreign tongue politely gave me his seat. When I thanked him in Spanish he gave me a pleased look.

Three years ago the teachers the specific themselves the task of thoroughly investigating health and physical education in the educational system. This subject was chosen because of the "confusion."

Two degree teams

These second class buses can be quite an experience.

I travelled in the off hour, but at rush periods they are packed so full of people they even hang out the windows. There are two doors on opposite sides at the front to speed unloading and because the bus stops on different sides of the street. By paying a little more, you can travel on first class buses. They will only carry the number of passengers for whom there are seats. They may be rides have brought me in closer touch with the people and have helped me to know them. It's a lot of fun. Buy yourself a round trip ticket and go to some section of the city. It will be a most profitable hour.

Why Not Trade In Your Old Furniture Today?

LEADING THE OBSERVANCE of Education Week that starts Monday was an address by Miss Grace Irwin (centre), head of the classics department of Humberside Collegiate in Toronto, who said that modern concepts failed to meet the issues of today's problems. She was guest speaker at a meeting sponsored by the Peterborough Teachers' Council at Queen Mary School, She is shown here with president of the council A. J. Noftall (left), and William Graff, chief librarian of the Public Library, who introduced Miss Irwin.—(Parks Studio Photo).

HEALTHY FOOD like fresh fruit is one of the greatest needs of children. In the accompanying story, four basic rules of health for children are outlined for parents who are ager to give their children health security.

FOR PARENTS ONLY:

# Fundamental Rules Guide Parents In Child's Health

By NANCY CLEAVER.

, "The first wealth is health," said Emerson in "The Conduct of Life." Isaac Walton made the wise comment, "Look to your health; and if you have it, praise God, and value it next to a good conscience." Thomas Carlyle once remarked, "There is no kind of achievement equal to perfect health," and Wendell Phillips said "Health lies in labor, and there is no royal road to it but through toil."

Parents will agree that keeping active children healthy in the modern world is often quite task. In "Up the Years from One to Six," that excellent booklet produced by the Department of National Health and Welfare, Ottawa, there are four fundamental rules outlined for parents who are eager to give their children "Health Security." These are well worth clipping and keeping as guide to parents.

They are as follows; See that your child is brought up in a happy environment. Family quarrels and tensions can be most damaging to your child and the harmful effects carried over into his adult life. Many an unhappy person today can trace his troubles to an unhappy childhood. Guide and encourage him in correct but it was a proposed an interested provided and encourage him in correct but it was a fire of the provided and encourage him in correct but it was a proposed and fresh fruit every day, and some meat, fish, eggs or cheese.

person today can trace his troubles to an unhappy childhood. Guide and encourage him in correct milk and four glasses of water health practices. Protect him from contagious diseases by having him immunized by your own physician or at the nearest health clinic as soon as possible. Provide him with the necessary foods to ensure good health and proper growth and development.

# Girl Should Avoid Party Effort If Plans Fail

DEAR MISS DIX: For the past year I have been very fond of a boy, 20, three years older than I. He is a neighbor of my girl friend, and the only time I see him is when I visit her, which isn't too often. When we do meet, he's friendly, but never suggests dating me. I am an attractive girl, but shy. How can I get this boy to notice me?

Box, Varsity Wins

KINGSTON (CP)—The ice surface uned into a boxing ring Fricay when the University of Toronto Blues defeated Queen's University 5-4 in an exhibition hockey game.

A free-swinging second-period trawl saw referee Don Keenleyside suffer a cut face. The game threatened to come to an abrupt end when Toronto manager Jack Kennedy withdrew his Varsity team after the fight. However he was persuaded to return and finish the game.

Dysart and Woods each paced Varsity with two goals. Akitt notched the other. Wagar, with two Dozzi and Hill were the Queen's marksmen.

# Age No Criterion For Curling **Entries Prove**

By CRAIG ARMSTRONG SUDBURY (CP)—Age is no cri-terion for the "roarin" game." En-tries in the Canadian curling cham-pionships show that.

Contestants, all provincial champions, range in age from 73 to 21. Most of those playing in the March 2-6 Canadian championships here are between 35 and 50. Pete Gilbert, 73, skip of the Ontario rink, is the oldest curler in the 11-rink bonspiel. Hal Worth, who has just reached 21, shoots second for the Saskatchewan cham-

round-robin championship — one from the southern part of the prov-ince called the "Ontario" rink and one from the north designated "Northern Ontario."

"Northern Ontario."

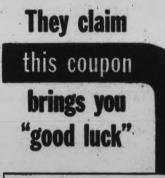

Between the opening-day parade to the arena from the hotel bonspiel headquarters to the crowning of the champion Friday night there is a hard grind. There is one bye in every round leaving 10 games to be played.

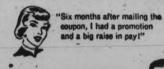

Gilbert, unique in the tournament in that he shoots first rock instead of playing the usual cleanup spot, is an old hand at championship 'spiels. This is his second trip to the Canadian championships and he has been in the finals of about seven provincial championships.
